6. CONSTRUCTION MANGER UPDATE
- Reviewed the schedule – the current schedule has a proposed early demolition and abatement package

David Preleski brought up a concern that the building committee may not be progressing in a timely manner.

Tim Callahan stated, the way the process was to apply for the grant for the Memorial Boulevard Intradistrict School was unique. Typically, a project is applied for in June and the decision would be made by the state within the year; that is when the program would be written. In this case, there was special legislation that allowed us to apply for the grant. In order to meet the grant application timeline, the Education Specifications needed to be written and submitted.

Angela Cahill expressed that things need to keep moving as they have been and she is okay with the progress the committee has made to this point. There are unknowns that are bound to arise and many approvals to go through. She is satisfied with the schedule and where the project is.

7. EXPENDITURE REPORT
- To date: $171,502 has been paid out and there is a pending payment of $50,353
