- C. Building Maintenance

Documents:

[ThankYouNote.6.29.20.pdf](#)

- D. Solid Waste, Eric Straun
 - Resident called to thank Eric Straun, who went above and beyond when collecting rubbish. When he was emptying the barrel on McIntosh Drive the barrel broke and dropped trash everywhere. The driver got out of his vehicle picked up the trash and was able to dump it into the truck.
 - E. Solid Waste Laborers-Connor McCarthy And Jake Violette

Hi. The two gentlemen that did our bulk pickup this morning did such a great job. They came in a timely manner and worked hard and fast. They

seem to be great employees and deserve recognition. My family appreciates the bulk pickup that the towns offers. Thank you.
Shalise Massey

Director of Public Works

Minutes of Board of Public Works
WebEx Regular Meeting
Thursday June 18, 2020
6:00 p.m. WebEx meeting

Members Present:

Ellen Zoppo-Sassu, Chair
Council Member, Mary Fortier
Council Member, Gregory Hahn
Council Member, Peter Kelley
Commissioner Michael Dumas
Commissioner Frank Stawski
Commissioner Donald Padlo

Absent:

Staff Present:

Raymond A. Rogozionski, Director of Public Works

1. Call to Order

Mayor Ellen Zoppo-Sassu, Chair called the meeting to order at 6:01 p.m.

2. Board of Public Works Minutes of the Previous Meetings

- A. Board of Public Works Meeting Minutes May 21, 2020

Motion made by Council Member Hahn and seconded to approve the meeting minutes as presented.
Motion passed.

3. Employee Recognition

- A. June Work anniversaries were recognized.
- B. Fleet Manager James Divirgilio was recognized for Service. He Started as Fleet manager two weeks prior to Covid19 pandemic.
- C. Frank Nicastro Jr. was recognized as the New Public Works Coordinator.

4. Concerns & Petitions from the public

None.

5. Correspondence

- A. Memo-Sustainable CT 2020 Application

Motion made by Commissioner Padlo and seconded to place on file. Motion Passed.

B. Memo-Outdoor Classroom

Motion made by Commissioner Dumas and seconded to place on file. Motion Passed.

C. Memo-Recycling Cost Update

Motion made by Commissioner Padlo and seconded to place on file. Motion Passed.

Motion made by Council Member Hahn and seconded to move item 11A. Up Announcing three 2020 Reduce, Reuse, Recycling Poster Contest Winners

11. A. Announcing the 2020 Reduce, Reuse Recycling Poster Contest Winners Grades 9-12 - Phase 1

Three drawings were selected by Commissioners Padlo, Dumas and Stawski, to be displayed on the Recycling trucks for one year. Drawings # 1, 9 and 10.

D. Memo-City Hall Renovations

An in depth power point presentation was given by Director Raymond Rogozinski; Peter Fusco, Supervisor of Buildings and Grounds; Ron Quicquaro and Steve Niele of Studio Q Architecture; Eric Cushman and Michael Parent of Gilbane Building Company.

No motions made.

6. Public Works Division Reports

A. May 2020 Division Report

Motion made by Commissioner Padlo and seconded to accept as presented and place on file. Motion passed.

7. Public Works Project Schedule

A. Project Schedule

Motion made by Council Member Hahn and seconded to accept as presented and place on file. Motion passed.

8. Director's Verbal Report

Director Rogozinski provided a written report to the board.

9. Review of Public Works Budgets

A. May 2020 Financials

Motion made by Commissioner Dumas and seconded to accept as presented and place on file.
Motion passed.

10. Unfinished Business

None.

11. New Business

A. Announcing the 2020 Reduce, Reuse, Recycling Poster Contest Winners Grades 9-12 -Phase 1

Item was discussed under Correspondence.

B. Memo- City Council D'Amato Lease

Motion made by Council Member Hahn and seconded to Recommend City Council approve the request from D'Amato Associates LLC., to lease a portion (approximately 1.5 Acres) of City Owned Property identified as Battisto Road & Vincent P. Kelley Road Lot 3-31. Motion Passed.

C. Memo- Bloom Energy Request to Lease

Motion made by Council Member Fortier and seconded to recommend City Council approve the request from Bloom Energy Inc., to lease a portion (approximately 10,000 square feet) of City owned property identified as map 4 Lot 17. Motion Passed.

D. BOF Transfer-PW 611 Paving

Motion made by Council Member Fortier and seconded to approve the additional appropriation of \$3,709,997 to the Public Works Road Repair and Maintenance Account. Motion Passed.

E. BOF Transfer- PW 611 Trench Dewatering Pump

Motion made by Council Member Fortier and seconded to approve the transfer of \$2,500 towards the DPW Trench Dewatering Pump. Motion Passed.

F. BOF Transfer PW611 Water Dept. Truck

Motion made by Council Member Fortier and seconded to approve the transfer of \$3,200 to buy a Utility Truck used from the Water Dept. Motion Passed.

12. Addendum

A. BOF Transfer-PW611 Various

Motion made by Council Member Fortier and seconded to approve the Transfer of \$32,735 for various accounts to various other accounts to balance out the end of the Year Budget. Motion Passed.

B. City Council Referral to Sell City Owned Property on Gina Street

Motion made by Council Member Fortier and seconded to refer to Staff level.

13. Adjournment

Motion made by Council Member Fortier and seconded to adjourn. Motion passed.

Meeting adjourned at 7:50 p.m.

This meeting was recorded.

Respectfully submitted,

Raymond A. Rogozinski, P.E.
Director of Public Works

We serviced over 1000 people last week during the Inaugural Farms to Families food distribution. The first set of staff were part of the set up team; the second set of employees realized how big it was going to be during set up – as cars started to arrive at 2pm for a 4pm event, and they volunteered to stay and help. We finished at 6pm.

I would like this email placed in the personnel files of all the staff listed below in recognition of the monumental task this was, in the heat, with a variety of complicated factors in play. The public response, and social media reactions, was all positive and it was mostly due to the efforts that went into ensuring it was organized and flowing well. It's events like this that show that our employees are All Heart. I will also ask Councilman Kelley, who sits on the Public Works Board and also volunteered, to mention this at the Council meeting.

James DeVirgilio – Fleet Manager
Dave Porter – Mechanic
Luis Vasquez – Solid Waste laborer
John Taylor – Fleets Part
Lindsey Rivers – DPW Analyst
Janet Letourneau – Senior Administrator

The following DPW volunteered:
Chester Cyr, Light truck driver
Gerry Bourbonniere, Truck driver
Donald Tardiff, skilled Laborer
Janet's two kids

Sincerely,

Ellen Zoppo-Sassu

Keep smiling!

I just want to say
"Thank you" for all
that you do everyday
Being Frontline, Keeping
us and Public safe. You
guys are fantastic.

And thank you for bringing
the boxes down to the Valet
I appreciate your hard work
Ann Rednax

* Dave Oakes

* Luis Lorenzo

* maintenance crew

Department of Public Works | 860.584.6125

MEMORANDUM

DATE: July 9, 2020

TO: Mayor Ellen Zoppo-Sassu
Board of Public Works

FROM: Raymond A. Rogozinski, P.E., Director of Public Works

Re: DPW FY2020-21 Budget

The Department's FY2020-21 Budget was approved by the Board of Finance and is currently in effect as of July 1, 2020. A summary of the changes implemented in the final budget are attached and identified as "Recommended Changes 2020-21".

