5C.6 Raising Cutoff Amount for the Transfer Station. Staffed discussed that with the negative balance amounts rising the amount to get in should be raised from the $5.00 to another amount such as $15.00. The committee discussed and looked over the policy and agreed to raise the minimum from $5.00 to $25.00 to be able to gain access in to the Transfer Station. If the resident has a $25.00 minimum due to NSF already it will be raised to $50.00 to gain access to the Transfer Station.

MOTION by Council Representative Hahn to:

Raise the minimum from $5.00 to $25.00 to gain access to the Transfer Station.

Motion seconded.

VOTE: The motion carried 2-0.

5C.7 Shared Cost Waterway Tree and Wooden Debris Removal Policy. Raymond Rogozinski brought forth a new policy so we can help residents with cost expenses that associates with trees that fall on private property in waterways. The max the city would contribute is $3,000.00 and they have to agree to the cost sharing to make this work. Most homeowners have trouble paying the high costs associated with tree removal. This will help the residents with that up to $3,000.00. Because these trees are on private property it is hard to gain access to remove ourselves so this will help both us and the resident and get the tree out of the waterway. This is mirroring our sidewalk policy.

MOTION Council Representative Hahn to:

Amend the policy of a few changes and present to the Board on the 17th. Motion seconded.

VOTE: The motion carried 2-0.
