Fiscal Year Ending June 30, 2017**

Comprehensive Annual Financial Report

of the City of Bristol, Connecticut

*Fiscal Year
July 1, 2016 to June 30, 2017*

PREPARED BY:

Comptroller's Office

Diane Waldron
Comptroller

Contents

I. Introductory Section - unaudited		
	Principal officials	i
	Organizational chart of Bristol government	ii
	Comptroller's letter of transmittal	iii-vii
	Certificate of achievement for excellence in financial reporting	viii

II. Financial Section		
	Independent auditor's report	1-3
	Management's discussion and analysis – unaudited	5-16

Basic Financial Statements

Exhibit **Government-Wide Financial Statements:**

I.	Statement of net position	17
II.	Statement of activities	18

Fund Financial Statements:

III.	Balance sheet – governmental funds and reconciliation of governmental funds fund balance to net position of governmental activities	19-20
IV.	Statement of revenues, expenditures and changes in fund balances (deficits) – governmental funds and reconciliation of the statement of revenues, expenditures and changes in fund balances – governmental funds to the statement of activities	21-22

Proprietary Funds:

V.	Statement of net position – proprietary funds	23
VI.	Statement of revenues, expenses and changes in net position – proprietary funds	24
VII.	Statement of cash flows – proprietary funds	25

Fiduciary Funds:

VIII.	Statement of fiduciary net position – fiduciary funds	26
IX.	Statement of changes in plan net position – fiduciary funds	27
	Notes to financial statements	28-74

Required Supplementary Information - Unaudited

RSI-1.	Schedule of general fund revenues and other financing sources – budget and actual	75-77
RSI-2.	Schedule of general fund expenditures and other financing uses – budgetary basis - budget and actual	78-87
RSI-3.	Schedules of funding progress and employer contributions - OPEB	88

Contents

II. Financial Section, Continued

Required Supplementary Information, Continued:

RSI-4.	Schedule of contributions – OPEB Plan	89
RSI-5.	Schedule of changes in the City's OPEB liability and related ratios	90
RSI-6.	Schedule of changes in net pension liability (asset) and related ratios – City of Bristol retirement system	91
RSI-7.	Schedule of changes in net pension liability (asset) and related ratios – Firefighters' benefit fund	92
RSI-8.	Schedule of changes in net pension liability (asset) and related ratios – Police benefit fund	93
RSI-9.	Schedule of employer contributions – City of Bristol retirement system	94
RSI-10.	Schedule of employer contributions – Firefighters' benefit fund	95
RSI-11.	Schedule of employer contributions – Police benefit fund	96
RSI-12.	Schedule of investment returns – pension trust funds	97
RSI-13.	Schedule of the City's proportionate share of the net pension liability – teachers' retirement system	98

Combining and Individual Fund Financial Statements and Other Schedules

Exhibit General Fund:

A-1.	Comparative balance sheet	99
A-2.	Report of tax collector	100

Nonmajor Governmental Funds:

B-1.	Combining balance sheet	101-103
B-2.	Combining statement of revenues, expenditures and changes in fund balance	104-106

Capital Improvement Fund:

C.	Schedule of expenditures – actual vs. appropriations	107-110
----	--	---------

Enterprise Funds:

D-1.	Comparative statement of net position	111
D-2.	Comparative statement of revenues, expenses and changes in net position	112
D-3.	Comparative statement of cash flows	113

Internal Service Funds:

E-1.	Comparative statement of net position	115
E-2.	Comparative statement of revenues, expenses and changes in net position	116

City of Bristol

BRISTOL, CONNECTICUT 06010

December 27, 2017

To the Honorable Mayor, Members of the City Council, Members of the Board of Finance and Citizens of the City of Bristol:

State law requires that all general-purpose local governments publish within six months of the close of each fiscal year a complete set of financial statements. This report is published to fulfill that requirement for the fiscal year ended June 30, 2017.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of material misstatements.

RSM US LLP, Certified Public Accountants, have issued an unmodified (“clean”) opinion on the City of Bristol’s financial statements for the year ended June 30, 2017. The independent auditor’s report is located at the front of the financial section of this report.

Management’s Discussion and Analysis (MD&A) immediately follows the independent auditor’s report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complement this letter of transmittal and should be read in conjunction with it.

PROFILE OF THE GOVERNMENT

The City of Bristol, incorporated in 1911, is located in the west central part of the state, once considered the clock making, ball bearing, and lock manufacturing capital of the United States. The City remains proud of its industrial heritage. The City seal continues to maintain this history by depicting the hands of a Clock. The City occupies 26 square miles and serves a population of approximately 60,000. The City of Bristol is empowered to levy a property tax on both real and personal property and also on motor vehicles.

The City has operated under the mayor-council form of government since inception. Policy making and legislative authority is vested in the governing council (Council) consisting of the mayor and six other members, all elected on a non-partisan basis. Council members serve two-year terms. The mayor is elected for a two-year term. The mayor is elected at large and council members are elected by district.

The City of Bristol provides a full range of services, including schools, police and fire protection; the construction and maintenance of highways, streets and other infrastructure; recreational activities and cultural events; and sanitation services. Certain health services are provided through a legally separate Bristol Burlington Health District and water services are provided through a legally separate Bristol Water Department which functions, in essence, as departments of the City of Bristol and therefore have

“An Equal Opportunity Employer”

been included as an integral part of the City of Bristol's financial statements. Additional information on all these legally separate entities can be found in the notes to the financial statements (See Note 1A).

The Joint Board of the Board of Finance and City Council are required to adopt a final budget by no later than the third Monday in May. This budget serves as the foundation for the City of Bristol's financial planning and control. The budget is prepared by fund, function (e.g., public safety), and department (e.g., police). The Board of Finance has the power to approve budget revisions during the year up to \$5,000. Revisions in excess of \$5,000 require Joint Board approval.

NATIONAL, STATE & LOCAL ECONOMY

Fitch Ratings upgraded its rating for Bristol from AA+ to AAA in October 2016. Fitch sited Bristol as a suburban City located 20 miles southwest of the state capital city of Hartford with a broad based economy anchored by ESPN, which employs more than 4,000 people. More recently, in November, 2017 Standard and Poor's reaffirmed the City's AA+ rating citing a strong economy and budgetary performance and very strong financial management, budgetary performance and flexibility and debt and contingency liability position. The City has varied manufacturing and industrial sectors that adds to the relative stability of the local economy. Major industries with headquarters or divisions located within the government's boundaries include ESPN, the nation's first and largest all-sports television network. The ESPN worldwide headquarters remains the City's largest taxpayer, accounting for 6% of total property assessed valuation. ESPN's growth in Bristol is assured by on-going development of an acquisition of 20 adjoining acres. Their newest digital center, comprises over 193,000 square feet of office space and four technologically advanced production studios. The city continues to be a leader in manufacturing, producing a wide variety of precision-crafted goods such as tin ware, bells, coaster brakes, hard wares, clocks, screw machine products, electronic items, timing devices, and robotic-based automation systems. Specialty manufacturers produce for a diverse array of industries, including medical devices, surgical equipment, aerospace, and automobile items. The City also benefits from upcoming construction of a 120,000 square foot downtown medical facility by Bristol Hospital.

UNEMPLOYMENT. Connecticut's average unemployment rate for the fiscal year decreased from 6.29% in 2016 to 4.7% in 2017 while Bristol's unemployment decreased to 5.4% versus 6.98% a year ago. Income per capita in Bristol is approximately 15% higher than the national average and household income is 10% higher than the national average at \$61,478.

As a result of a variety of business expansion and relocation incentives to promote development, renewed investment, and new employment opportunities, the City of Bristol expects its Grand List to continue to grow while providing quality employment opportunities for residents. Major employment centers within Bristol include the worldwide headquarters of ESPN, Bristol Hospital, and a host of high-tech manufacturers throughout the City.

The City's high-profile technology parks are designed to bring manufacturers and similar businesses to Bristol. The 229 Technology Park, located off heavily traveled CT Route 229, hosts nearly 30 businesses with upwards of 1,000 employees. Standout businesses include Otis Elevator, IDEX Corp., Bauer Inc., and the Covanta trash-to-energy plant. Just down the street, the City's newest technology park - Southeast Bristol Business Park - is approximately 51 acres to host new and innovative companies. The infrastructure for the Park was a jointly funded project of the state and the City. The acreage will ultimately accommodate approximately 750,000 square feet of new space. The Park construction is complete and open for occupancy. The Park already has five tenants, including CMI Specialty Products,

Precision Threaded Products, GMN USA, AMKO, and a 130,000 distribution center for the Connecticut/Western Massachusetts PODS portable storage company.

LONG-TERM FINANCIAL PLANNING

Downtown revitalization remains a top priority for reasons of economic vitality and quality of life. The City is currently studying the proper mix of public and private improvements and investments. To kick start downtown revitalization, the City purchased a former mall site in March 2005, and the building was later demolished. As previously mentioned Bristol Hospital is building a 120,000 square foot medical center to consolidate its medical facilities throughout the City. The re-use of the 17 acre site is a key component and opportunity for downtown revitalization. The eventual sale of the site, or portions of the site, could recoup a substantial portion of the purchase price, restart the income stream of taxes, and help spark renewed interest in surrounding downtown properties.

RELEVANT FINANCIAL POLICIES

The City has formally adopted key financial policies. Several years ago, a use of fund balance policy was established by the Board of Finance to (1) reduce the general fund's reliance on surplus to balance the budget, and (2) to maintain a prudent level of financial resources to protect against reducing service levels or raising taxes and fees because of temporary revenue shortfalls or unpredicted one-time emergency expenditures. The fund balance policy goal is to maintain general fund unassigned fund balance at 12-15% of budgeted operating revenues.

The City also adopted a debt policy that establishes parameters and guidance for the Board to make decisions on capital spending and issuance of debt as a means to fund them as well as an Investment Policy.

In addition, several general financial policies guide the City in areas such as justification for new hires, travel reimbursement guidelines, sinking fund purchases for capital items, and addressing technology issues through a computer and related equipment lease replacement program. Fiscal policies are reviewed annually. These and other key financial policies may be found in the City's budget document behind the tab labeled 'Policy Initiatives'.

MAJOR INITIATIVES

Education entails the largest portion of the City's budget. Due to resource constraints, funding for education increased to \$107,147,240. This increases the State's minimum budget requirement (MBR), a state statute that mandates a Board of Education budget must be funded at a minimum at least to the prior year funding level.

Strategies used in balancing the 2016-2017 budget:

- Department Heads were asked to submit a budget between two and three percent
- Minimal bonding of the Ten Year Capital Improvement Plan
- Continue to develop and implement fiscal policies to keep the City's bond rating strong
- Develop a plan to prioritize Capital spending in a way that spreads these costs over time to minimize the tax impact

Percentages

- Requests totaled \$194.9 million from the City side and Board of Education. This represented a \$9.9 million or 5.3% increase over the current budget
- The Board of Education request increased \$4.7 million or 4.4%, this increase was reduced to a .29% impact to the minimum budget requirement; however they were provided an additional \$3.6 million or 3.3% in funding allocated from revenues to net their increase.
- General City requests increased by \$3 million or 4.92%
- The Board of Finance approved a 36.03 mill rate representing a 4.1% tax increase

AWARDS AND ACKNOWLEDGEMENTS

Comprehensive Annual Financial Report (CAFR):

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2016. This was the thirtieth consecutive year, which the City has received this prestigious award. In order to be awarded a Certificate of Achievement, the City published an easily readable and efficiently organized comprehensive annual financial report. This report satisfied both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Popular Annual Financial Report (PAFR):

Also, the Government Finance Officers Association of the United States and Canada (GFOA) has given an Award for Outstanding Achievement in Popular Annual Financial Reporting to the City of Bristol for its Popular Annual Financial Report for the fiscal year ended June 30, 2016. The Award for Outstanding Achievement in Popular Annual Financial Reporting is a prestigious national award-recognizing conformance with the highest standards for preparation of state and local government popular reports. In order to receive an Award for Outstanding Achievement in Popular Annual Financial Reporting, a government unit must publish a Popular Annual Financial Report, whose contents conform to program standards of creativity, presentation, understandability and reader appeal. An Award for Outstanding Achievement in Popular Annual Financial Reporting is valid for a period of one year only. This is the fifteenth year in a row the City of Bristol has received the Popular Annual Financial Reporting Award. We believe our current report continues to conform to the Popular Annual Financial Reporting requirements, and we are submitting it to GFOA.

Distinguished Budget Presentation Awards Program:

The Government Finance Officers Association of the United States and Canada (GFOA) awarded the City of Bristol the GFOA's Distinguished Budget Presentation Award for its budget. The award represents a significant achievement by the City of Bristol. It reflects the commitment of the governing body and staff to meeting the highest principles of governmental budgeting. This is the fourteenth consecutive time the City has received this award.

Acknowledgements

The preparation of this report would not have been possible without the efficient and dedicated service of the entire staff of the Comptroller's Office, in particular, Assistant Comptroller Robin Manuele, Senior Accountant Skip Gillis, Budget and Accounting Assistant Sharon Chaika, and Assistant to the Comptroller, Jodi McGrane. We wish to express our appreciation to all members of the department who assisted and contributed to the preparation of this report. Credit also must be given to the Mayor and the governing council and Board of Finance for their unfailing support for maintaining the highest standards of professionalism in the management of the City of Bristol's finances.