The approved DPW 2020-21 is lower than the 2019-20 budget as a result of restructuring the major roadway accounts. Funding for major roads is now primarily outside the DPW operating budget and is contained within the newly established Road Improvement Fund (approximately \$4,200,000).

DPW Capital and Fleet equipment/vehicles request was reduced, however the Departments primary needs to maintain operations have been met with approved funding. A list of the Department's approved vehicles is contained in Public Works Fleet (page 206). In addition, funding for a new back hoe for the Department (\$187,000) is currently in place through an account transfer from 2019-20 funding.

A copy of the Department's budget and budget narratives that will be contained in the City's budget book is attached for the following funds.

1. DPW Operating Budget
2. Transfer Station Fund
3. Solid Waste Disposal Fund
4. Public Building Fund

In addition, a summary of approved capital improvement projects is included in the spread sheet identified as "City of Bristol – New Capital Budget Codes for 2021".

Please feel free to contact me with any questions / concerns at 860-584-6113.

TOTAL PUBLIC WORKS		\$14,906,303	\$11,924,830	\$15,479,848	\$12,798,265	\$10,351,300

Budgetary Highlights

The 2020-2021 Public Works budget of \$10,351,300 is a 13.20% decrease from the 2020 fiscal year budget primarily due to the funding for the Major Road Improvements being removed from the General Fund to a newly established Road Improvements Fund, budgeted in Operating Transfers.

Mission Statement

The Public Works Department will work to maintain the City's infrastructure, environment and assets to maximize community investment and customer satisfaction through the efficient and courteous delivery of services to residents and businesses.

Service Narrative

Public Works is accountable for the planning, design, development, construction, and maintenance of the City's infrastructure which includes: roadways, bridges, railroad spur, buildings, grounds, and storm water systems. Public Works also includes Land Use development planning, maintenance of City vehicles and equipment, collection of solid waste refuse and recycling materials, and snow and ice control on the roadways.

Public Works has several divisions designed to provide specific services. The service centers consist of the following: Administration, Engineering, Land Use, Building Maintenance, Streets, Solid Waste, Fleet Maintenance, Snow Removal, Major Road Improvements, Railroad Maintenance, Other City Buildings, Line Painting, Fleet and Street Lighting. The separate Solid Waste Disposal and Transfer Station funds are Special Revenue Funds.

Summary of Fiscal Year 2020-2021 Budget:

- Initiate and implement Asset Management program to track service request, repair cost and determine asset life cycle cost to improve efficiencies and level of service for the Fleet Division.
- Scan and electronically organize all Department existing documents.
- The separation of WPC operations from DPW has allowed the Department to utilize the Division's Excavation Inspector to focus on improving utility roadway patches, pavement markings and service request response.
- Revise city Zoning Regulations. Proposed revisions would consist of a complete re-write of existing regulations to modernize and clarify zoning provisions. Revised regulations would be written in plain English, free of technical terminology.
- Expand major roadway work to include replacement of roadway curbing (full roadway length) to maintain curb reveal. Roadway curbing replacement will also include limiting concrete curb to the Federal Hill section of the City.
- Addressed increased cost to dispose of municipal single stream recycling. Current recycling processing cost is based on commodity market price of recyclable items. Due to the continuing decline in recycling commodity prices City processing costs have increased from \$75/ton to approximately \$85/ton.

Fiscal Year 2021 Goals:

- Utilize Asset Management to update the Departments long term capital improvement program for all Department assets (roadways, building facilities, vehicles and equipment).
- Construct 80 space paved parking lot on Centre Square adjacent to Hope Street complete with asphalt pavement, curbing, storm drainage and electrical utilities.
- Install a 1.1 MW photovoltaic solar panel arrays on a portion of the un-used landfill.
- Continue to promote Reduce, Recycle, Reuse (RRR) program to reduce municipal solid waste quantities in order to reduce recycling and refuse disposal cost.
- Implement programs to achieve a Silver Level Certification in the Sustainable CT Program.
- Renew CT DEEP Landfill Stewardship permit
- Analyze use of GPS for snow operation venders to monitor location and work performed.
- Assist the Economic and Community Development Department to support and implement projects to expand economic development. In particular, the City initiative to redevelop the City's downtown area.
- Update multiyear vehicle and equipment replacement program analyzing and outlining service needs of the department.

Public Works

- Improve part inventory system and controls with the Department, in particular the Fleet and Solid Waste Divisions. The objective is to improve supply change systems to reduce stored parts within Fleet and identify/obtain and store on-site specialized HVAC equipment required to service City Buildings.

Long Term Goals:

- Investigate availability of grants to reduce City cost to improve public facilities, infrastructure and roadway conditions.
- Update City Inland wetland map to delineate City wetlands.
- Investigate use of alternate fuels and technologies to improve energy efficiencies and reduce the Department's building HVAC and fleet energy cost.
- Investigate alternatives for roadway surface treatments/ pavement management processes.
- Improve roadway pavement markings on City roads to support autonomous and self-driving vehicles.
- Implement use of technologies to improve Department efficiency and level of service.

Public Works - Administration

Service Narrative

The Public Works Administration Division handles all administrative support functions for the Department. The Division supports both the Board of Public Works and its various committees. The Public Works customer service front desk doubles as the telephone switchboard for all of City Hall. Residents visiting Public Works are greeted at the customer service desk and staff strives to provide friendly and efficient service. The Administration division is responsible for the Department payroll, accounts receivable and accounts payable. The Division manages all resident requests, the sale of transfer station permits, Pay as You Throw (PAYT) funds, yard waste program subscriptions, and bulk pick-up scheduling.

Fiscal Year 2020 Goals and Accomplishments:

- Expanded support of administrative functions to the Street, Solid Waste, Building and Engineering Divisions.
- Continued to improve Public Works communication with residents via social media (Facebook page - Facebook.com/BristolPW, Twitter (@BristolPW) and mailing lists created using CivicPlus, the City's web provider.
- Provided "Welcome Packages" to new homeowners in Bristol to promote the services that Public Works has available.
- Provided public outreach and education regarding Pay As You Throw at the Transfer Station "What's In/What's Out" recycling guidance and Recycle Coach usage.
- Promoted Department's Reduce, Reuse and Recycle education program (developed presentation for the 3rd grade students, installed vegetable gardens at City schools and conducted five workshops). This program also collected books, plastic, wedding dresses and sports equipment to reduce items disposed of as solid waste.
- Continued to expand use of online complaints, illegal bulk reporting and building landlord Database.
- Manage electronic collection and shredding events at City farmers market.
- Implemented and assisted Solid Waste Division in the development of the "Trash to Treasure" program designed to educate residents in "Reduce, Reuse and Recycling"
- Increased employee training and education.
- Developed and implemented an employee recognition program.
- Implemented the use of digital forms and applications to increase residential access to Department services via the website.

Summary of Fiscal Year 2020-2021 Budget:

- Continued cross training of employees and education programs to improve efficiency and enhance service to public.
- DPW is creating outdoor classrooms in all Bristol public schools.
- Scan and electronically organize/ file all Department existing documents.
- Initiate/ implement Asset Management program to track service request, repair cost and determine asset life cycle cost to improve efficiencies and level of service.

