Department Of Public Works
Bristol, Connecticut 06010

Date: November 7, 2012

To: Mayor Arthur J, Ward, Chairman, Board of Public Works

From: W.E. Veselka, P.E, PWLF, Director of Public Works 

Re: Discontinuance of a Portion of ESPN Drive (Formally knows as Town Line Road)

I request the Board of Public Works agree to bring this matter, acted on at their October meeting, back up to correct the length of roadway proposed for discontinuance. In the original motion we stated approximately 630 feet. After the meeting we received a map that will be used for the action of the Public Hearing and Assessments Committee and City Council that shows the length of the sliver to be 656.33 feet. To insure the action taken by the City Council is correct it is recommended that the Board of Public Works and Planning Commission, which passed a similar motion, take action to amend the length of the sliver.

After discussing this matter with the City Clerk we are confident in recommending that the Board simply amend the motion passed at the October 18th meeting. It is not necessary to take action to rescind the original motion and approve a new motion.

I offer the following suggested motion:

I move the Board of Public Works amend their action on Item 12 a., New Business, at their October 18, 2012 meeting to correct the length of the road to be discontinued from approximately 630 to approximately 656 feet and notify the City Council of this action. As amended the motion will read: *I move the Board of Public Works forward the following recommendation to the City Council. Being no longer needed for highway purposes, the Board of Public Works recommends the City of Bristol discontinue that portion of ESPN Drive, formally known as Town Line Road, described as follows: A sliver of land within the City of Bristol running from the east line of the former Birch Street, now discontinued, in an easterly direction approximately 656 feet.*

Thank you for your consideration on this matter.