Respectfully submitted,

Diane M. Waldron
Comptroller

Independent Auditor's Report

RSM US LLP

To the Members of the City Council and the Board of Finance
City of Bristol, Connecticut

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of the City of Bristol, Connecticut (the City) as of and for the fiscal year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the City of Bristol's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of the City of Bristol, Connecticut as of June 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison information, the pension and other post-employment related schedules, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit as of and for the year ended June 30, 2017, was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Bristol, Connecticut's basic financial statements. The introductory section, combining and individual fund financial statements and other schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and other schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and other schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections, as listed in the table of contents, have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

We also previously audited, in accordance with auditing standards generally accepted in the United States of America, the basic financial statements of the City of Bristol, Connecticut, as of and for the year ended June 30, 2016 (not presented herein), and have issued our report thereon dated December 23, 2016, which contained unmodified opinions on the respective financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information. The accompanying General Fund, Water, Enterprise Fund, Internal Sewer Fund and Pension Trust Funds schedules ("Schedules") as of June 30, 2016, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and related directly to the underlying accounting and other records used to prepare the 2016 financial statements. The accompanying Schedules have been subjected to the auditing procedures applied in the audit of the 2016 basic financial statements and certain additional procedures including comparing and reconciling such information directly to the underlying accounting and other records used to prepare those financial statements or to those financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedules are fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended June 30, 2016.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 27, 2017 on our consideration of the City of Bristol, Connecticut's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Bristol, Connecticut's internal control over financial reporting and compliance.

**CITY OF BRISTOL, CONNECTICUT
MANAGEMENT'S DISCUSSION AND ANALYSIS - UNAUDITED
FOR THE YEAR ENDED JUNE 30, 2017**

This discussion and analysis of the City of Bristol, Connecticut's (City) financial performance is provided by management to provide an overview of the City's financial activities for the fiscal year ended June 30, 2017. Please read this MD&A in conjunction with the transmittal letter beginning on page i and the City's financial statements, Exhibits I to IX.

FINANCIAL HIGHLIGHTS

- The City's total net position increased by \$1.3 million or 0.2%. Net position of business-type activities increased by \$1.1 million, or 3.9%, and net position of our governmental activities increased by \$239 thousand, or 0.1%.
- During the year, revenues generated in tax and other revenues for governmental programs and business activities exceeded expenses by \$1.3 million. This is primarily a result of successful efforts of the Tax Collector to collect on delinquent taxes as well as an unexpected increase in the supplement motor vehicle (SMV) billing. The SMV levy issued for a January 1, 2017 due date totaled \$2.2 million. At an 87% average collection rate approximately \$1.96 million was collected compared to \$900 thousand anticipated.
- In the City's business-type activities, revenues increased \$1.1 million or 15.5% while expenses decreased by 1.2%.
- Total cost of all of the City's programs was \$256.7 million with no new programs added this year. This represents an \$1.5 million increase compared to fiscal year 2016. The increase represents, in part, increased budgetary appropriations for city-wide operations primarily for education operations.
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$27.8 million, or 12.7% of general fund expenditures and transfers out.
- The tax collection rate was 98.92% of the current levy and an increase to last year's rate of 98.68%.
- The City of Bristol's total bonded indebtedness including its Enterprise fund bonds increased by \$18.3 million to \$81.7 million or 28.8% after current year annual debt service payments. The City issued \$21.1 million in general obligation bonds to finance various ongoing capital projects as well as \$3.4 million in tax exempt bond anticipation notes. The City also "rolled over" (reissued) \$4.0 million in taxable general obligation bond anticipation notes originally issued in 2008.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of a series of financial statements. The statement of net position and the statement of activities (Exhibits I and II, respectively) provide information about the activities of the City as a whole and present a longer-term view of the City's finances. Fund financial statements are presented in Exhibit III to IX. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the City's operations in more detail than the government-wide statements by providing information about the City's most significant funds. The remaining statements provide financial information about activities for which the City acts solely as a trustee or agent for the benefit of those outside of the government.

Government-Wide Financial Statements

The analysis of the City as a whole begins on Exhibit I and II. The statement of net position and the statement of activities report information about the City as a whole and about its activities for the current period. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. These two statements report the City's net position and changes in them. The City's net position, the difference between assets and liabilities, are one way to measure the City's financial health, or financial position. Over time, increases or decreases in the City's net position are one indicator of whether its financial health is improving or deteriorating. The reader needs to consider other non-financial factors, however, such as changes in the City's property tax base and the condition of the City's capital assets, to assess the overall health of the City.

In the statement of net position and the statement of activities, we divide the City into three types of activities:

- *Governmental activities* – Most of the City's basic services are reported here, including education, public safety, public works, health and welfare, libraries, parks and recreation, and general administration. Property taxes, charges for services, and state and federal grants finance most of these activities.
- *Business-type activities* – The City charges a fee to customers to help it cover all or most of the cost of certain services it provides. The City's Water Department operations are reported here.
- *Component units* – The City includes one separate legal entity in its report; the Bristol-Burlington Health District. Although legally separate, this "component unit" is important because the City is financially accountable for it.

Fund Financial Statements

The fund financial statements begin with Exhibit III and provide detailed information about the most significant funds – not the City as a whole. Some funds are required to be established by Charter. However, the City Council establishes many other funds to help control and manage financial activities for particular purposes (like the Capital Projects Fund and Debt Service Fund) or to show that it is meeting legal responsibilities for using grants, and other money (like grants received from the State Department of Education and the Federal Department of Housing and Public Administration). The City's funds are divided into three categories; governmental, proprietary and fiduciary.

- *Governmental funds (Exhibit III and IV)* – Most of the City's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. The relationship (or differences) between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds is described in a reconciliation at the bottom of the fund financial statements.
- *Proprietary funds (Exhibit V through VII)* – When the City charges customers for the services it provides, whether to outside customers or to other units of the City, these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the statement of net position and the statement of activities. In fact, the City's enterprise fund (a component of proprietary funds) is the same as the business-type activities reported in the government-wide statements, but provide more detail and additional information, such as cash flows, for proprietary funds. Internal service funds (the other component of proprietary funds) are used to report activities that provide supplies and services for

the City's other programs and activities – such as the City's Health Benefit and Workers' Compensation Internal Service Fund.

- *Fiduciary funds (Exhibit VIII and IX)* – The City is the trustee, or fiduciary, for its employees' pension plans. It is also responsible for other post employee benefit assets that, because of a trust arrangement, can be used only for the trust beneficiaries. All of the City's fiduciary activities are reported in separate statements of fiduciary net position and changes in fiduciary net position. These activities are excluded from the City's other financial statements because the City cannot use these assets to finance its operations. The City is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The City's combined net position increased from a year ago from \$557 million to \$558 million. The analysis below focuses on the net position (Table 1) and changes in net position (Table 2) of the City's governmental and business-type activities.

	Governmental Activities		Business-Type Activities		Total Government	
	2017	2016	2017	2016	2017	2016
Current assets	\$ 322,616,583	\$ 284,411,692	\$ 8,834,158	\$ 7,841,354	\$ 331,450,741	\$ 292,253,046

Net position of the City's governmental activities increased by 0.2% or \$1.3 million compared to a prior decrease of \$7.5 million. Unrestricted net position – the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements is \$73.5 million at the end of this year. The net position of business-type activities increased by \$1.05 million in 2017 compared to 2016.

The City's total revenues were \$258 million. The total cost of all programs and services was \$256.7 million. The pie chart analysis below considers the operations of governmental and business-type activities.

Governmental Activities

Governmental Activities increased the City of Bristol's net position by \$1.3 million. The prior year decrease in net position was \$7.5 million. Key elements of this increase with offsetting decreases are as follows:

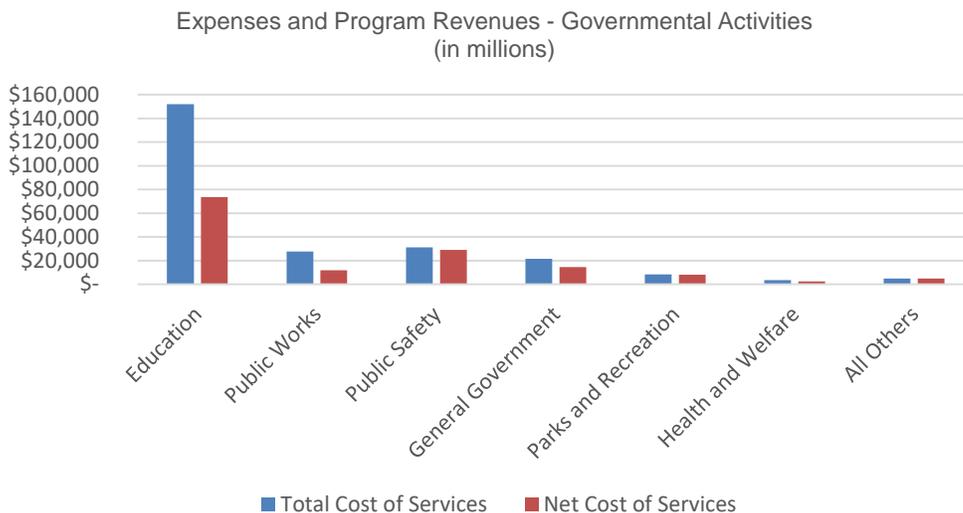

- Property tax collections increased \$7.7 million during the year. This is due to the following factors. The city increased the mill rate from 34.61 to 36.03, a 4.1% tax increase to balance increased budget appropriations, the supplemental motor vehicle tax levy for January 1, 2017 was significantly higher than anticipated and generated approximately an additional \$1 million in tax revenue and the Tax Office was highly successful with its collection efforts on delinquent taxes.
- Operating and capital grants and contributions for governmental activities increased by \$2.5 million.
- Charges for services increased \$1.6 million. This is a result of a combination of increased real estate transfer taxes, and public safety, public works, and building permit fees.
- Investment earnings increased \$869 thousand. Interest rates still remain quite low however the City has had success with its investments to maximize earnings while remaining within the parameters of its cash manage investment policy.
- Governmental activities expenses increased by \$1.5 million primarily as a result of increased appropriation expenses for the education department programs offset by reductions in other City department expenses.

- The State of Connecticut Teacher Retirement System is funded by the State. The funding levels had remained relatively flat in prior years, but due to revised actuarial assumptions the Teacher's Retirement System has seen significant increases in its liabilities and costs. This year the on-behalf state teacher's contribution was \$22 million, an increase of \$8.3 million from the previous year.

Table 3 presents the cost of each of the City's six largest programs – education, public works, public safety, general government, parks and recreation, and health and welfare – as well as each program's net cost (total cost less revenues generated by the activities). The net cost shows the financial burden that was placed on the City's taxpayers by each of these functions.

**TABLE 3
GOVERNMENTAL ACTIVITIES**

	Total Cost of Services		Net Cost of Services	
	2017	2016	2017	2016
Education	\$ 152,095,342	\$ 142,696,114	\$ (73,690,669)	\$ (69,209,005)
Public Works	27,755,308	33,358,035	(11,942,261)	(15,039,443)

Health and Welfare	8,472,561	8,749,471	(8,153,900)	(8,392,699)
Parks and Recreation	3,526,465	3,744,334	(2,300,798)	(2,554,253)
All other	4,825,580	5,326,081	(4,773,008)	(5,269,838)
Total	\$ 249,419,778	\$ 247,873,010	\$ (144,437,892)	\$ (146,574,575)

Business-Type Activities

Revenues of the City's business-type activities (see Table 2) were \$8.3 million in 2017 compared to \$7.4 million in 2016 and net expenses decreased by 3.9%. The factors influencing these results included:

- Revenues: Increases were experienced in charges for services due to an increase in water rates as well as an increase in non-operating income
- Expenses: Were relative stable compared to 2016.

CITY FUNDS FINANCIAL ANALYSIS

Governmental Funds

As the City completed the year, its governmental funds (as presented in the balance sheet – Exhibit III) reported a combined fund balance of \$59.2 million.

Approximately 39% of this total amount (\$23.3 million) constitutes unassigned fund balance, which is in excess of nonspendable, restricted, committed and assigned fund balance. The remainder of fund balance is constrained to specific purposes to indicate that it is not available for new spending because it has already been committed 1) to liquidate contracts and purchase orders of a prior period 2) to pay debt service 3) to generate income to pay for the perpetual care and maintenance of storm water control problem areas and City cemeteries, or 4) for a variety of other restricted specific purposes.

The General Fund is the chief operating fund of the City of Bristol. At the end of the current fiscal year, unassigned fund balance of the general fund was \$27.8 million, while total fund balance reached \$38.8 million. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 12.7% of total general fund expenditures including the State Teacher's Retirement behalf payments, while total fund balance represents 17.8% of that same amount. This compares to 15.2% and 19.1%, respectively, to the prior year.

The Debt Service Fund has a total fund balance of \$919 thousand, all of which is restricted for the payment of debt service. Funding for debt service is represented by a transfer out of the General Fund to the Debt Service Fund.

Proprietary Funds

The City of Bristol's proprietary funds provide the same type of information found in the governmental-wide financial statements, but in more detail.

Unrestricted net position of the Water Department and Health Benefits and Workers' Compensation funds at the end of the year amounted to \$24.2 million, of that amount; the Health Benefits and Workers' Compensation fund has accumulated \$16.5 million of net position, which is equal to the funds unrestricted net position. This fund experienced a slight decrease in medical claims in the current year of \$525 thousand while there was an increase in City and employee contribution of \$3.1 million. Overall this fund experienced a \$3.6 million increase in net position.