Fiscal Year 2021 Goals:

- Identify efficiencies in processes and enable residents to utilize self-service where possible.
- Expand development of Department's RRR program increase student, BOE outreach and education programs, enlarge targeted collection programs for items such as sport equipment and clothing, increase awareness of composting through partnership programs with City garden clubs and work with BOE on the Department's outdoor classroom initiative. RRR program development includes benchmarking and quantitating savings of solid waste reduction.

Long Term Goals:

- Identify efficiencies in processes and enable residents to utilize self-service where possible.
- Find and develop other avenues of communication with the public.

Performance Measures

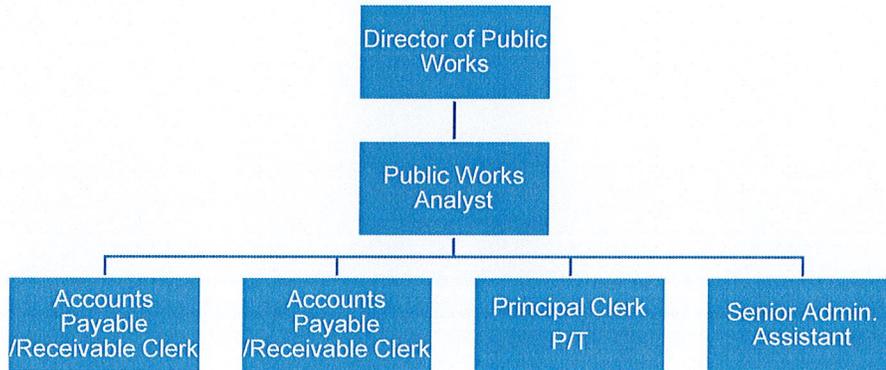

Quantitative:

	FY 2018	FY 2019	FY 2020

Public Works - Engineering

Nancy Levesque, City Engineer
860-584-6105

Service Narrative

The Engineering Division plans, designs and supervises various types of capital improvement projects for the installation and maintenance of the roadway infrastructure, including storm drainage, roads, sidewalks and bridges. The staff also reviews and oversees construction of maintenance work and capital improvement projects funded through the City Public Buildings program. The Division also provides engineering assistance to other City departments, boards and commissions for infrastructure improvements as proposed for private development.

The Division implements the City's expanded major roadway maintenance programs and projects including, bridges and major culverts, drainage improvements and upgrades, milling, reclaiming, pavement resurfacing, roadside barriers, and line striping.

The Division reviews and supervises the construction of infrastructure improvements conducted by contractors and private developers.

The Division uses digital imaging, computer-aided design and drafting equipment to complete designs and update City mapping. In addition, the Engineering Division staff is continually updating the City's GIS system.

The staff issues permits for and inspects sidewalks, driveways and utility installations. The staff will also assist the public on a variety of technical issues, wetlands and flood plain questions, and responds to requests for information.

Fiscal Year 2020 Goals and Accomplishments:

- Managed road resurfacing and pavement management program to increase roadway condition rating to 80 (scale 1-100).
- Reduced backlog of Capital Improvement Projects by completing Lexington Street storm drainage and reconstruction, reconstruction of Sharon St, Dover St, Warren St and New Hampshire Drive along with replacing concrete floor at DPW Vincent P Kelly Road facility. CIP projects completed within budget.
- Increased coordination with public utility companies to limit disturbance of newly paved roadways.
- Reduced service request response time and street light outage time by improving coordination with City Street Light service vendor and Eversource electric.
- Amend City Land Use storm water permit requirements to comply with State DEEP associated with Municipal Separate Storm Sewer System (MS4) program requirements.
- Implemented new roadway paving techniques to improve and eliminate pavement seam separation.
- Installed City storm drainage to eliminate discharge of private discharge to City roads, preventing ice formation and damage to City roads.
- Coordinate State DOT proposed projects in the downtown area (Reconstruction of Route 69/72, Realignment of Route 72 (Brackett Park area)
- Administered Department of Public Works Major Road Improvement, Railroad Maintenance, Line Painting and Street Lighting programs.
- Provided engineering services to other City Departments such as Economic and Community Development (ECD), Parks, Recreation, Youth and Community Services and Board of Education.
- Reorganized the Engineering Division in response to recruiting and retention challenges for the Assistant City Engineering through elimination of this position and creation of a Project Manager.

Summary of Fiscal Year 2020-2021 Budget:

- The separation of WPC operations from DPW has allowed the Division to utilize the Division's Excavation Inspector to focus on improving utility roadway patches, pavement markings and service request response.
- Prepare handicap ramp study and assessment of City roadways with an ADA transition plan in accordance with State and Federal regulations.
- Scan and electronically file/manage Division records.

Fiscal Year 2021 Goals:

- Manage rehabilitation and replacement of the Memorial Blvd, Downs Street, East Street, and Mellen Street, Jerome Avenue and Louisiana St bridges, on budget and in accordance with DOT, Federal Highway and LOTCIP requirements.
- Reduce impact of pavement patches on City roads installed by private and public utilities by expanding the permanent patch and milling and paving program.
- Improve and expand public access to the Department of Public Works Graphical Information System (GIS).
- Maintain existing pavement management and resurfacing program to improve surface conditions of City roadways.
- Update City roadway and utility standards and details.
- Maintain high level and ensure compliance with City roadway and infrastructure construction standards.
- Streamline/improve Division permit process through online permitting.
- Support /assist Economic and Community Development Department with implementation of projects that support economic development within the City.

Long Term Goals:

- Continue roadway pavement management program to improve pavement surface conditions of City roads.
- Increase training and education of Engineering Division staff.
- Obtain grants to improve public facilities, infrastructure and roadway conditions.

Performance Measures

Quantitative:

	FY 2018	FY 2019	FY 2020
Major Design Projects-Completed	8	5	6
Major Survey Projects-Completed	3	2	4

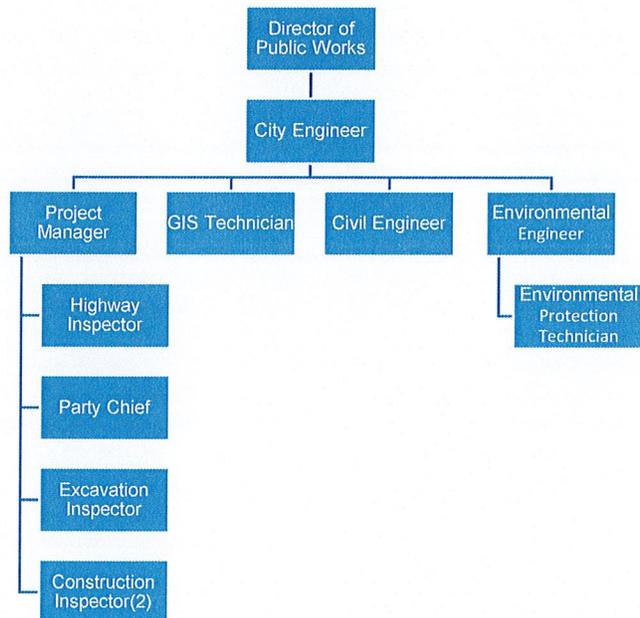

Qualitative:

Staff completed design, inspection and contract administration of capital projects for sanitary sewer, sidewalk and roadway and building improvements.

