

BRISTOL FIRE DEPARTMENT

June 17, 2019

Mr. Ray Rogozinski, Director
City of Bristol Public Works Department
111 North Main Street
Bristol, CT 06010

Dear Ray,

I am writing to thank you and your department for assisting the Fire Department a number of times over the past few months.

A couple of months ago, your tree crew led by Jason Morocco, removed a diseased tree from our rear lot at Fire Headquarters. Most recently, the crew returned to grind the stump, remove the debris, and reseed the area.

David Oakes also sent a crew over to dispose of the overgrown shrubs that were removed during the installation of the new natural gas service to the building. And speaking of David Oakes, he is very responsive and always helpful when we call him, which I hate to say is pretty often.

And just last week our mechanic needed to diagnose a trouble code on one of our apparatus, but his scanner had been sent out for reprogramming. He took the engine over to the City Yard, where your mechanics scanned the trouble code for him. He was able to order the part needed to correct the condition because of the assistance provided by your staff in diagnosing the problem.

I know that the aforementioned items are not big projects in the realm that is public works, but they all add up to a cooperative effort that keep our operation moving forward.

Please pass on my thanks to your personnel, and the Board of Public Works.

Sincerely,

Jay Kolakoski, Chief
Bristol Fire Department