Other factors concerning the finances of the Water Department have already been addressed in the discussion the City of Bristol's business-type activities.

General Fund Budgetary Highlights

Variances between original budget and the amended budget (RSI-1 and 2) can be briefly summarized as follows:

Estimated Revenues:

- Current Property Tax Collections are estimated year to year at 98%. Actual current collections were 98.92%. Current tax collections increased \$7.1 million due to the increase in the mill rate to 36.03 from 34.61 to balance expenditure appropriations.
- State grants are budgeted with available known estimates from the State. Some state grants exceeded original expectations due to the reimbursement nature of the grants, while others are formula driven, such as the PILOT grant. A municipal grant in aid was received in the amount of \$2.5 million as a one-time grant dispersed by the State of Connecticut. This grant was appropriated for road and infrastructure improvements.
- Building permit collections were \$63 thousand over original budgeted estimates. This revenue source increase was due to an increase in new residential and commercial development activity.

- State and Federal grant estimates and resulting variances for our larger state provided grants, such as the Educational Cost Sharing and Public (child) transportation and PILOT: manufacturing and equipment and sales tax grants, are subject to political debate and approval at the state level and are not of local control. Amounts are estimated based on the best information available at the time of budget adoption.
- Excess Student Cost Base Grant, like many education grants, is difficult to estimate and is usually based on data from a prior year which may not reflect current year data. For the 2017 budget the City allocated this grant directly to the Board of Education expenditures. In the prior year the City recorded \$1.5 million of these grant revenues.

Appropriations:

- Many departments will have adjustments to their original appropriations. There are two major reasons: first, the departments cannot over expend their line items, and second, at year end over expenditures are covered by either transfers within the department line items or transfers from other department's excess funds at year end.

Large transfer amounts usually signify unusual circumstances. For instance:

- The School Readiness grant is not budgeted until the grant amount is known, which is usually after budget adoption.
- Public Safety adjustments within the Police and Fire Department budgets were caused by costs of overtime for unplanned local emergencies and contractual replacement for sick or injured personnel within divisions.
- A \$29.3 million transfer from the General fund to the Internal Service Fund refers to a year-to-year combined City and Education appropriation transfer for workers' compensation expenses and health benefit expenses.
- Personnel and Corporation Counsel – These divisions experienced significant increased costs in contractual services for outside counsel primarily for labor and litigation issues.
- Public Works – Major Road Improvements – This division received a one-time State grant that was specifically for road improvements in addition to the original budget amount for road maintenance and improvements.
- Public Works – Snow Removal costs increased due to more snow and ice storm events over the prior year.
- Public Works – Streets – This division purchased an asphalt recycler to assist with street repair and maintenance.
- Retirement Benefits – The City approved an additional contribution to the Retirement Fund during the year of \$450 thousand. The City did not have a contribution the prior year. Per the actuarial valuation there was a required contribution for the 2017 fiscal year primarily a result of changes in actuarial assumptions.
- Other Post-Employment Benefits – the city increased its reserves for this benefit line item for future use.
- Education – Education required an additional appropriation of \$2.4 million due to increased Special Education costs not eligible for State reimbursement.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2017, the City had \$369.9 million invested in a broad range of capital assets, including land, buildings, park facilities, vehicles and equipment, roads, bridges, and water and sewer lines – Table 4. This amount represents a net increase (including additions and deductions) of \$11.4 million, or 3.2%, over last year.

TABLE 4
CAPITAL ASSETS AT YEAR-END (Net of Depreciation)

	Governmental Activities		Business-Type Activities		Total	
	2017	2016	2017	2016	2017	2016
Land	\$ 18,643,403	\$ 18,446,473	\$ 2,752,140	\$ 2,752,140	\$ 21,395,543	\$ 21,198,613
Construction in progress	31,572,679	18,879,831	1,105,211	1,059,556	32,677,890	19,939,387
Buildings	162,233,452	162,883,774	16,433,907	16,970,605	178,667,359	179,854,379
Improvement other than buildings	3,323,542	5,259,066	-	-	3,323,542	5,259,066
Machinery and equipment	19,521,792	19,121,248	2,808,842	2,719,662	22,330,634	21,840,910
Infrastructure	111,528,889	110,384,430	-	-	111,528,889	110,384,430
	\$ 346,823,757	\$ 334,974,822	\$ 23,100,100	\$ 23,501,963	\$ 369,923,857	\$ 358,476,785

The following are the more significant aspects of the changes in capital assets:

Land

- Governmental Activities: The City purchased eight parcels of property and sold three during the fiscal year.

Construction in progress

- Governmental Activities: Minor increase is due to projects started during the year and still in progress at year end including renovations to Firehouse 4; Bridge improvements, upgrade to Water Pollution Control Plant and Synthetic Field improvements.

Buildings

- Governmental Activities: The City demolished one building and sold one during the year.

Improvements other than buildings

- Governmental Activities: Decrease is solely the result of depreciation.

Machinery and Equipment

- Governmental Activities: Increase is the purchase of new vehicles and various equipment in the Police, Fire, Parks and Public Works Departments.
- Business Type Activities: Increase due to the purchase of new equipment during the year.

Infrastructure

- Increase is for road improvements.

Fiscal Year 2017 Capital Budget	
<u>Department</u>	
Board of Education	\$3,792,960
MIS	580,000
Fire Department	720,000
Parks Department	200,000
Public Works	4,752,000
Public Works - WPC	750,000
Memorial Boulevard Building Committee	5,000,000
Total All Departments	<u><u>\$15,794,960</u></u>
<u>Funding</u>	
Sale of Bonds	\$12,994,560
General Fund Cash	560,400
LOCIP	610,000
WPC CNR	750,000
Other Funds	880,000
Total All Funding	<u><u>\$15,794,960</u></u>

The City's fiscal year 2016-2017 capital budget called for it to spend \$15.79 million for capital projects. Some of the main highlights of these projects include:

- Improve various roads- cul-de-sacs, right of ways, storm drains and related pavement outlay
- Education department funding for underground storage tank replacements at Bristol Eastern High School and the BOE Administrative Building, roof replacement at Chippens Hill Middle School, tennis court replacements at both high schools and a citywide school district feasibility study
- MIS to continue telephone upgrades, MUNIS consolidation and purchase Tyler Content Management
- Parks Department to replace the HVAC system at the Dennis Malone Aquatic Center and renovate Page Park tennis courts
- Replacement of a fire engine and self-contained breathing apparatus
- Former Memorial Boulevard School restoration to reuse the structure as a multiuse facility and theatre

More detailed information about the City's capital assets is presented in Note 5 to the financial statements.

Long-term Debt

At June 30, 2017, the City had \$73.2 million in total bonded indebtedness versus \$63.4 million last year – an increase of 15.5% – as shown in Table 5. The increase is primarily due to May, 2017 \$21.1 bond issue for various capital projects.

TABLE 5
OUTSTANDING DEBT, AT YEAR-END

	Governmental Activities		Business-Type Activities		Total	
	2017	2016	2017	2016	2017	2016
General obligation bonds (backed by the City)	\$ 70,580,000	\$ 60,208,703	\$ 2,722,196	\$ 3,233,993	\$ 73,302,196	\$ 63,442,696

The City also “rolled over” for a fifth time (reissued) \$4.0 million in taxable general obligation notes. The City paid down \$3.41 million of the original 2008 issue of \$7.41 million.

The City’s general obligation bond ratings are Aa2 and AA+ respectfully from Moody’s Investors Service and Standard and Poor’s Corporation. The Standard and Poor’s Corporation (S&P) rating represents an upgrade from AA to AA+ received in February, 2009. Prior to this upgrade, the City received upgrades from Moody’s and S&P in August 2000. A Fitch rating was first established for the City in June 2006. In October 2016 Fitch upgraded the rating to AAA.

The State limits the amount of general obligation debt that cities can issue based on formula determined under State Statutes based on type of debt and tax base. The City’s outstanding general obligation debt is significantly below this \$990 million state-imposed limit.

Other obligations include accrued vacation pay and sick leave. More detailed information about the City’s long- term liabilities is presented in Note 8 to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR’S BUDGETS AND RATES

The City’s elected and appointed officials considered many factors when setting the fiscal-year 2017 budget tax rates, and fees that will be charged for the business-type activities. One of those factors is the economy. Unemployment in the City decreased to 5.4% versus 6.98% a year ago. This compares with the State’s unemployment rate of 4.7% (not seasonally adjusted) and the national rate of 4.4%. (Source: CT Department of Labor, 2017 Average).

Bristol’s wealth and income factors and unemployment trends are for the most part consistent within the Hartford region. Bristol’s median household effective buying income is 85% of the state’s average and 109.3% of the nation’s average.

These indicators were taken into account when adopting the General Fund budget for 2017-18. Amounts appropriated in the 2017-2018 General Fund budget are \$191 million, an increase of \$2 million over the previous year’s budget of approximately \$189 million. The property tax rate remained at 36.03.

The City will use these increases in tax revenues to finance programs currently offered and to off-set the effect that we expect inflation to have on program costs. Budgeted expenditures equal budgeted revenues in order to keep structural balance.

If these estimates are realized, the City’s budgetary General Fund balance is expected to slightly increase at June 30, 2017. Residential Building Permits, Conveyance Tax fees, interest income and delinquent tax collections continue to lag behind any signs of economic improvement. Those revenue estimates will be kept at lower levels to reflect current economic conditions.

The City of Bristol did not use any of its \$27.8 million unassigned fund balance to balance its 2017-2018 operating budget.

As for the City's business-type activities we expect marginal growth (0.25 - 0.50%) to net position based on sales over the past three fiscal years. Expense increases will be primarily due to salaries and benefits other expenses are expected to have a slight marginal increase. Also, expenses will increase for continued watershed expansion purchases and other infrastructure and equipment improvements.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide citizens, taxpayers, customers, investors, and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives and expends. If you have questions about this report or need additional financial information, contact the Comptroller's Office, City of Bristol, 111 North Main Street, Bristol, Connecticut, 06010.

**Reconciliation of Governmental Funds Fund Balance to Net Position of Governmental Activities
June 30, 2017**

Amounts reported for governmental activities in the statement of net position (Exhibit I) are different because of the following:

Fund balances - total governmental funds		\$ 59,179,133
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds:		
Governmental capital assets	\$ 686,870,042	
Less accumulated depreciation	<u>(340,046,285)</u>	
Net capital assets		346,823,757
Other long-term assets are not available to pay for current-period expenditures and, therefore, are not recorded in the funds:		
Net pension asset		197,717,337
Property tax receivables greater than 60 days		3,135,730
Interest receivable on property taxes		1,140,120
Sewer assessments receivable		477,020
Sewer assessments interest receivable		84,578
Sewer usage receivable		33,413
Grants		1,087,725
Net deferred inflows/(outflows) due to pension related items		37,838,895
Internal service funds are used by management to charge the costs of risk management to individual funds. The assets and liabilities of the internal service funds are reported with governmental activities in the statement of net position.		
		16,451,479
Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the funds:		
Bonds and notes payable		(79,002,963)
Unamortized premium on general obligation bonds		(3,566,751)
Interest payable on bonds and notes		(821,833)
Compensated absences		(8,118,379)
Landfill post closure care		(1,440,209)
Deferred charges on refunding		1,079,846
Net pension liability		(8,932,185)
Other post-employment benefit obligations		<u>(32,827,399)</u>
Net position of governmental activities (Exhibit I)		<u><u>\$ 530,339,314</u></u>

See notes to financial statements.

Fund balances (deficits), end of year	\$ 38,773,417	\$ 918,777	\$ 55,256	\$ 19,431,683	\$ 59,179,133

(Continued)

**Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances -
Governmental Funds to the Statement of Activities (Continued)
For the Year Ended June 30, 2017**

Amounts reported for governmental activities in the statement of activities are different because of the following:	
Net change in fund balances - total governmental funds (Exhibit IV)	\$ 15,640,778
Governmental funds report capital outlays as expenditures. In the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense:	
Capital outlay	26,675,968
Depreciation expense	(14,480,365)
Loss on disposal	(346,668)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds, and revenues recognized in the funds are not reported in the statement of activities:	
Property tax receivable - accrual basis change	(623,431)
Property tax interest and lien revenue - accrual basis change	(135,344)
Sewer assessment receivable - accrual basis change	10,775
Sewer assessment interest receivable- accrual basis change	35,993
Sewer usage receivable- accrual basis change	(143,560)
Grants	1,087,725
Net pension asset	19,212,015
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on net position. Also, governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are amortized and deferred in the statement of activities. The details of these differences in the treatment of long-term debt and related items are as follows:	
Bond principal and note payments	6,488,749
Bond and note proceeds	(25,283,009)
Amortization of deferred charge on refunding	(196,011)
Accrued interest	37,013
Bond premiums amortization	(613,599)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds:	
Compensated absences	(30,411)
Other post-employment benefits	(1,598,577)
Net pension liability	496,152
Landfill post closure care	61,048
Deferred inflows/outflows related pension items	(29,650,556)
Internal service funds are used by management to charge costs to individual funds. The net revenue of certain activities of internal service funds is reported with governmental activities.	3,594,584
Change in net position of Governmental Activities (Exhibit II)	<u>\$ 239,269</u>

See notes to financial statements.