Public Works – Land Use

Robert M. Flanagan, AICP – City Planner
860-584-6225
robertflanagan@bristolct.gov

Service Narrative

The Land Use Division works with public officials and agencies, the private sector and the general public to monitor and guide the growth, development and conservation of the City. The staff of the Division provides administrative and technical services to six City boards: Planning Commission, Zoning Commission, Conservation/Inland Wetlands and Watercourses Commission (IWWC), Zoning Board of Appeals, Historic District Commission, and Aquifer Protection Agency.

Services provided by the Division include receiving and processing land use applications, preparing legal notices, meeting agendas, correspondence and meeting minutes, keeping the official records of the boards, and providing land use, zoning and development information to the public, attorneys and other land use professionals.

The staff of the Division also provides technical expertise and administrative assistance in the preparation and update of the City's Plan of Conservation and Development, the preparation of other planning studies, and the development and amendment of the City's regulatory tools (Zoning Regulations, Zoning Map, Subdivision Regulations, Inland Wetlands Regulations (IWWC), Historic District Guidelines, and Aquifer Protection Area Regulations).

Fiscal Year 2020 Goals and Accomplishments:

- Drafted amendments to the Zoning Regulations that eliminates special permit requirements for environmental remediation projects, permits assisted living establishments in the downtown zone and removed the prohibition on building murals and wall art.
- Assisted Board of Education (BOE) consultants in the land use planning for the Memorial Boulevard Intradistrict Arts Magnet School redevelopment.

Public Works

- Organized a land use training for all Land Use Commissioners under the direction of UConn/CLEAR at City Hall. The session reviewed the legal requirements, procedures, roles and responsibilities of land use boards and commissions.
- Attained compliance with State of Connecticut MS-4 permit requirements by adding a Stormwater Management section to the Zoning Regulations.
- Installed provisions in the Land Use office to accept credit card payments for permit applications.

Summary of Fiscal Year 2020-2021 Budget:

- Facilitate pre-application meetings and field walks with applicants prior to the formal application submission to expedite Land Use permit application processing.
- Continue to provide support to Downtown property and property owners of underutilized property owners along the Route 6 Corridor (Farmington Avenue) to promote development.
- Revise City Zoning Regulations. Proposed revisions would consist of a complete re-write of existing regulations to modernize and clarify zoning provisions. Revised regulations would be written in plain English, meaning that are free of technical terminology.

Fiscal Year 2021 Goals:

- Continue to support changes that provide increased flexibility to prospective property owners with respect to parking, especially in the BD (Downtown Business) zones.
- Continue to enhance the land use process by utilizing the City of Bristol land use Board and Commission websites.
- Provide additional training to Land Use Commissioners (City ethics standards, freedom of information, Robert's Rules and City policies.)

Long Term Goals:

- Staff will continue to seek out on-going training and educational opportunities for all land use Commissioners.
- Examine additional opportunities to update and improve procedures that make the land use process more efficient and responsive to constituent needs.
- Update City inland wetland map to delineate City wetlands.

Performance Measures

Quantitative:

	FY 2018	FY2019	FY2020
Zone Changes/Zoning Text Amendments	3/2	5/6	7
Special Permits	11	16	22
Site Plans	13	11	20
Subdivisions	5	3	1
<i>Wetlands Permits</i>			
Commission- Approved	16	19	20
Administratively- Approved	65	58	90

Public Works – Building Maintenance

David P. Oakes, Public Facilities and Energy Manager

860-584-6107

davidoakes@bristolct.gov

Service Narrative

The Building Maintenance Division is responsible for and oversees all maintenance, renovation and capital outlay projects for City Hall and the Police-Court Complex, Youth Services Department, along with infrastructure maintenance of the Libraries, Beals Senior Community Center, Animal Control Facility, five Fire Stations, the City Yard and any vacant schools. Duties include coordination with outside vendors and day to day functions that are required to keep the city buildings operating at an efficient level. The Division also provides all custodial services for City Hall, Police Complex, and Youth Services Departments.

Fiscal Year 2020 Goals and Accomplishments:

- Conversion of City Hall, Police Complex and Fire Headquarters boilers from heating oil to natural gas. Work included gas line installations, boiler burner replacements and modifications, and underground storage tank removal abandonment.
- Improvements to Parks Department City Hall office to transition staff from 51 High Street.
- Completed renovation to the Police Complex Training Room.
- Completed energy conservation project to install LED lighting at the City Main Library and replacement of exterior lighting at Senior Center and gym area.
- Replacement of HVAC chiller units at the Police Complex and City Hall chill water air handler coil and the electric feed to Senior Center Chiller.
- Closure of State Judicial Superior Court at 131 North Main Street.
- Completed various boiler mechanical upgrades in City buildings in order to comply with State of CT guidelines and standard insurance provider and conduct a steam trap mechanical study at City Hall and Police Complex to identify deficiencies and repair and replace failed units.
- Replace existing flat roof and restore vestibules (to maintain historic aesthetic) at the 51 High Street building.
- Complete site condition assessment of Fire Headquarters in conjunction with engineering consultant, to provide construction documents for the mechanical improvements, kitchen upgrades and building envelope.
- Worked with engineering consultant on evaluation of Police Complex HVAC and electrical infrastructure to plan future capital projects.
- Developed architectural concept plan and cost analysis to renovate City Hall facility. Plan evaluates project to perform complete “renovate as new” renovation, with addition to provide ADA accessible elevator along with site improvements with handicap parking.
- Due to the age of City Hall mechanical systems a portion of the equipment has exceeded its anticipated life cycle. As a result, maintaining a satisfactory level of service is a challenge to Department resources. With the assistance of the Board of Education (BOE) Facility Manager the Department developed/expanded a preventive maintenance program, however the City Hall building facilities are subject to a high rate of repairs.

Summary of Fiscal Year 2020-2021 Budget:

- Coordinate with BOE Facilities Division for shared services to reduce overall operating costs.
- Evaluate architectural concept plan and cost analysis to renovate facility “as new” to determine and define long term facility strategy for City Hall.

Fiscal Year 2021 Major Service Level Goals:

- Maintain Building Maintenance operational levels.
- Establish an annual contract to provide inspections and services on all City buildings roof systems to maintain existing warranties.
- Develop an inventory of HVAC stock supplies (motor, pumps and miscellaneous components) to proactively be prepared for breakdowns and minimize downtime of equipment.
- Implement programs to achieve a Silver Level Certification in the Sustainable CT Program.
- Develop and implement plan to improve energy efficiency to reduce cost.
- Complete lead abatement of former gun range at City Hall for future use.
- Perform exterior improvements and boiler replacement at 51 High Street building.
- Develop capital improvement schedule to maintain existing building infrastructure.
- Obtain silver certification from the Sustainable CT Program.

Long Term Goals:

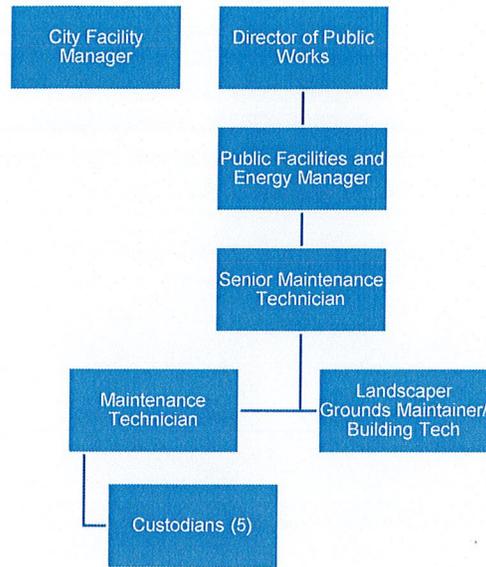

- Establish a long term capital improvement program for all building facilities, for the replacement of equipment assets and infrastructure, including but not limited to: HVAC equipment, roofing systems, underground storage tank removals, fire safety systems, elevators, windows and doors.

Public Works – Streets

Craig Kasparian, Superintendent of Streets
860-584-7792 Ext. 1
CraigKasparian@bristolct.gov

Service Narrative

The Streets Division of Public Works is responsible for the maintenance and construction duties related to all street appearances and some of its facilities. A general description of work performed is as follows: Storm water control which encompasses street drain and catch basin installation, repair and maintenance and pavement maintenance which includes pavement of roads, curbing (repairs and installation), pot holes, driveway aprons, and trench repairs. Masonry work performed includes repair of bridges, repair and construction of sidewalks, retention walls, basins and floors. Roadside maintenance is associated with tree maintenance (removals, trimming, brush cutting, stumping and planting). Snow and ice controls during the winter season include snowplowing, road treatments, and hauling of de-icing materials and snow. Sweeping operations involves the removal of minor debris from the roadways and municipal properties.

Fiscal Year 2020 Goals and Accomplishments:

- Improved maintenance response time for addressing pavement patches, bituminous curbing, and driveway aprons along with retaining wall, storm drainage, concrete sidewalk and roadway mill and asphalt patching projects.
- Constructed a 64 space paved parking lot complete with storm drainage and electrical utilities to service Muzzy Field (estimated saving \$130,000).
- Created new Sign Shop and implemented program to install missing and damaged street identification (name) signs. Sign Shop also provided signs to other City Departments.
- Performed right of way lawn maintenance and spring street sweeping program.
- Maintained City operated storm water detention ponds.
- Provided emergency support during severe weather situations.
- Replaced concrete floor of Street garage at Vincent P. Kelly Road.
- Purchased additional “pavement hot box” which allows the Department to assign two work crews to keep asphalt hot for roadway patching, curbing and driveway apron repairs.

Summary of Fiscal Year 2020-2021 Budget:

- Improve maintenance of City roads to reduce service requests and improve public safety.
- Continue to implement measures to enhance Department image with events such as “touch a truck” and provide assistance to the “All Heart” School Gardens Outdoor Classrooms programs.

Fiscal Year 2021 Goals:

- Construct 80 space paved parking lot on Centre Square adjacent to Hope Street complete with asphalt pavement, curbing, storm drainage and electrical utilities.
- Investigate use of equipment and implement procedures to improve worker safety.
- Develop user guide for Sign Shop operations to improve efficiency.

Long Term Goals:

- Implement use of technology to improve Department efficiency and increase the level of service provided to residents.
- Develop in-house training program for heavy and light equipment operators.
- Implement use of technology to improve division efficiency and increase the level of service provided to residents.
- Expand Division to take on larger projects.

Public Works – Solid Waste

Josh Corey, Superintendent of Solid Waste
 860-584-7792 Ext. 2
joshcorey@bristolct.gov

Service Narrative

The Solid Waste Division of the Public Works Department is charged with curbside collection of residential solid waste including rubbish, recycling, yard waste, bulk waste, leaves, brush, and Christmas trees. The Division is also responsible for operation and management of the Solid Waste Transfer Station, Compost Site, and Landfill. The Solid Waste Division is further responsible for compliance with State of Connecticut recycling guidelines, participating in the Code Enforcement Committee, organizing and managing Bristol's Household Hazardous Waste Collection, and special Electronic Collections.

Fiscal Year 2020 Goals and Accomplishments:

- Maintained level of service for weekly municipal refuse, recycling, bulk and yard waste collection.
- Reduced Department's overtime cost associated with the City's annual fall leaf collection program.
- Reduced the amount of illegal bulk in the City by promoting the Department's bulk collection program and increasing the enforcement of illegal bulk activity.
- Administered deployment of new replacement recycling, refuse and yard waste barrels.
- Modified solid waste collection route to improve safety
- Maintained compliance with CT DEEP environmental permits and regulations.
- Reconstructed transfer station retaining wall (brush drop off).
- Implemented Trash to Treasure program
- Increased employee education and training in safety, vehicle preventive maintenance and customer service.

Summary of Fiscal Year 2020-2021 Budget:

- Increased cost to dispose of municipal single stream recycling. Current recycling processing cost is based on commodity market price of recyclable items. Due to the continuing decline in recycling commodity prices City processing cost have increased from \$75/ton to approximately \$85/ton.
- Implement program to rotate use of Department rear packer refuse truck for bulk pickup to reduce vehicle breakdowns and increase rear packer reliability.
- Audit residential recycling barrels to evaluate program and educate residents.

Fiscal Year 2021 Goals:

- Reduce service requests associated with weekly collection of municipal refuse and recyclables.
- Increase enforcement to reduce illegal bulk activity throughout the City.
- Continue to promote Reduce/Recycle/Reuse program to reduce municipal solid waste quantities in order to reduce recycling and refuse disposal cost.

Long Term Goals:

- Develop and implement programs to reduce the quantity of solid waste generated within the City through education and public awareness to reduce disposal cost of refuse and recyclable material.
- Investigate equipment to replace use of rear packer refuse trucks for special items including bulk pick-up, leaf and Christmas tree collections.
- Increase sale price and the number of items collected at transfer station to reduce disposal cost.

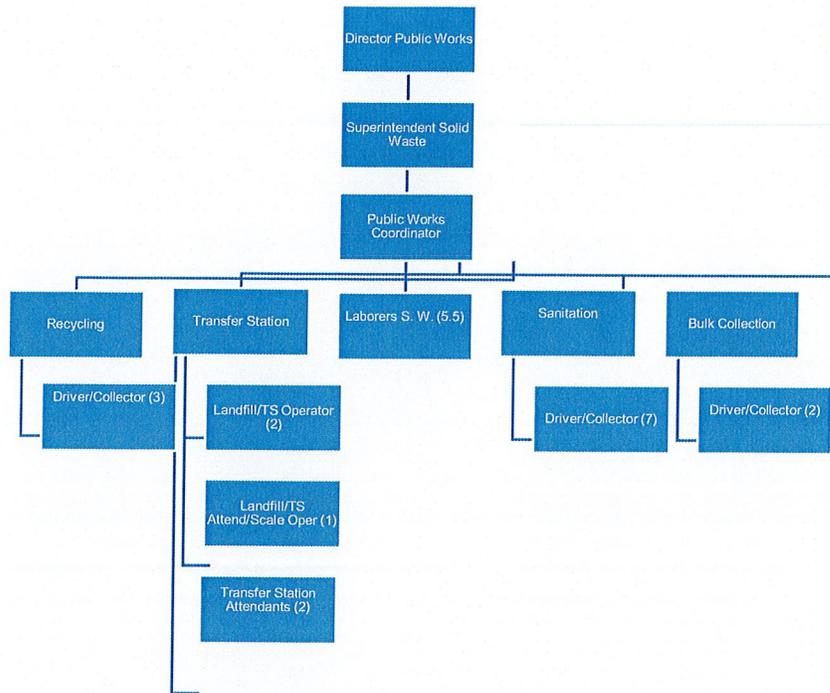

Performance Measures

Public Works – Fleet Maintenance

James DiVirgilio, Public Works Fleet Manager
860-584-7792 ext. 3
jamesdivirgilio@bristolct.gov