City of Bristol, Connecticut

Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies

Reporting entity: The City of Bristol (the City) was incorporated in 1911. Its legal authority is derived from Chapter Ninety-nine of the General Statutes of the State of Connecticut and Number 352 of the Special Acts of 1911. The City has operated under the Council-Mayor form of government since 1911. Services provided include education, water, sewer, refuse, streets and drainage, recreation and parks, planning and zoning, community development, human services, police and fire protection. The accompanying financial statements conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governments.

GAAP require that the reporting entity include (1) the primary government, (2) organizations for which the primary government is financially accountable and (3) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The criteria provided in Government Accounting Standards Board (GASB) Codification Section 2100 have been considered and have resulted in the inclusion of one discretely presented component unit as detailed below.

Discretely presented component unit: The Bristol-Burlington Health District (the District) was formed on July 1, 1979 as a health district under Section 19-106 of the General Statutes of the State of Connecticut as a legally separate entity. The City appoints a majority of the District's governing six-member board once every three years. Although it is legally separate from the City, the District is presented discretely as it is fiscally dependent upon the City. The City contributes almost eighty percent (80%) of the District's annual operating budget. Additionally, if the District were to dissolve, according to state statute the District would immediately become a department of the City. The District does not provide services primarily to the City, but to its citizens. A complete set of financial statements may be obtained at the District's office located at 240 Stafford Avenue, Bristol, Connecticut 06010.

Related organization:

Joint Venture: The City is a participant with fourteen other cities and towns in a joint venture, the Bristol Resource Recovery Facility (BRRFOC). BRRFOC was created pursuant to an Inter-Community Agreement to exercise certain rights on behalf of the Contracting Municipalities in dealing with the trash-to-energy plant built by Ogden Martin Systems of Bristol, Inc., now known as Covanta Bristol, Inc. (Covanta). The governing board consists of City officials appointed by each of the participating municipalities, and assumes all the management decisions. Fund balance of the General Fund for fiscal year ended June 30, 2017 as reflected in BRRFOC's financial statements is \$1.8 million. A complete set of financial statements for BRRFOC can be obtained from the administrative office at 43 Enterprise Drive, Bristol, Connecticut 06010.

Accounting standards adopted in the current year and restatement of net position: GASB Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, addresses reporting by OPEB plans that administer benefits on behalf of governments. Statement 74 addresses the financial reports of defined benefit OPEB plans that are administered through trusts that meet specified criteria. The Statement follows the framework for financial reporting of defined benefit OPEB plans in Statement 45 by requiring a statement of fiduciary net position and a statement of changes in fiduciary net position. The Statement requires more extensive note disclosures and RSI related to the measurement of the OPEB liabilities for which assets have been accumulated, including information about the annual money-weighted rates of return on plan investments. Statement 74 also sets forth note disclosure requirements for defined contribution OPEB plans. The implementation of this statement resulted in additional disclosures (see Note 13). See Note 15 for the impact the adoption of GSAB 75 will have on the OPEB liability in the next fiscal year.

City of Bristol, Connecticut

Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

GASB Statement No. 77, *Tax Abatement Disclosures*. This Statement establishes disclosure of information about nature and magnitude of tax abatements to allow users of the financial statements to understand 1) how tax abatements affect a government's future ability to raise resources and meet its financial obligations and 2) the impact those abatements have on a government's financial condition and economic condition. The implementation of this statement added additional financial statement disclosures.

GASB Statement No. 78, *Pensions Provided through Certain Multiple - Employer Defined Benefit Pension Plans*. This standard narrows the scope and applicability of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, to exclude pensions provided to employees of state or local governmental employers through a cost-sharing multiple-employer defined benefit pension plan meeting specific criteria and establishes new guidance for these employers, including separate requirements for recognition and measurement of pension expense or expenditures and liabilities, note disclosures and required supplementary information (RSI). The implementation of this statement had no impact on the City's financial statements.

GASB Statement No. 80, *Blending Requirements for Certain Component Units – An Amendment of GASB Statement No. 14*. The objective of this Statement is to improve financial reporting by clarifying the financial statement presentation requirements for certain component units. This Statement amends the blending requirements established in paragraph 53 of Statement No. 14, *The Financial Reporting Entity*, as amended. This Statement amends the blending requirements for the financial statement presentation of component units of all state and local governments. The additional criterion requires blending of a component unit incorporated as a not-for-profit corporation in which the primary government is the sole corporate member. The implementation of this statement had no impact on the City's financial statements.

Government-wide and fund financial statements: The government-wide financial statements report information on all of the non-fiduciary activities of the primary government and its component units. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate fund financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Note 1. Summary of Significant Accounting Policies (Continued)

Measurement focus, basis of accounting, and financial statement presentation: The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Agency funds have no measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied for. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are generally recorded when a liability is incurred except for debt service expenditures, as well as expenditures related to compensated absences, pension obligations, landfill post-closure monitoring, claims and judgments, pollution remediation and other post-employment benefits which are recorded only when payment is due (matured).

Property taxes, when levied for, intergovernmental revenues when eligibility requirements are met, licenses, charges for services, and interest associated with the current fiscal period are all considered to be susceptible to accrual (measurable) and so have been recognized as revenues of the current fiscal period, if available. All other revenue items are considered to be measurable only when cash is received by the City.

The City reports the following major governmental funds:

The **General Fund** is the City's primary operating fund. It accounts for all financial resources of the City, except those required to be accounted for in another fund.

The **Debt Service Fund** is used to account for the accumulation of resources for, and the payment of general long-term principal, interest and related costs.

The **Capital Projects Fund** is used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds or Trust Funds).

The City reports the following major proprietary fund:

The **Water Enterprise Fund** is used to account for the operations of the Bristol Water Department.

The **Internal Service Fund** accounts for the risk management activities of the City.

Additionally, the City reports the following fund types:

The **Pension Trust Funds** account for the activities of the City Pension Plans, which accumulate resources for pension benefit payments to qualified City employees.

The **OPEB Trust Funds** account for the activities of the City other post-employment benefits, which accumulate resources for health related benefit payments to qualified City employees.

City of Bristol, Connecticut

Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

The **Agency Funds** are used to account for assets held by the City in an agent capacity for individuals, private organizations or other governments. These funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The Agency Funds include Senior Citizens Activity Fund and School Activity Fund.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments in lieu of taxes and other charges between certain City functions because the elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Functional expenses in the statement of activities include certain indirect expenses, such as employee benefits, pension and insurance. These expenses are allocated to governmental activity functions based on total salary expenses for each function.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services or privileges provided, 2) operating grants and contributions and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include property taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Water Enterprise Fund are charges for sales and services and of the City's internal service funds are charges from participants and premiums from the City. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses and depreciation on capital assets. For the internal service funds, expenses represent claims paid. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed. Unrestricted resources are used in the following order: committed, assigned then unassigned.

Accounting estimates: The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

Cash equivalents: The City considers all highly liquid investments and those with original maturities of three months or less, when purchased to be cash equivalents.

Investments: Investments for the City and its component unit are stated at fair value.

The *Pension Funds* allow for investments in certain alternative investments. Alternative investments may include private equity partnerships; infrastructure limited partnerships, hedge and absolute return funds for which there may be no ready market to determine fair value. These investments are valued using the most recent valuation available from the external fund manager. These estimated values do not necessarily represent the amounts that will ultimately be realized upon the disposition of those assets, which may be materially higher or lower than values determined if a ready market for the securities existed.

City of Bristol, Connecticut

Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

The Connecticut State Statutes (the Statutes) also provide for investment in shares of the State Short-Term Investment Fund (STIF). This investment pool is under control of the State Treasurer, with oversight provided by the Treasurer's Cash Management Advisory Board and is regulated under the Statutes and subject to annual audit by the Auditors of Public Accounts. Investment yields are accounted for on an amortized cost basis with an investment portfolio that is designed to attain a market-average rate of return throughout budgetary and economic cycles. Investors accrue interest daily based on actual earnings, less expenses and transfers to the designated surplus reserve, and the fair value of the position in the pool is the same as the value of the pool shares.

Fair value: The City uses fair value measurements to record fair value adjustments to certain assets and to determine fair value disclosures. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is best determined based upon quoted market prices. However, in certain instances, there are no quoted market prices for certain assets or liabilities. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. Accordingly, the fair value estimates may not be realized in an immediate settlement of the asset or liability.

Fair value measurements focus on exit prices in an orderly transaction (that is, not a forced liquidation or distressed sale) between market participants at the measurement date under current market conditions. If there has been a significant decrease in the volume and level of activity for the asset or liability, a change in valuation technique or the use of multiple valuation techniques may be appropriate. In such instances, determining the price at which willing market participants would transact at the measurement date under current market conditions depends on the facts and circumstances and requires the use of significant judgment.

The City's fair value measurements are classified into a fair value hierarchy based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value.

The three categories within the hierarchy are as follows:

Level 1: Quoted prices in active markets for identical assets and liabilities.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, interest rates and yield curves observable at commonly quoted intervals, implied volatilities, credit spreads, and market-corroborated inputs.

Level 3: Unobservable inputs shall be used to measure fair value to the extent that relevant observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at the measurement date. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flows methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgement.

See Note 3 for additional information regarding fair value.

City of Bristol, Connecticut

Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

Investments measured at the net asset value (NAV): Investments valued using the net asset value (NAV) per share (or its equivalent) are considered “alternative investments” and, unlike more traditional investments, generally do not have readily obtainable market values and take the form of limited partnerships. The City values these investments based on the partnerships’ audited financial statements. If June 30 statements are available, those values are used preferentially. However, some partnerships have fiscal years ending at other than June 30. If June 30 valuations are not available, the value is progressed from the most recently available valuation taking into account subsequent calls and distributions.

Property taxes: Property taxes are levied each July 1 based on the assessed property values of the prior October 1 Grand List. Assessed values are established by the City Assessor’s Office at 70% of appraised value.

Property taxes related to the assessed value of under \$1,000 are due in one installment on July 1; remaining property taxes are due in two equal installments on July 1 and the following January 1. Supplemental motor vehicle taxes are due in full on January 1. Taxes become overdue one month after the installment due date. Interest at the rate of 1.5% per month accrues on all overdue taxes. As of June 30, an enforceable lien is recorded against any outstanding real property taxes.

Allowance for doubtful accounts: Accounts receivables, property tax receivables and notes receivable for the primary government are reported net of allowance for doubtful accounts of approximately \$310,000. The allowance for doubtful accounts represents those accounts which are deemed uncollectible based upon past collection history and an assessment of the creditor’s ability to pay.

Inventories and prepaid items: All inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Capital assets: Capital assets, which include property, plant, equipment and infrastructure assets (e.g., roads, bridges, sidewalks and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of \$5,000 or more and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

City of Bristol, Connecticut

Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

Property, plant and equipment of the primary government, as well as the component units, is depreciated using the straight-line method over the following estimated useful lives:

Capital Assets	Years
Buildings	25-30
Improvements other than buildings	20
Machinery and equipment	3-20
Infrastructure	10-65

Deferred outflows/inflows of resources: In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position or fund balance that applies to a future period or periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City reports a deferred charge on refunding and deferred outflows related to pension in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. A deferred outflow of resources related to pension results from differences between expected and actual experience, changes in assumptions or other inputs. These amounts are deferred and included in pension expense in a systematic and rational manner.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position or fund balance that applies to a future period or periods and so will not be recognized as an inflow of resources (revenue) until that time. The City reports a deferred inflow of resources related to pensions in the government-wide statement of net position. A deferred inflow of resources related to pension results from differences between expected and actual experience, changes in assumptions or other inputs.

These amounts are deferred and included in pension expense in a systematic and rational manner. The governmental funds report unavailable revenues from property taxes, interest on property taxes, and sewer use charges. These amounts are deferred and recognized as an inflow of resources (revenue) in the period during which the amounts become available.

Compensated absences: A limited amount of vacation time earned may be accumulated by employees until termination of their employment. Vacation leave is reported using current salary costs, as well as any salary-related payments that are directly and incrementally connected with leave payments to employees. Sick leave accruals are also based on current salary costs as well as salary-related payments.

Eligible City employees earn 5 to 25 days of sick leave per year and 5 to 20 days of vacation per year depending on employees' length of service. A maximum of 200 days of sick leave and 40 days of vacation leave may be accrued. An employee leaving the employ of the City is entitled to be paid for all unused vacation and a maximum of 90 days or 45% of sick leave upon retirement.

Note 1. Summary of Significant Accounting Policies (Continued)

Board of Education employees earn 10 to 20 days of sick leave per year. Maximum sick leave accrual varies by bargaining units from 180 to 275 days. Board of Education employees, with the exception of teachers, earn 5 to 20 days of vacation leave that cannot be accrued and must be used within the fiscal year it was earned. Upon termination, Board of Education employees are paid for all unused vacation leave. Unused sick leave is paid only on retirement to a maximum of 30% depending on bargaining units.

Compensated absences to be paid in future periods are accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only for the amounts that have become due. Amounts for compensated absences are generally liquidated by the General Fund.

Net pension asset: The net pension asset is measured as the portion of the actuarial present value of projected benefits that is attributed to past periods of employee service (total pension liability), net of the pension plan's fiduciary net position. The pension plan's fiduciary net position is determined using the same valuation methods that are used by the pension plan for purposes of preparing its statement of fiduciary net position. The net pension asset is measured as of a date (measurement date) no earlier than the end of the employer's prior fiscal year, consistently applied from period to period. The investments in the calculation of the net pension liability are measured at fair value.

Long-term obligations: In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of any significant applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

Pension accounting:

Pension trust funds: Employee contributions are recognized in the period in which the contributions are due. Employer contributions to the plan are recognized when due and the City has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan.