Service Narrative

The Public Works Fleet Maintenance Division is dedicated to managing a fleet of mechanically safe, and dependable vehicles, utilizing diagnostics programs, welding and fabrication, parts management, and preventative maintenance procedures to maintain effective delivery of fleet services. Responsibilities include, providing general maintenance and repair to approximately 150 vehicles and large pieces of construction equipment for a number of divisions. Solid Waste Division has a fleet of seventeen automated trucks used daily for rubbish pick-up, yard waste collection, and recycling routes. While the automated trucks perform a very efficient function in the collection of rubbish, yard waste, and recycling; the trucks do require extra repairs and maintenance associated with their sophisticated hydraulic arms and electronic systems. In addition there are conventional rear packer trucks, transfer station loader and related equipment. The Streets Division has trucks, plows and material spreaders, heavy and light equipment, and power equipment. The Administration and Engineering Divisions have passenger vehicles. Fleet Maintenance also maintains and repairs 110 pieces of small power equipment such as chain saws, pumps and generators.

General preventative maintenance services are provided by the Division to 45 Police Department cars and trucks, seven Building Department vehicles, three Parks, Recreation, Youth and Community Services Department vehicles, Library Department vehicle, Human Resources Department vehicle and Human Resource Agency vehicles. Other services include fuel system

management, and regulatory compliance, including emission testing, vehicle safety, and garage infrastructure.

Fiscal Year 2020 Goals and Accomplishments:

- Maintained Fleet vehicles and construction equipment to support service level requirements of the Department's Street, Solid Waste and Snow Operations.
- Improved service repairs delivery time and reduced repeat repairs.
- Updated multiyear vehicle and equipment replacement program by analyzing and outlining service needs of the Department.
- Performed diagnostics on equipment and vehicles as part of an ongoing vehicle preventive maintenance program.
- Installed vehicle service lift to improve efficiency and increase capacity to repair Department vehicles.
- Maintained diesel and gasoline fuel system for City vehicles in accordance with CT DEEP requirements.
- Increased employee training and education.

Summary of Fiscal Year 2020-2021 Budget:

- Install centralized lubrication system to improve efficiency and increase preventative maintenance for Department vehicles.
- Obtain and implement asset management software for fleet operation.
- Administer vehicle and equipment capital outlay program to replace aging vehicles to maintain existing level of service and safety.
- Purchase an asset management software system for Public Works vehicles and construction equipment to assist with accurately reporting fleet costs, including billing, fleet life cycles, maintenance history, and expenses.

Fiscal Year 2021 Goals:

- Maintain inventory, streamline parts and fluids requisition for repairs of City vehicles and equipment maintained by Public Works.
- Implement best management practices to improve levels of service and increase efficiencies.
- Review vendor repair procurement procedures and processes for vehicle and equipment.
- Expand current services to share Fleet services with other City departments to increase efficiencies and reduce cost.

Long Term Goals:

- Implement measures to improve efficiencies to reduce fleet fuel and energy costs including investigating use of alternative fuel vehicles.
- Develop performance metrics for Fleet functions.

Public Works – Snow Removal

Service Narrative

Snow removal is handled by the Streets Maintenance Operations Division of the Public Works Department and consists of clearing and road treatment of the 234 miles of accepted City streets including various municipal and Board of Education parking lots.

The Division purchases treated salt which is applied on the roads. The Division stockpiles its road salt in two storage domes. The main dome on Vincent P. Kelly Road serves as the main storage facility for the City as well as the distribution center for the southern and northeastern parts of the City. The satellite dome on James P. Casey Road serves the northeastern and northwestern parts of the City. Of the Division's twenty one trucks equipped with salt spreading equipment, nineteen trucks are also equipped with magnesium chloride systems which wet the treated salt as it is being distributed on the roadway surface. This additive enhances the melting capability of the salt and keeps it active at lower temperatures.

Fiscal Year 2020 Goals and Accomplishments:

- Maintained level of service of snow operations to ensure safety of traveling public within the City.
- Improved coordination with Board of Education parking lot snow removal and treatment operations.
- Coordinated storm weather forecast reports with employee overtime call-ins to improve response time.

Summary of Fiscal Year 2020-2021 Budget:

Public Works

- Investigate and implement alternate methods and procedures to remove snow and de-icing processes.
- Monitor plow routes and prioritize road treatments and plowing based on traffic conditions.
- Improve response to emergency road treatments as needed.
- Obtain spare truck plow to improve fleet reliability during snow operations.

Fiscal Year 2021 Goals:

- Explore advances in snow de-icing treatment to protect the environment.
- Develop performance metrics for snow operations.
- Investigate and implement measures to reduce use of contractors for snow operations.
- Investigate and implement revisions to snow service contract provisions to improve response time and performance of contract snow operation services. Potential revisions include adjustment to existing rates in order to match current compensation provided by adjacent communities.
- Implement best management practices to improve level of service and increase efficiencies.

Long Term Goals:

- Investigate implementing a policy of mandatory call in and overtime for employees during winter operations.
- Analyze use of GPS for snow operation vendors to monitor location and work performed.

Public Works – Major Road Improvements

Service Narrative

The Public Works Major Road Improvements portion of the budget is managed by the Engineering Division and provides the annual funding needed to maintain the 234 miles of the City's roadway infrastructure which includes travel-way maintenance (pavement overlays, crack sealing, crack filling, curb installation and repair), sidewalk repairs fronting on City properties, pavement excavation repairs (Permanent Patch program), and road surface treatment (nova-chip, etc.).

Fiscal Year 2020 Goals and Accomplishments:

- Administered Department of Public Works expanded Major Road Improvement programs, funding increased through an annual State grant which has been in excess of \$2.4 million annually.
- Maintained procedures to improve and repair utilities located on City Street prior to performance of major road maintenance.
- Improved City Roadway Condition Rating of City Roads from 75.67 to 80.

Summary of Fiscal Year 2020-2021 Budget:

- Maintain Fiscal Year 2019-2020 City funding levels. Anticipate additional funding from the State of approximately \$3,700,000 for road improvements
- Expand major roadway work to include replacement of roadway curbing (full roadway length) to maintain curb appeal. Roadway curbing replacement will also include limiting concrete curb to the Federal Hill section of the City.
- Purchase and implement an asset management software system for City roadway conditions to track roadway conditions, determine service life and asset value.
- Improve roadway repairs impacted by utility patches by expanding roadway repair area beyond utility trench to include roadway defects).
- Funding for Major Road Improvements have been removed from the General Fund. A transfer to a newly established fund, Road Improvements Fund, is budgeted in Operating Transfers.

Fiscal Year 2021 Goals:

- Maintain current Roadway Condition Rating of City Roads.
- Investigate alternatives for roadway surface treatments.
- Maintain high level of and ensure compliance with City roadway and infrastructure construction standards.
- Improve coordination with public utility companies to limit disturbance to City roads.

Long Term Goals:

- Maintain current Roadway Condition Rating of City Roads.
- Investigate alternatives for roadway surface treatments.
- Maintain high level and ensure compliance with City roadway and infrastructure construction standards.
- Improve coordination with public utility companies to limit disruption to City roads.

Public Works – Railroad Maintenance

Service Narrative

The Public Works Railroad Maintenance cost center is managed by the Public Works Engineering Division. Responsibilities include coordinating the maintenance functions for the City's 1.9-mile long railroad spur and siding that serves the northwest industrial park and includes an elevated bridge and three (3) at-grade crossings. The maintenance functions are contracted out to a railroad maintenance company that is required to inspect, clear brush from, and make repairs to the railroad spur and siding as necessary. The Department oversees the performance of the yearly inspection and maintenance efforts to ensure railroad reliability for business along the spur.

Fiscal Year 2020 Goals and Accomplishments:

- Completed capital improvement project to reconstruct Route 6 railroad crossing.
- Expanded and completed major program to replace rail ties and rails along railroad line.

Summary of Fiscal Year 2020-2021 Budget:

- Maintain existing level of service
- Coordinate Connecticut Department of Transportation paving of Route 6.
- Remove existing railroad ties (1,800) located along rail road.

Fiscal Year 2021 Goals:

- Improve rail road level of service and maintain rail line safety.
- Improve coordination with Pam Am rail.

Long Term Goals:

- Replace originally installed 100 and 107 pound rail with 115 pound rail.

Public Works – Other City Buildings

David P. Oakes, Public Facilities and Energy Manager
860-584-6107
davidoakes@bristolct.gov

Service Narrative

This budget is administered by the Building Maintenance Division and provides for operation of maintenance repairs and renovations for the Animal Control Facility, the City's five Firehouses, Beals Senior Community Center, Youth Services, Public Works City Yard facilities, Main Library, Manross Library and other buildings transferred to the City. Transferred buildings include schools closed by the Board of Education plus private properties obtained by the City through purchase and foreclosure actions. Duties include minor and major maintenance as well as coordination with outside vendors for maintaining the building structures and plant.

Fiscal Year 2020 Goals and Accomplishments:

- Managed maintenance operations and repair to City Firehouses, Senior Center, Youth Services, Animal Control and Library facilities.
- Monitored engineering consultant preparation of HVAC improvements at Fire Headquarters. Convert heating system from heating oil to natural gas.
- Restored vestibules at 51 High Street building to maintain historic aesthetic of building.
- Complete indoor air quality studies at all Fire Houses based on staff concerns.
- Replaced Senior Center chiller electrical feeds, including conduit runs. Work at Senior Center also included the replacement of steel utility access hatches.
- Upgraded lighting fixtures at Main Library to LEDs, including exterior lighting.
- Completed annual State required painting of Animal Control kennels and associated kennel fencing repairs to meet established standards.

Summary of Fiscal Year 2020-2021 Budget:

- Obtain adequate funding to maintain and improve City Building infrastructure, grounds and occupant comfort.
- Purchase additional floor cleaning machine to maintain buildings.
- Continue to administer City Council Building Committee projects including Senior Center sidewalks and floor tile replacement, boiler replacement at High Street building and Main Library plaster repairs/lead abatement.

Fiscal Year 2021 Goals:

- Establish an annual contract to provide inspections and services on all City building roof systems to maintain existing warranties.
- Develop an inventory of HVAC stock supplies (motor, pumps and miscellaneous components) to proactively be prepared for breakdowns and minimize down time of equipment.

Long Term Goals:

- Establish a long term capital improvement program for Other City Buildings for the replacement of equipment and infrastructure, including but not limited to: HVAC equipment, roofing systems, underground storage tank removals, fire safety systems, elevators, windows and doors.

Public Works – Fleet

James DiVirgilio, Public Works Fleet Manager
860-584-7792 ext. 100

Service Narrative

This division manages the capital fleet and equipment purchases and replacements for Public Works. The division researches and drafts detailed specifications for procurement of fleet vehicles and equipment, as part of the approved annual budget. As part of asset management, fleet condition is analyzed, life expectancy is forecasted, and a replacement schedule is established to focus on meeting the operational needs of each division. The division continually seeks ways to achieve greater reliability and lower operational and maintenance expenditures.

The 2020-2021 budget of \$818,000 approved by the Board of Finance appropriately funds the identified needs of the Public Works Department.

Public Works – Line Painting

Service Narrative

The Public Works Line Painting cost center provides funds for repainting faded pavement markings on approximately 234 linear miles of City streets. The existing roadway painting deteriorates due to age, traffic loads and normal sun damage. The work, which is performed by outside contractors and overseen by the Public Works Engineering Division, consists of the reestablishment of all pavement marking within the City right-of-way, including roadway center lines, pavement edge (fog) lines, crosswalks, stop bars, traffic arrows, and parking spaces. The purpose of this work is to support safe traffic flow on City streets.

Expenditures consist primarily of contracted services of a pavement marking contractor (99% of budget). However, account expenditures also includes overtime for inspection and traffic control provided by off duty police.

Fiscal Year 2020 Goals and Accomplishments:

- Engineering Department oversees the installation of epoxy paint pavement markings in accordance with Manual on Uniform Traffic Control Devices (MUTCD) standards (crosswalks, stop bars, roadway center lines, edge lines and traffic signal markings).
- Maintained existing roadway pavement markings to ensure vehicle safety while traveling City roadways.

Summary of Fiscal Year 2020-2021 Budget:

- Maintain existing pavement line painting level of service.

Fiscal Year 2021 Goals:

- Inspect and evaluate existing roadway pavement markings for deficiencies.
- Recommend and coordinate modification to pavement markings with Police Department Traffic Control Division to improve safety.
- Maintain the Department of Public Works Graphical Information System (GIS) pavement marking layer.
- Maintain roadway pavement marking program to ensure compliance with MUTCD standards.
- Implement best management practices to maintain roadway pavement markings.

Long Term Goals:

- Improve roadway pavement markings on City roads to support autonomous and self-driving vehicles.
- Implement pavement marking asset management system.

Public Works – Street Lighting

Service Narrative

The City purchased the roadway street lighting infrastructure from Connecticut Light and Power, now Eversource Energy, in December 2014. The Engineering Division manages the City LED street lighting system (repairs street light outages and coordinates installation of new lights). The Public Works Department is responsible for the maintenance and utility costs associated with more than 5,480 streetlights, as well as the installation of new streetlights at locations approved by the Miscellaneous Matters Committee of the Board of Public Works. Maintenance and new installations are done under contract by a private vendor working for the City.