Governmental funds and governmental activities: In governmental funds, expenditures are recognized when they are paid or are expected to be paid with current available resources. In governmental activities, expense is recognized based on actuarially required contributions. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Pension Plans and additions to/deductions from the Pension Plans' fiduciary net position have been determined on the same basis as they are reported by the Pension Plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms.

Funding policy: The City funds the contributions to its Pension Plans based on the actuarial required contribution and terms of union contracts.

City of Bristol, Connecticut

Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

Other post-employment obligations (OPEB) accounting:

Governmental funds and governmental activities: In governmental funds, expenditures are recognized when they are paid or are expected to be paid with current available resources. In governmental activities, expense is recognized based on actuarially required contributions. The net OPEB obligation, the cumulative difference between annual OPEB cost and the City's contributions to the plan since July 1, 2008, is calculated on an actuarial basis consistent with the requirements of GASB Statement No. 45. The OPEB obligation (OPEB) is recorded as a noncurrent liability in the government-wide financial statements.

Funding policy: The City makes annual contributions based upon decisions of the City Council. However, effective July 1, 2014, the City Council adopted an OPEB Funding Policy requiring annual funding with incremental increases of 5% over the annual pay-as-you-go funding levels with the goal of prefunding the OPEB obligation and eliminating the annual funding gap.

Fund equity: Equity in the government-wide financial statements is defined as "net position" and is classified in the following categories:

Net investment in capital assets: This category groups all capital assets, including infrastructure, into one component of net position, net of accumulated depreciation and reduced by the outstanding balances of bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are included in this component of net position.

Restricted net position: These amounts are restricted to specific purposes when constraints placed on the use of resources are either (a) externally imposed by creditors (such as debt covenants), grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislations.

Unrestricted net position: This category represents the net position of the City, which are not restricted for any project or other purpose. A deficit will require future funding.

The equity of the fund financial statements is defined as "fund balance" and is classified in the following categories:

Nonspendable fund balance: This represents amounts that cannot be spent due to form (e.g., inventories and prepaid amounts).

Restricted fund balance: These amounts are restricted to specific purposes when constraints placed on the use of resources are either (a) externally imposed by creditors (such as debt covenants), grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislations.

Committed fund balance: This represents amounts constrained for a specific purpose by a government using its highest level of decision-making authority (City Board of Finance). Amounts remain committed until action is taken by the Board of Finance (resolution) to remove or revise the limitations.

Assigned fund balance: This represents amounts constrained for the intent to be used for a specific purpose by the Board of Finance, which has been delegated authority to assign amounts by the City Charter.

City of Bristol, Connecticut

Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

Unassigned fund balance: This represents fund balance in the General Fund in excess of nonspendable, restricted, committed and assigned fund balance. If another governmental fund has a residual fund balance deficit, it is reported as a negative amount in unassigned fund balance.

Note 2. Stewardship, Compliance and Accountability

Budgetary information: The City adopts an annual operating budget for the General Fund only. The following details the procedures relating to the General Fund budgetary data reflected in the financial statements.

The City Charter requires the Board of Finance to submit a recommended operating budget to the City Council 15 days prior to the third Monday in May. The budget provides a financial plan for the year and contains estimates of anticipated revenues and proposed expenditures. After at least one public hearing on the recommended budget, the Board of Finance and City Council (Joint Board) may adopt a final budget for the year.

In practice, the budget is submitted to the Board of Finance in February. A series of work sessions is held to review the budget and is followed by one or more public hearings. The final budget, which includes the annual property tax levy, is then approved.

Appropriations for the General Fund lapse at June 30 of each year. All other program appropriations do not lapse at year end.

The budget is prepared on the modified accrual basis, except for encumbrances, by function, activity and object. Expenditures may not legally exceed appropriations at the object level within a department. The Board of Finance has the power to approve budget revisions during the year up to \$5,000 (amount not rounded). Revisions in excess of \$5,000 require Joint Board approval. All budget revisions must be approved. Additional appropriations in the amount of approximately \$12,736,000 were approved during the fiscal year.

Encumbrances are recognized as a valid and proper charge in the year in which the purchase order, contract or other commitment is issued, and, accordingly, encumbrances outstanding at year end are reflected in budgetary reports as expenditures in the current year. Encumbrances outstanding at year-end are included in either restricted, committed or assigned fund balance depending on the level of restriction in accordance with GAAP since they do not constitute expenditures or liabilities.

Also, in accordance with the provisions of GASB Statement No. 24, the City has reported on-behalf payments made by the State of Connecticut into the teachers' retirement system in the Governmental Funds.

Budgets for Special Revenue Funds are prepared in accordance with the requirements of the various grant agreements and/or legal provisions that control the expenditure of such funds. Since such budgets are adopted on a program basis, it is not practicable to present the results of budgetary operations at the combined level. Special Revenue Funds are budgeted on the modified accrual basis.

Appropriations for the Capital Projects Funds do not lapse at the end of the fiscal year, but continue until the completion of the applicable project.

City of Bristol, Connecticut

Notes to Financial Statements

Note 3. Cash, Cash Equivalents and Investments

The deposit of public funds is controlled by the Statutes (Section 7-402). Deposits may be made in a “qualified public depository” as defined by Statute, or, in amounts not exceeding the Federal Deposit Insurance Corporation insurance limit, in an “out of state bank” as defined by the Statutes, which is not a “qualified public depository.”

The Statutes (Section 7-400) permit municipalities to invest in: 1) obligations of the United States and its agencies; 2) highly rated obligations of any state of the United States or of any political subdivision, authority or agency thereof; and 3) shares or other interests in custodial arrangements or pools maintaining constant net asset values and in highly rated no-load open end money market and mutual funds (with constant or fluctuating net asset values) whose portfolios are limited to obligations of the United States and its agencies, and repurchase agreements fully collateralized by such obligations. Other provisions of the Statutes cover specific municipal funds with particular investment authority. The provisions of the Statutes regarding the investment of municipal pension funds do not specify permitted investments. Therefore, investment of such funds is generally controlled by the laws applicable to fiduciaries and the provisions of the applicable plan.

The Statutes (Sections 3-24f and 3-27f) also provide for investment in shares of the State Short-Term Investment Fund (STIF). These investment pools are under the control of the State Treasurer, with oversight provided by the Treasurer’s Cash Management Advisory Board, and are regulated under the State Statutes and subject to annual audit by the Auditors of Public Accounts. Investment yields are accounted for on an amortized-cost basis with an investment portfolio that is designed to attain a market-average rate of return throughout budgetary and economic cycles. Investors accrue interest daily based on actual earnings, less expenses and transfers to the designated surplus reserve, and the fair value of the position in the pool is the same as the value of the pool shares.

Deposits:

Deposit custodial credit risk: Custodial credit risk is the risk that, in the event of a bank failure, the City’s deposit will not be returned. The City does not have a deposit policy for custodial credit risk. The deposit of public funds is controlled by the Statutes. Deposits may be placed with any qualified public depository that has its main place of business in the State of Connecticut. The Statutes require that each depository maintain segregated collateral (not required to be based on a security agreement between the depository and the municipality and, therefore, not perfected in accordance with federal law) in an amount equal to a defined percentage of its public deposits based upon the depository’s risk based capital ratio.

At June 30, the entire amount of the component unit’s deposits was covered by federal depository insurance.

Cash equivalents: Cash equivalents are short-term, highly liquid investments that are both readily convertible to known amounts of cash and purchased within 90 days of maturity. As of June 30, the cash equivalent amounted to \$5,205,817. The following table provides summary of the City’s cash equivalents (excluding U.S. government guaranteed obligations) as rated by nationally recognized statistical rating organizations.

	Standard & Poor’s
State of Connecticut Short-term Investment Fund (STIF)	AAAm

City of Bristol, Connecticut

* Subject to coverage by federal depository insurance and collateralization.

City of Bristol, Connecticut

Notes to Financial Statements

Note 3. Cash, Cash Equivalents and Investments (Continued)

Interest rate risk: This is the risk that changes in market interest rates which will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The City nor the pension plans have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. However, the City includes asset allocation percentage ranges for its pension plans to assist in limiting interest rate risk.

Credit risk – investments: As indicated above, the Statutes limit the investment options of Cities. The City has an investment policy that allows the same type of investments as the Statutes.

Concentration of credit risk: The City nor the pension plans have a policy limiting investments in any one issuer that is in excess of five percent of the City's total investments.

The following represents the investments in the pension plans that represent more than 5% of the plan's net position as of June 30:

Rcit Large Cap Value E Equity Fund CI C	\$39,548,888
Omega Overseas Partners, Ltd.	43,654,050
Boyd Watterson GSA Fund LP	36,270,040

Custodial credit risk: Custodial credit risk for an investment is the risk that, in the event of the failure of the counterparty (the institution that pledges collateral or repurchase agreement securities to the City or that sells investments to or buys them for the City), the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. As of June 30, 2017, \$110,834,599 of the City's bank balance of \$125,670,419 was exposed to custodial credit risk because it was uninsured and uncollateralized.

The City's individual investments in fixed income securities, equities, U.S treasury securities, domestic corporate bonds, foreign bonds, and U.S government agency securities are uninsured and registered securities held by a counterparty, or by its trust department or agent that are in the City's pension and OPEB plans. The City's other investments are held in alternative investments which, because they are evidenced by contracts rather than by securities, are not subject to custodial credit risk determination.

City of Bristol, Connecticut

Notes to Financial Statements

Note 3. Cash, Cash Equivalents and Investments (Continued)

Fair value: The City and the pension and OPEB plans categorize their fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The City and the pension and OPEB plans have the following recurring fair value measurements as of June 30:

	Fair Value Measurements Using			
	June 30, 2017	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Other Observable Inputs (Level 3)
Investments by fair value level:				
Stocks	\$ 185,848,329	\$ 185,848,329	\$ -	\$ -
Mutual funds	131,059,626	131,059,626	-	-
Certificate of deposits	5,233,430	5,233,430	-	-
Debt securities:				
U.S. Treasury	29,548,804	29,548,804	-	-
Corporate bonds	62,590,073	62,590,073	-	-
Government bonds	17,213,928	17,213,928	-	-
U.S. Government agencies	3,888,496	3,888,496	-	-
Total debt securities	435,382,686	435,382,686	-	-
Total investments by fair value level	435,382,686	\$ 435,382,686	\$ -	\$ -
Investments measured at the net asset level (NAV):				
Other	171,357,740			
Limited partnerships	4,654,886			
Real estate funds	4,987,462			
Total investments measured at the NAV	181,000,088			
Total investments measured at fair value	\$ 616,382,774			

Debt and equity securities: Debt and equity securities, classified in Level 1 of the fair value hierarchy, are valued using prices quoted in active markets for those securities. Debt securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices. Commercial and residential mortgage-backed securities classified in Level 3 are valued using discounted cash flow techniques. Collateralized debt obligations classified in Level 3 are valued using consensus pricing.

City of Bristol, Connecticut

Notes to Financial Statements

Note 3. Cash, Cash Equivalents and Investments (Continued)

The following table summarizes all investments recorded using NAV as a practical expedient to fair value:

Investments Measured at the NAV

	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Investments Measured at the NAV:				
Other	\$ 171,357,740	\$ 72,685,740	Qtr./Annual	30-60 days
Limited partnerships	4,654,886	2,626,191	N/A	N/A
Real estate funds	4,987,462	1,603,281	N/A	N/A
Total Investments Measured at the NAV	<u>\$ 181,000,088</u>			

Real estate funds: This type includes real estate funds that invest primarily in U.S. commercial real estate. The fair values of the investments in this type have been determined using the NAV per share (or its equivalent) of the Plan's ownership interest in partners' capital. These investments can never be redeemed with the funds. Distributions from each fund will be received as the underlying investments of the funds are liquidated. Because it is not probable that any individual investment will be sold, the fair value of each individual investment has been determined using the NAV per share (or its equivalent) of the Plan's ownership interest in partners' capital.

Private equity funds: This type includes limited partnership funds. These investments can never be redeemed with funds. Instead, the nature of the investments in this type is that distributions are received through liquidation of the underlying assets of the fund capital. As of June 30, 2017, it is probable that all of the investments in this type will be sold at an amount different from NAV per share (or its equivalent) of the Plan's ownership interest in partners' capital. Therefore, the fair values of the investments in this type have been determined using recent observation transaction information for similar investments and nonbinding bids received from potential buys of the investments.

Note 4. Receivables

Receivables as of year-end for the City's individual major funds and nonmajor, internal service and fiduciary funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	General	Capital Projects	Nonmajor and Other Funds	Total Governmental Funds
Receivables:				
Taxes	\$ 3,452,887	\$ -	\$ -	\$ 3,452,887
Interest	1,140,120	-	-	1,140,120
Accounts	572,126	4,236	339,310	915,672
Special assessments	-	-	561,598	561,598

Business-type activities capital assets, net	\$ 23,501,963	\$ (392,734)	\$ (9,129)	\$ 23,100,100

Depreciation expense was charged to functions/programs of the primary government as follows:

Governmental activities:

General government	\$ 414,386
Public Safety	1,083,116
Public Works	6,614,382
Health and Welfare	6,444
Libraries	528,497
Parks and Recreation	377,815
Education	5,455,725
Total depreciation expense-governmental activities	\$ 14,480,365

Business-type activities:

Water	\$ 1,115,938
-------	--------------

Construction commitments: The City has several active construction projects as of June 30, 2017. The following is a summary of capital projects (in thousands) as of June 30:

	Project Authorization	Cumulative Expenditures
Schools	\$ 99,278	\$ 98,274
Streets, bridges and building improvements	80,730	57,226
Capital and nonrecurring	60,001	51,911
Total	\$ 240,009	\$ 207,411

City of Bristol, Connecticut

Notes to Financial Statements

Note 5. Capital Assets (Continued)

The commitments are being financed with general obligation bonds and state and federal grants.

Discretely presented component units: Activity for the Bristol-Burlington Health District for the year ended June 30, was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance
Capital assets being depreciated:				
Furniture and equipment	\$ 281,786	\$ 22,205	\$ (48,788)	\$ 255,203
Less accumulated depreciation for:				
Furniture and equipment	(235,639)	(16,709)	46,970	(205,378)
District capital assets, net	<u>\$ 46,147</u>	<u>\$ 5,496</u>	<u>\$ (1,818)</u>	<u>\$ 49,825</u>

Note 6. Interfund Receivables, Payables and Transfers

At June 30, interfund receivables and payables were comprised of the following:

Receivable Fund	Payable Fund	Amount
General Fund	Nonmajor Governmental Funds	\$ 712,303
Nonmajor Governmental Funds	General Fund	45,038
Internal Service Funds	Nonmajor Governmental Funds	946,500
Total		<u>\$ 1,703,841</u>

Interfund receivables and payables generally represent temporary balances arising from reimbursement-type transactions. All balances are expected to be repaid within a year.

Interfund transfers:

	Transfers in				Total Transfers Out
	General Fund	Debt Service Fund	Capital Projects	Nonmajor Governmental	
Transfers out:					
General Fund	\$ -	\$ 7,948,815	\$ 1,767,206	\$ 4,362,348	\$ 14,078,369
Debt Service Fund	-	-	537,905	-	537,905
Nonmajor Governmental Funds	13,143	115,275	2,061,565	14	2,189,997
Total transfers in	<u>\$ 13,143</u>	<u>\$ 8,064,090</u>	<u>\$ 4,366,676</u>	<u>\$ 4,362,362</u>	<u>\$ 16,806,271</u>

Transfers are for regularly recurring operational transfers. Interfund transfers are used to 1) move revenues from the General Fund to the Debt Service Fund to pay for principal and interest on debt, 2) supplement revenues of other funds such as the Capital Projects Fund for the projects that have been closed out.

City of Bristol, Connecticut

Notes to Financial Statements

Note 7. Leases

Operating leases: The City leases computers under noncancelable operating leases. Total costs for such leases were \$795,568 for the year ended June 30. The future minimum lease payments for these leases are as follows:

Years ending June 30:	
2018	\$ 724,189
2019	483,840
2020	352,381
2021	205,660

Note 8. Long-Term Liabilities

Changes in long-term liabilities: Long-term liability activity for the year ended June 30, was as follows:

	Beginning Balance	Additions	Retirements	Ending Balance	Due Within One Year
Governmental Activities					
Bonds and loans payable:					
General obligation bonds	\$ 55,614,000	\$ 21,130,000	\$ 6,164,000	\$ 70,580,000	\$ 6,119,000

Total				<u>\$ 4,500,000</u>	<u>\$ 7,400,000</u>	<u>\$ 4,500,000</u>	<u>\$ 7,400,000</u>

Bond anticipation notes payable are issued to finance purchase of land, demolition and other work at the Bristol Centre Mall site.

Bonds and notes payable at June 30, were comprised of the following:

Description	Date of Issue	Date of Maturity	Interest Rate %	Amount of Original Issue	Balance Outstanding June 30, 2017
General City bonds					
General improvement:					
2011 Issue	06/27/11	08/01/30	2.00-4.00	\$ 8,637,000	\$ 6,362,000

Total	<u>\$ 732,196</u>	<u>\$ 132,352</u>	<u>\$ 864,548</u>

The City's indebtedness does not exceed the legal debt limitations as established by Connecticut General Statutes as reflected in the following schedule (in thousands):

Category	Debt Limit	Net Indebtedness	Balance
General purpose	\$ 318,219,750	\$ 70,886,897	\$ 247,332,853
Schools	636,439,500	34,859,515	601,579,985
Sewers	530,366,250	18,083,639	512,282,611
Urban renewal	459,650,750	-	459,650,750
Pension deficit	424,293,000	-	424,293,000

The total overall statutory debt limit for the City is equal to seven times annual receipts from taxation, or \$990,017,000.

City of Bristol, Connecticut

Notes to Financial Statements

Note 8. Long-Term Liabilities (Continued)

The indebtedness reflected above includes bonds outstanding in addition to the amount of bonds authorized and unissued against which bond anticipation notes are issued and outstanding. Bonds authorized but not issued are as follows:

General purpose	\$ 26,865,762
Schools	84,076,015
Sewers	19,370,967
	<u>\$ 130,312,744</u>

Prior year defeasance: On November 17, 2015, the City issued \$7,310,000 of general obligation refunding bonds with an average interest rate of 4%, of which the proceeds were used to advance refund the outstanding principal amounts of the general obligation bond of the City dated 2005 and 2009 (the "Refunded Bonds"). At June 30, 2017, there was \$6,400,000 in escrow. The balance of the defeased bonds was approximately \$6,315,000 at June 30, 2017. As a result, the refunded bonds are considered defeased and the liability has been removed from the basic financial statements.

Note 9. Landfill Closure

The City entered into a landfill lease agreement with Ogden Martin Systems of Bristol, Inc. (the Company), now known as Covanta, Bristol, Inc. (Covanta), whereby the City leased to the Company a landfill adjacent to the facility site in the City. The City is currently collecting fees for the interim period until the official Certificate of Closure is issued. Further, the Company, pursuant to a service agreement with BRRFOC has passed all costs of properly closing the City's landfill site to the BRRFOC and the related contracting communities. Solid waste landfill closure and post closure care requirements have been established by the State of Connecticut Department of Energy and Environmental Protection Agency and the Federal Environmental Protection Agency. The costs associated with monitoring and maintaining the landfill area during the post closure period are the responsibility of the City. The projected costs of this post closure period is \$1,440,209 as of June 30, 2017. These projected costs could be impacted by future inflation and regulations. The landfill was closed prior to July 1, 2002. Between 1979 and 1983 one part of the site received metal hydroxide slurry from local metal plating companies. This area was closed in 1986 and covered with a membrane cap as required by the Resource Conservation and Recovery Act.

City of Bristol, Connecticut

Notes to Financial Statements

Note 10. Risk Management

The City is exposed to various risks of loss including torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City generally obtains commercial insurance for these risks but has chosen to retain the risks for employee health and medical claims. The City has also retained risk for workers' compensation claims for fiscal years July 1, 1985 through June 30, 1998 and July 1, 2004 through June 30, 2011. The Health Benefits and Worker's Compensation Internal Service Fund is utilized to report this self-insurance activity. CIGNA administers the medical, Medco administers the prescription and Anthem Blue Cross/Blue Shield administers the dental plan, for which the City pays a fee. All funds of the City contribute to the Internal Service Fund based upon actuarial and insurance carrier estimates. The claims liability of \$11,832,599 reported in the Internal Service Fund at June 30, 2017, is based on GASB Statement No. 10, which requires that a liability for estimated claims incurred but not reported be recorded. Changes in the claims liability were as follows:

	Liability July 1,	Current Year Claims and Changes in Estimates	Claim Payment	Liability June 30,
2015-2016	\$ 13,538,929	\$ 31,661,961	\$ 32,899,895	\$ 12,300,995
2016-2017	12,300,995	31,180,470	31,648,866	11,832,599

Settled claims for all types of commercial coverage have not exceeded coverage in any of the past three years.

City of Bristol, Connecticut

Significant encumbrances at June 30, 2017, are contained in the above table in the assigned category of the General Fund.

City of Bristol, Connecticut

Notes to Financial Statements

Note 12. Contingent Liabilities

The City is a defendant in a number of lawsuits. Based on Counsel's review of all asserted claims for damages, the City is of the opinion that resolution of all lawsuits against the City will not significantly affect its financial position.

The City participates in a number of State and Federal grant programs that are subject to program compliance audits by the grantor agencies. Such audits could lead to requests for reimbursement of expenditures disallowed under the terms of the grants. As of June 30, 2017, the City is of the opinion that such reimbursements in respect of disallowed expenditures, if any, will not be significant.

Note 13. Other Post-Employment Benefits

Plan description: The City provides certain health care and life insurance benefits for retired employees in accordance with City Council resolutions and bargaining agreements. All regular active employees who retire directly from the City and meet eligibility criteria may participate. Benefit provisions are established through negotiations between the City and the various unions representing the employees. The other postemployment benefits plan is a single-employer defined benefit healthcare plan administered by the City. The City does not issue stand-alone financial statements for this program.

At July 1, 2016, plan membership consisted of the following:

	Retiree Healthcare Plan
Active plan members	1,445
Retired members	441
Total participants	<u>1,886</u>

Funding policy: The City has established a trust fund to irrevocably segregate assets to fund the liability associated with the postemployment benefits. The fund is reported as a trust fund in accordance with GASB guidelines. The contribution requirements of plan members and the City are also negotiated with the various unions representing the employees.

City of Bristol, Connecticut

Notes to Financial Statements

Note 13. Other Post-Employment Benefits (Continued)

Annual OPEB cost and net OPEB obligations: The City's annual other post-employment benefit (OPEB) cost is calculated based on the annual required contribution (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years. The following table shows the components of the City's annual OPEB cost for the year, the amount actually contributed to the plan and changes in the City's net OPEB obligation:

	Retiree Healthcare Plan
Annual required contribution	\$ 8,097,574
Interest on net OPEB obligation	1,561,441
Adjustment to annual required contribution	<u>(2,031,480)</u>
Annual OPEB cost	7,627,535
Contributions made	1,554,072
Benefit Payments	<u>4,474,886</u>
Increase in net OPEB obligation	1,598,577
Net OPEB obligation, beginning of year	<u>31,228,822</u>
Net OPEB obligation, end of year	<u><u>\$ 32,827,399</u></u>

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation (asset) is presented below:

Fiscal Year Ending	Annual OPEB Cost (AOC)	Actual Contribution & Benefit Payment	Percentage of AOC Contributed	Net OPEB Obligation
06/30/2015	\$ 6,622,558	\$ 3,936,887	59.4%	\$ 28,307,518
06/30/2016	6,882,510	3,961,206	57.6%	31,228,822
06/30/2017	7,627,535	6,028,958	79.0%	32,827,399

Schedule of funding progress:

Schedule of Funding Progress						
Actuarial Valuation Date	Actuarial Valuation of Assets (a)	Actuarial Accrued Liability (AAL) (b)	Funded (Unfunded) AAL (UAAL) (a-b)	Percentage Funded (a/b)	Covered Payroll (c)	UAAL as a as a % of Covered Payroll ((a-b)/c)
07/01/16	\$ 6,127,608	\$ 70,896,937	\$ (64,769,329)	8.6%	\$ 98,287,369	(65.9%)

City of Bristol, Connecticut

Notes to Financial Statements

Note 13. Other Post-Employment Benefits (Continued)

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as accrual results are compared with past expectations and new estimates are made about the future.

Projections for benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2016, actuarial valuation, the projected unit credit actuarial cost method was used. The ARC reflects a closed 30-year, level amortization of the unfunded actuarial accrued liability (AAL). The actuarial assumptions include a 5% investment rate of return and inflation rate of 3%. The annual healthcare cost trend rate is 10% initially, grading down to 4.5% in year 2023 and thereafter.

Historical trend information: The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multi-trend information about whether the actuarial values of plan assets are increasing or decreasing overtime relative to AALs for benefits.

GASB 74 Disclosures: The following disclosures are required under GASB 74 and report the net OPEB liability under implementation of GASB 75 effective July 1, 2012.

Investments:

Investment policy: The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the Investment Committee. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the pension plan.

Rate of return: For the year ended June 30, 2017, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was as follows. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

	<u>OPEB Plan</u>
Rate of return	7.30%

City of Bristol, Connecticut

Notes to Financial Statements

Note 13. Other Post-Employment Benefits (Continued)

Net OPEB liability of the City: The components of the net OPEB liability of the City at June 30, 2017 were as follows:

Net OPEB Liability as of June 30, 2017	OPEB Plan
Total OPEB liability	\$ 63,442,321
Plan fiduciary net position	8,126,904
Net OPEB liability	<u>\$ 55,315,417</u>
Plan fiduciary net position as a percentage of total OPEB liability	<u>12.81%</u>

The \$55,315,417 will be recognized as a liability on July 1, 2017, when GASB 75 takes effect.

Assumed rate of return: The long-term expected rate of return on OPEB plan investments was determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation. Best estimates of the real rates of returns for each major asset class are included in the OPEB plan's target asset allocation. Best estimates of arithmetic real rates of return for each major asset class included in the OPEB plan's target asset allocation as of July 1, 2016, and the final vestment return assumption, are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return	Long- Term Expected Geometric Real Return
Intermediate Term Bonds	21.30%	2.16%	2.05%
High Yield Bonds	7.60%	5.20%	4.65%
Large Cap US Equities	30.00%	4.86%	3.61%
Mid Cap US Equities	2.50%	6.11%	4.10%
Small Cap US Equities	2.50%	5.41%	3.76%
Developed Foreign Equities	13.60%	5.88%	4.20%

City of Bristol, Connecticut

Notes to Financial Statements

Note 13. Other Post-Employment Benefits (Continued)

Discount rate: The discount rate used to measure the total OPEB liability was 7.30%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that City contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Also, based on the net position of the plans and contribution policies, it was assumed the plan's projected fiduciary net position would be sufficient to cover projected benefit payments and administrative expenses indefinitely. Therefore, the long-term expected rates of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of the net OPEB liability to changes in the healthcare cost trend rates: The following presents the net OPEB liability of the Town, as well as what the City's net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1 percentage point lower or 1 percentage point higher than the current healthcare cost trend rates:

Net OPEB Liability	Healthcare Cost Trend Rates		
	1.0% Decrease (6.65% decreasing to 3.50%)	Current Trend Rates (7.65% decreasing to 4.50%)	1.0% Increase (8.65% increasing to 5.50%)
Net OPEB liability as of June 30, 2017	\$ 49,260,673	\$ 55,315,417	\$ 62,344,032

Sensitivity of estimates used in calculating the net OPEB liability: The following presents the net OPEB liability of the City, calculated using the discount rate of 7.30%, as well as what the City's net OPEB liability would be if it were calculated using a discount rate that is 1% lower or 1% higher than the rate utilized.

Net OPEB Liability	Current Discount Rate		
	1% Decrease 6.30%	Current Discount Rate 7.30%	1% Increase 8.30%
OPEB Plan	\$ 60,960,952	\$ 55,315,417	\$ 50,315,417

Note 14. Employee Retirement Systems and Pension Plans

Plan description: The City is the administrator of three single-employer Public Employee Retirement Systems (PERS) as presented below:

City of Bristol Retirement System	General City employees
Firefighters' Benefit Fund	Firefighter employees
Police Benefit Fund	Police employees

The PERS are considered to be part of the City's financial reporting entity and are included in the City's financial reports as pension trust funds. There are no stand-alone financial statements issued for the PERS. These plans were established and can be amended under the authority of the City Charter.

City of Bristol, Connecticut

Notes to Financial Statements

Note 14. Employee Retirement Systems and Pension Plans (Continued)

The management of the City retirement system is vested in a retirement board consisting of ten (10) members, as follows: A member of the City Council, a member of the Board of Finance, the comptroller, the treasurer, three (3) electors of the City, none of whom shall be an officer or employee of the City, one elector of the City who shall be a member of the City's employees' local number 1338 of the American Federation of State, County and Municipal Employees, AFL-CIO, one elector of the City who shall be a member of the City's employees' Bristol Professionals and Supervisors Association (BPSA), and the mayor, ex officio. All members, except the comptroller, the treasurer and the mayor, shall be nominated by the mayor and confirmed by the City Council. The members representing the City Council and the Board of Finance shall be appointed for terms of two (2) years and three (3) years, respectively. The others members of the retirement board shall be appointed for five-year terms. The term of office of each appointed member shall continue until a successor is appointed and has qualified. In the event of a vacancy on such board, such vacancy shall be filled in the same manner as the member to be succeeded was appointed or elected. In no event shall any person remain a member of such retirement board except during the time he continues to be a member of the board or body from which he was appointed or elected.

City of Bristol, Connecticut

Notes to Financial Statements

Note 14. Employee Retirement Systems and Pension Plans (Continued)

At July 1, 2016, PERS membership consisted of:

	City of Bristol Retirement System	Firefighters' Benefits Fund	Police Benefit Fund
Retirees, disabled and beneficiaries currently receiving benefits	552	95	125
Terminated employees entitled to benefits but not yet receiving them	91	-	3
Current employees	723	86	121
Total	1,366	181	249

The City of Bristol Retirement System covers all full-time employees (except firefighters, police officers and teachers) who are under age 65 on their date of employment. The City provides all retirement, death and disability benefits through a single-employer, contributory, defined benefit plan. Employees are 100% vested after 10 years of continuous service, if their contributions remain in the fund upon termination. Employees who retire at normal retirement (age plus service equal to 80, minimum age 55) receive a retirement benefit for life of 2.40% of average annual pay times number of completed years of service. If an employee leaves employment or dies before meeting vesting requirements, accumulated employee contributions and interest are refunded.

The Firefighters' Benefits Fund covers all members of the Fire Department. The City provides all retirement, death and disability benefits through a single-employer, contributory, defined benefit plan. Under the plan, all employees of the Fire Department are eligible to join. Employees are 100% vested after 10 years of continuous service, if their contributions remain in the fund. Fire employees who retire at normal retirement (the earlier of age 65 or 25 years of continuous service) receive a retirement benefit for life of 70% of base pay (including $\frac{1}{4}$ of an employee's unused sick leave paid out at the time of retirement), adjusted for cost of living. The cost-of-living escalation is limited to a 2.25% increase per year. If an employee leaves employment or dies before meeting the vesting requirements, accumulated employee contributions are refunded. Benefits and employee contributions are fixed by contract and may be amended by union negotiations.

The Police Benefit Fund covers all members of the Police Department. The City provides all retirement, death and disability benefits through a single-employer, contributory, defined benefit plan. Under the plan, all employees of the Police Department are eligible to join. Employees are 100% vested after 10 years of continuous service, if their contributions remain in the fund upon termination. Police employees who retire at normal retirement (the earlier of age 65 or 25 years of continuous service) receive a retirement benefit for life of 70% of the compensation paid to the member in the year prior to retirement, adjusted for escalation. The pension benefit formula is 70% of a member's compensation (base pay). Base pay shall include $\frac{1}{4}$ of an employee's unused sick leave paid out at the time of retirement if applicable.

City of Bristol, Connecticut

Notes to Financial Statements

Note 14. Employee Retirement Systems and Pension Plans (Continued)

The PERS also provides for automatic post-retirement increases on retiree pensions. The pension shall be adjusted by one-half of the pay increase awarded to a then-active member in the same grade as the retiree last held. The cost-of-living escalation is limited to a 2.25% increase per year. Member's contributions are returnable on termination or on death while active, or after retirement (less any benefits paid), provided in each case that no death benefits are otherwise payable.

Summary of significant accounting policies and plan asset matters:

Basis of accounting: Financial statements are prepared using the accrual basis of accounting for the three defined benefit pension plans. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due and a formal commitment to provide the contributions has been made. Benefits and refunds are recognized when due and payable in accordance with the terms of the plans. Administrative costs of the plans are paid from pension fund resources.

Contributions: Employees covered under the City of Bristol Retirement System are required to contribute 6% of their base pay to the PERS.

The City is required to contribute the remaining amounts necessary to finance the benefits for its employees. For the year ended June 30, 2017, the City was required to make a contribution of \$756,393. Benefits and employee contributions are fixed by union contract and may be amended by union negotiations.

Fire employees are required to contribute 6% of their base pay to the PERS. After 25 years of service, employee contributions cease. The City is required to contribute the remaining amounts necessary to finance the benefits for its employees. For the year ended June 30, 2017, the City was not required to make a contribution. Benefits and employee contributions are fixed by union contract and may be amended by union negotiations.

Police employees are required to contribute 6% of their base pay to the PERS. After 25 years of service, employee contributions cease. The City is required to contribute the remaining amounts necessary to finance the benefits for its employees. For the year ended June 30, 2017, the City was not required to make a contribution. Benefits and employee contributions are fixed by union contract and may be amended by union negotiations.

City of Bristol, Connecticut

Notes to Financial Statements

Note 14. Employee Retirement Systems and Pension Plans (Continued)

Investments:

Investment policy: The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the Retirement Board. It is the policy of the Retirement Board to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. The pension plan's investment policy discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans. The following was the Board's adopted asset allocation policy as of June 30, 2017:

Asset Class	Target Allocation
US Interm Bonds	21.3%
US High Yield Bonds	7.6%
US Large Caps	30.0%
US Small Caps	2.5%
US Mid Caps	2.5%
Foreign Developed Equity	13.6%
Emerging Market Equities	7.5%
Private Equities	5.0%
Hedge FOF Diversified	10.0%
Total	100.0%

Rate of return: For the year ended June 30, 2017, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 12.06%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net pension liability (asset) of the City: The components of the net pension liability (asset) of the City at June 30, 2017, were as follows:

	City of Bristol Retirement System	Firefighters' Benefit Fund	Police Benefit Fund
Total pension liability	\$ 216,646,738	\$ 74,254,214	\$ 128,678,756
Plan fiduciary net position	207,714,553	194,163,731	206,486,576
Net pension liability (asset)	\$ 8,932,185	\$ (119,909,517)	\$ (77,807,820)
Plan fiduciary net position as a percentage of the total pension liability (asset)	95.88%	261.49%	160.47%

Net changes	12,723,286	17,105,957	(4,382,671)
Balances at 6/30/17	\$ 128,678,756	\$ 206,486,576	\$ (77,807,820)

Actuarial assumptions: The total pension liability was determined by an actuarial valuation as of July 1, 2016 using the following actuarial assumptions, applied to all periods included in the measurement:

	City of Bristol Retirement System	Firefighters' Benefits Fund	Police Benefit Fund
Actuarial valuation date	July 1, 2016	July 1, 2016	July 1, 2016
Measurement date	June 30, 2017	June 30, 2017	June 30, 2017
Inflation	2.70%	2.70%	2.70%
Salary increases including inflation	Graded salary growth with an ultimate rate of 3.25%	Graded salary growth with an ultimate rate of 3.25%	Graded salary growth with an ultimate rate of 3.25%
Actuarial cost method	Entry Age Normal	Entry Age Normal	Entry Age Normal

Mortality rates were based on the RP-2000 Mortality for Employees and Healthy with generational projection per Scale AA to BB.

City of Bristol, Connecticut

Notes to Financial Statements

Note 14. Employee Retirement Systems and Pension Plans (Continued)

The actuarial assumptions used in the July 1, 2016 valuation were based on the results of an actuarial experience study for the period July 1, 2011-June 30, 2015.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2017 (see the discussion of the pension plan's investment policy), are summarized in the following table:

<u>Asset Class</u>	<u>Long-term Expected Arithmetic Real Rate of Return</u>	<u>Long-term Expected Geometric Real Rate of Return</u>
US Interm Bonds	2.16%	2.05%
US High Yield Bonds	5.20%	4.65%
US Large Caps	4.86%	3.61%
US Small Caps	6.11%	4.10%
US Mid Caps	5.41%	3.76%
Foreign Developed Equities	5.88%	4.20%
Emerging Market Equities	8.14%	4.79%
Private Equities	8.96%	5.08%
Hedge FOF Diversified	1.97%	1.66%
Assumed Inflation - Mean	2.70%	2.70%
Assumed Inflation - Standard Deviation	2.00%	2.00%
Portfolio Real Mean Return	4.66%	3.93%
Portfolio Nominal Mean Return	7.37%	6.72%
Portfolio Standard Deviation	0.00%	11.96%
Long-term expected rate of return		7.40%

Discount rate: The discount rate used to measure the total pension liability was 7.40%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that City contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

City of Bristol, Connecticut

Notes to Financial Statements

Note 14. Employee Retirement Systems and Pension Plans (Continued)

Sensitivity of the net pension liability (asset) to changes in the discount rate: The following presents the net pension liability of the City's Pension Plans, calculated using the discount rate of 7.40%, as well as what the City's Pension Plans net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.40%) or 1 percentage point higher (8.40%) than the current rate:

	1% Decrease 6.40%	Current Discount Rate 7.40%	1% Increase 8.40%
Net pension liability (asset)			
City of Bristol Retirement System	\$ 32,096,159	\$ 8,932,185	\$ (10,804,884)

Connecticut State Teachers' Retirement System: Certified staff within the City's school system participate in a retirement system administered by the Connecticut State Teachers' Retirement Board. This Connecticut State Teachers' Retirement System (the System) is a cost sharing multiple employer defined benefit pension system with a special funding situation.

The System is considered a part of the State of Connecticut financial reporting entity and is included in the State's financial reports as a pension trust fund. Those reports may be obtained at www.ct.gov.

The System is administered under the provisions of Chapter 167a of the Connecticut General Statutes (CGS). Participation in the System is restricted to certified staff employed in the public schools of Connecticut and members of the professional staff of the State Department of Education or the board of Governors of Higher Education and their constituent units. Participation in the System is mandatory for certified personnel of local boards of education who are employed for an average of at least one-half of a school day. Members of the professional staff of the State Department of Education or the Board of Governors of Higher Education and their constituent units may elect to participate in this system, the State Employees' Retirement System, or the Alternate Retirement System (TIAA-CREF).

Summary of significant accounting policies: For purposes of measuring the liability, deferred outflows of resources and deferred inflows of resources, and expense associated with the State's requirement to contribute to the System, information about System's fiduciary net position and additions to/deductions from the System's fiduciary net position have been determined on the same basis as they are reported by the System. For this purpose, benefit payments (including refunds of contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

City of Bristol, Connecticut

Notes to Financial Statements

Note 14. Employee Retirement Systems and Pension Plans (Continued)

Benefits provided: The benefits provided to participants by the System are as follows:

Normal benefit: A member at age 60 with 20 years of Credited Service in Connecticut, or 35 years of Credited Service including at least 25 years of service in Connecticut is eligible for vested benefits of 2% of average annual salary times years of credited service (maximum benefit is 75% of average annual salary.)

Prorated benefit: A member who completes 10 years of Connecticut public school service is eligible for a vested benefit commencing at age 60. The benefit is 2% less 0.1% for each year less than 20 years of average annual salary times years of credited service.

Minimum benefit: Effective January 1, 1999, Public Act 98-251 provides a minimum monthly retirement benefit of \$1,200 to teachers who retire under the Normal Benefit provisions and who have completed at least 25 years of full time Connecticut service at retirement.

Contribution requirements: The pension contributions made by the State to the System are determined on an actuarial reserve basis as described in CGS Sections 10-1831 and 10-183z.

Participants are required to contribute 7.25% of their annual salary rate to the System as required by CGS Section 10-183b (7). For the 2016/2017 school year, \$13,798,311 mandatory contributions were deducted from the salaries of teachers who were participants of the System during that school year. The estimated covered payroll for the City is \$58,300,000.

Actuarial assumptions: The actuarial assumptions used in the June 30, 2016 valuation were based on the results of an actuarial experience study for the period July 1, 2010 – June 30, 2015. The total pension liability was determined by an actuarial valuation as of June 30, 2016, using the following key actuarial assumptions:

Inflation	2.75 Percent
Salary increases, including inflation	3.25-6.50 Percent
Long-term investment rate of return, net of pension investment expense, including inflation	8.00 Percent

Mortality rates were based on the RPH-2014 White Collar table with employee and annuitant rates blended from ages 50 to 80, projected to the year 2020 using the BB improvement scale, and further adjusted to grade in increases (5% for females and 8% for males) to rates over age 80 for the period after service retirement and for dependent beneficiaries as well as for active members. The RPH-2014 Disabled Mortality Table projected to 2017 with Scale BB is used for the period after disability retirement.

City of Bristol, Connecticut

Notes to Financial Statements

Note 14. Employee Retirement Systems and Pension Plans (Continued)

The long-term expected rate of return on pension investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Large Cap U.S. Equities	21.00%	5.80%
Developed non-U.S. equities	18.00%	6.60%
Emerging Markets (non-U.S.)	9.00%	8.30%
Real Estate	7.00%	5.10%
Private Equity	11.00%	7.60%
Alternative Investments	8.00%	4.10%
Core Fixed Income	7.00%	1.30%
High Yield Bonds	5.00%	3.90%
Emerging Market Bond	5.00%	3.70%
Inflation Linked Bond Fund	3.00%	1.00%
Cash	6.00%	0.40%
	<u>100.00%</u>	

Discount rate: The discount rate used to measure the total pension liability was 8.00%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that State contributions will be made at the actuarially determined rates in future years. Based on those assumptions, the pension's fiduciary net position was projected to be available to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return on pension investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the proportionate share of the net pension liability (NPL) to changes in the discount rate: The following presents the State's proportionate share of the NPL of the System, calculated using the discount rate of 8.00%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (7.00%) or 1-percentage-point higher (9.00%) than the current rate. The City has no obligation for the NPL.

	1% Decrease 7.00%	Current Discount Rate 8.00%	1% Increase 9.00%
State's share of NPL associated with the City	\$248,567,554	\$201,478,144	\$161,671,476

City of Bristol, Connecticut

Notes to Financial Statements

Note 14. Employee Retirement Systems and Pension Plans (Continued)

Pension liabilities, pension expense, and deferred inflows/outflows of resources: The State makes all contributions to the System on behalf of employees of the participating districts. Therefore, participating employers are considered to be in a special funding situation as defined by Governmental Accounting Standards Board No. 68 and the State is treated as a non-employer contributing entity in the System. Since the districts do not contribute directly to the System, there is no net pension liability or deferred inflows or outflows to report in the financial statements of the City. The portion of the net pension liability that was associated with the City was \$201,478,144 and 100% of the collective net pension liability is allocated to the State.

June 30, 2016, is the actuarial valuation date upon which the total pension liability is based.

Since the prior valuation, the State adopted new assumptions based on the 2015 Experience Study. The changes in assumptions are summarized below:

Economic assumptions:

1. Reduce the inflation assumption from 3.00% to 2.75%.
2. Reduce the real rate of return assumption from 5.50% to 5.25% which, when combined with the inflation assumption change results in a decrease in the investment rate of return assumption from 8.50% to 8.00%.
3. Reduce the annual rate of wage increase assumption from 0.75% to 0.50%.
4. Slightly modify the merit portion of the salary scale.
5. Reduce the payroll growth assumption from 3.75% to 3.25%.

Demographic assumptions:

6. Update mortality tables to projected versions of the RPH-2014 mortality tables.
7. Increase normal retirement rates for females at most ages and proratable retirement rates for males at most ages. Decrease early retirement rates for both males and females.
8. Increase rates of withdrawal.
9. Decrease rates of disability for males.

The City has recorded, in the General Fund, intergovernmental revenue and education expenditures in the amount of \$21,971,916 payments made by the State of Connecticut on-behalf of the City. The City does not have any liability for teacher pensions.

Note 15. Governmental Accounting Standards Board (GASB) Statements

The GASB has issued several pronouncements that have effective dates that may impact future financial presentations. Management has not currently determined what, if any, impact implementation of the following statements may have on the financial statements, except for GASB 75, the estimated increase in liabilities is approximately \$22.5 million:

- GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, addresses reporting by governments that provide OPEB to their employees and for governments that finance OPEB for employees of other governments. Statement 75 requires governments to report a liability on the face of the financial statements for the OPEB that they provide. Statement 75 carries forward from Statement 45 the option to use a specified alternative measurement method in place of an actuarial valuation for purposes of determining the total OPEB liability for benefits provided through OPEB plans in which there are fewer than 100 plan members (active and inactive). This option was retained in order to reduce costs for smaller governments. The provisions of this Statement are effective for fiscal years beginning after June 15, 2017.
- GASB Statement No. 81, *Irrevocable Split-Interest Agreements*. This Statement requires that a government that receives resources pursuant to an irrevocable split-interest agreement recognize assets, liabilities, and deferred inflows of resources at the inception of the agreement. Furthermore, this Statement requires that a government recognize assets representing its beneficial interests in irrevocable split-interest agreements that are administered by a third party, if the government controls the present service capacity of the beneficial interests. This Statement requires that a government recognize revenue when the resources become applicable to the reporting period. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2016, and should be applied retroactively.
- GASB Statement No. 83, *Certain Asset Retirement Obligations*. This Statement addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. . A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this Statement. The requirements of this Statement are effective for reporting periods beginning after June 15, 2018. Earlier application is encouraged.
- GASB Statement No. 84, *Fiduciary Activities*. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018. Earlier application is encouraged.
- GASB Statement No. 85, *Omnibus 2017*. The objective of this Statement is to address practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits). The requirements of this Statement are effective for reporting periods beginning after June 15, 2017. Earlier application is encouraged.

City of Bristol, Connecticut

Notes to Financial Statements

Note 15. Governmental Accounting Standards Board (GASB) Statements (Continued)

- *GASB Statement No. 86, Certain Debt Extinguishment Issues.* The primary objective of this Statement is to improve consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources—resources other than the proceeds of refunding debt—are placed in an irrevocable trust for the sole purpose of extinguishing debt. This Statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance. The requirements of this Statement are effective for reporting periods beginning after June 15, 2017. Earlier application is encouraged.
- *GASB Statement No. 87, Leases.* The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged.

Note 16. Subsequent Events

In October 2017, the City issued \$4,000,000 in federally taxable bond anticipation notes. The notes have an interest rate of 2.00% and mature on July 18, 2018.

In November 2017, the City issued \$25,435,000 in general obligation refunding bonds. The general obligation bonds were used to refund \$27,625,000 of bonds outstanding.

Note 17. Tax Abatements

The City adopted new accounting guidance, GASB Statement No. 77, *Tax Abatement Disclosures*, effective for the year ended June 30, 2017. The new disclosure is presented below:

As of June 30, 2017, the City provides tax abatements through the Connecticut Enterprise Zone Program and Urban Jobs Program, as well as a locally administered Enterprise Zone Program for projects that fall within the State-designated Enterprise Zone area but which do not qualify for the State-Sponsored Connecticut Enterprise Zone Program.

The State- Sponsored Connecticut Enterprise Zone (EZ) Program provides real property tax abatements to encourage economic development in designated areas within a Targeted Investment Community of which the City has been designated, under Connecticut General Statutes Section 32-71. Eligible businesses include manufacturers, warehouse distributors and certain designated service related business. The property tax abatement is for a full five-year period and takes effect with the start of the first full assessment year following issuance of a "Certificate of Eligibility". For the fiscal year ended June 30, 2017, taxes abated through this program totaled approximately \$125,000. There are no provisions to recapture abated taxes under this program. No other commitments have been made by the City to the abatement recipients under this program.

City of Bristol, Connecticut

Notes to Financial Statements

Note 17. Tax Abatements (Continued)

The City-Sponsored Enterprise Zone Program is for projects within the State-designated Enterprise Zone area in which the applicant need not be a manufacturer, warehouse distributor, or eligible service-related business. To be eligible, commercial property must be improved to the extent of \$175,000 or greater. Program benefits are structured as a seven-year abatement of qualifying real and personal property improvements according to the following schedule: 100% (Year 1), 100% (Year 2), 50% (Year 3), 40% (Year 4), 30% (Year 5), 20% (Year 6), and 10% (Year 7). For the fiscal year ended June 30, 2017, the City did not have taxes abated through this program.

The Urban Jobs Program is available outside the geographic boundaries of the Enterprise Zone to certain companies. The property tax abatement is for a full five-year period and takes affect with the start of the first full assessment year following issuance of a "Certificate of Eligibility". For the fiscal year ended June 30, 2017, taxes abated through this program totaled approximately \$103,000. There are no provisions to recapture abated taxes under this program. No other commitments have been made by the City to the abatement recipients under this program.

Fund Statements and Schedules**

General Fund

General Fund

The General Fund is the operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

This fund is administered in accordance with Section 25 of the City Charter. The Board of Finance and Joint Board (Board of Finance and City Council meeting jointly) have final approval over the authorizations of budgetary appropriations and any revisions to the approved budget. The Charter mandates that funding deficits, operating deficiencies or operating surpluses have priority consideration when the succeeding budget is formulated. The Board of Finance, through its agent, the Comptroller's Office, controls the collection and disbursement of funds and has the legal authority to initiate audits. All assets of this fund belong to the City of Bristol. The authority for the levy of property taxes resides with the Joint Board. The City Council has the power to apply for and accept grants from other agencies and to establish and/or change the imposition of charges (fees) for the delivery of services.

Enterprise Fund

Enterprise Funds

Enterprise Funds are used to account for operations that are financed in a manner similar to private business enterprises, where the intent is that costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.

The **Water Enterprise Fund** is the City's only Enterprise Fund.

Fiduciary Funds

Fiduciary Funds

Pension Trust Funds

City of Bristol Retirement System - to account for the accumulation of resources to be used for retirement payments in accordance with retirement ordinance computations and times in the future. This fund covers all full-time City employees and noncertified members of the Board of Education. Certified teachers are included under a State of Connecticut Pension Plan. Resources are contributed by employees at rates determined by ordinance, by bargaining unit working agreements and by the City at amounts calculated by annual actuarial evaluations.

Firefighters' Benefits Fund - to account for the accumulation of resources to be used for retirement payments in accordance with contract amounts and times in the future. This fund covers all full-time firefighters. Resources are contributed by employees at rates determined by contract and by the City at amounts calculated by annual actuarial evaluations.

Police Benefit Fund - to account for the accumulation of resources to be used for retirement payments in accordance with contract amounts and times in the future. This fund covers all full-time police officers. Resources are contributed by employees at rates fixed by contract and by the City at amounts determined by annual actuarial evaluations.

Agency Funds

Senior Citizens Activity Fund - to account for the collection and payment of expenses for senior citizens' trips and special activities.

School Activity Funds - to account for the collection and payment of expenses for education and extracurricular activities.

Statistical Section Information

The objectives of statistical section information are to provide financial statement users with additional historical perspective, context and detail to assist in using the information in the financial statements, notes to financial statements and required supplementary information to understand and assess economic condition.

Statistical section information is presented in the following categories:

- *Financial trends information* is intended to assist users in understanding and assessing how financial position has changed over time.
- *Revenue capacity information* is intended to assist users in understanding and assessing the factors affecting the ability to generate own-source revenues (property taxes, charges for services, etc.).
- *Debt capacity information* is intended to assist users in understanding and assessing debt burden and the ability to issue additional debt.
- *Demographic and economic information* is intended 1) to assist users in understanding the socioeconomic environment and 2) to provide information that facilitates comparisons of financial statement information over time and among governments.
- *Operating information* is intended to provide contextual information about operations and resources to assist readers in using financial statement information to understand and assess economic condition.

The accompanying tables are presented in the above order. Refer to the Table of Contents for applicable page number locations.

Sources: Unless otherwise noted, the information in the tables is derived from the comprehensive annual financial reports for the relevant year.

Notes:

- (1) Assessed values for all real and personal property located within the City on October 1 are included on the Grand List by the Assessor's Office. A Board of Assessment Appeals determines whether adjustments to the Assessor's list under appeal are warranted. Assessments are computed at 70% of market value. A revaluation of all property within the City is required to be completed no less than every ten years.
- (2) Equalized Net Grand List is compiled by the State of Connecticut, Office of Policy and Management, as a factor in figuring aid to education, and is produced by comparing sample sales of real estate, or market value, to the assessed value of the property on the Town/City's books. The resulting sales assessment ratio is used to equalize grand lists for each Town/City in Connecticut. These computations usually take one year to compile.
- (3) Revaluation year