Fiscal Year 2020 Goals and Accomplishments:

- Managed City LED street lighting system (repair street light outages and coordinates installation of new lights).
- Revised street light maintenance contract unit payment items, quantities and provisions to reduce cost and improve response time.
- Implemented measure to standardize street lights on newly constructed subdivision roads.

Summary of Fiscal Year 2020-2021 Budget:

- Maintain LED street light level of service on City streets.
- Address need for additional street lighting in areas where there are no utility poles.

Fiscal Year 2021 Goals:

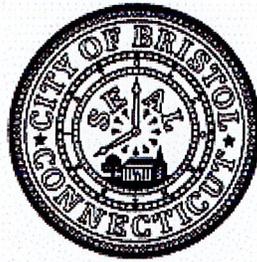

- Minimize street light outages and repair time by improving coordination with City vendor and Eversource Energy.
- Improve communication and coordination with Eversource Energy of pole replacement and maintenance.
- Increase schedule requirements associated with developer installation of street lights on new subdivisions.
- Maintain LED street light layer on the Department of Public Works Graphical Information System (GIS).

Long Term Goals:

- Investigate and implement street light technologies associated with dimmer control street lights and public Wi-Fi access.
- Improve energy efficiency of street lights to reduce electrical costs.

Transfer Station Fund

Service Narrative

The Transfer Station of the Public Works Department functions for the purpose of depositing solid waste, rubbish and recyclables generated in the City by residential property owners, tenants, and commercial entities not meeting the requirements for disposal at the waste-to-energy facility located in Bristol. Automated curbside collection vehicles deposit collected single-stream recyclables in an enclosed building at the Transfer Station to maximize hauling efficiency and eliminate site litter. The Transfer Station also accepts curbside-collected recyclables from Wolcott's private hauler.

Detail regarding Transfer Station Permits, payments and other information can be found at <http://www.bristolct.gov/237/Transfer-Station>

Fiscal Year 2020 Goals and Accomplishments:

- Maintain compliance with CT DEEP environmental permits and regulations.
- Upgrade scale software and install credit card system for Saturday emergency use.
- Modify employee hours to reduce Saturday overtime cost.
- Modify fees from 100 lbs. free per trip to 100 lbs. free per day. In addition, increase required user account balance from \$5 to \$25 to decrease non-collection rate.
- Issue RFP to install a 1.1 MW photovoltaic solar panel array on a portion of the un-used landfill.
- Reconstruct sections of existing retaining walls along brush and leaves/grass collection areas.
- Implement on-site processing of woody debris and leaf materials at the transfer station. Generated compost is sold and wood chips are provided to Covanta Energy.

Summary of Fiscal Year 2020-2021 Budget:

- Grind leaves and yard waste from the 2019 collections and start the composting process.
- Renew CT DEEP Landfill Stewardship permit.
- Install roof gutters on recycling building to eliminate water saturation of recycling materials to reduce recycling cost.
- Purchase new rubbish, recycling and yard waste barrels to replenish current inventory.
- Purchase new hang tags for our PAYT program.
- Initiate CIP project to repair and eliminate erosion of landfill slopes to maintain compliance with CT DEEP requirements.
- Implement new policies to provide 100 lbs. free disposal for only on the first visit.

Fiscal Year 2021 Goals:

- Maintain compliance with CT DEEP environmental permits and regulations.
- Increase Trash to Treasure program.
- Install new directional signage.

Long Term Goals:

- Develop and implement programs to reduce the quantity of solid waste generated within the City through education and public awareness to reduce disposal cost of refuse and recyclable material and reduce impact on the environment.

Solid Waste Disposal Fund

Service Narrative

The Solid Waste Disposal fund is used to account for the operations of the City's solid waste disposal program. Solid waste expenditures made from this fund are used to cover municipal solid waste (MSW) tip fees. This includes all costs for the disposal of City refuse collected curbside by the City's Public Works Solid Waste Division. Tip fees are set in a 2012 Municipal Solid Waste and Recycling Services Agreement dated December 21, 2012 with a term extending through June 30, 2034. Tip fee is adjusted annually using a CPI index for the period ending March 31 of the immediately preceding contract year with a minimum 1.75% and maximum 3.25% annual increase. The primary funding source is by a transfer from the General Fund.

Fiscal Year 2020 Goals and Accomplishments:

Develop "Reduce, Reuse, and Recycle" (RR&R) community education program to promote reduction in solid waste disposal. The RR&R education included the implementation of a "trash to treasure" program, recycling app, school garden, and compost seminars.

Summary of Fiscal Year 2020-20201 Budget:

Contract cost to process curbside collected recyclables is based in part on commodity price of recyclable items. Due to current commodity prices the cost of processing recyclables continues to increase.

Fiscal Year 2021 Goals:

- Implement program to promote the reduction of municipal solid waste in order to reduce recycling and refuse disposal cost.
- Educate residents on ways to reduce solid waste and recycling.
- Implement/investigate measures to reduce cost associated with disposal of municipal single stream recycling, including separation of glass from the existing single stream recycling stream.

Long Term Goals:

Develop and implement programs to reduce the quantity of solid waste generated within the City through education and public awareness to reduce disposal cost of refuse and recyclable material and reduce impact on the environment.

Service Narrative

This budget is administered by the Public Works Building Maintenance Division and provides for maintenance repairs and renovations for the Animal Control Facility, the City's five Firehouses, Beals Senior/Community Center, Youth Services, Public Works City Yard facilities, Main Library, Manross Library and other buildings transferred to the City. Transferred buildings include schools closed by the Board of Education plus private properties obtained by the City through purchase and foreclosure actions. Duties include minor and major maintenance as well as coordination with outside vendors for maintaining the building structures and plant.

Fiscal Year 2019 Goals and Accomplishments:

- Replaced deteriorated steel hatches that service Beals Center north wing tunnel access.
- Installed natural gas service to 111, 131 and 181 North Main Street, and convert all fuel oil boiler burners to natural gas burners
- Removal of fuel oil underground storage tank at Fire Headquarters
- Prepared vacated Court House space at 131 North Main Street for future use
- Completed a site wide LED lighting upgrade at the Main Library
- Completed a steam trap study and implemented repairs and
- Replaced electrical feed lines at Beals Center chiller unit
- Completed replacement of gymnasium lighting at Beals Center with LED fixtures
- Completed replacement of Quonset hut lighting at Transfer Station with LED fixtures
- Completed indoor air quality assessments at all Fire Houses based on staff concerns
- Installed low flow water aerators in restrooms at City Buildings for water/cost savings

Summary of Fiscal Year 2020-2021 Budget:

- Complete repairs of deteriorated wall plaster in the historic section of the Main Library
- Install rain gutters on Transfer Station Recycling Building to eliminate water infiltration
- Replace floor tiles in southern wings of the Beals Center (asbestos abatement required)
- Replace sidewalk at Beals Center extending to Stafford Avenue and a small section between Senior Center and BOE BECC entrances
- Replace the HVAC controls air compressor at the Police Complex which has exceeded its life cycle (pneumatic lines control HVAC valves in the facility)
- Replace the main electrical switchgear in the Police Complex which has exceeded its life cycle
- Replace the fuel oil boiler at 51 High Street with a natural gas condensing boiler for energy efficiency (installation of a natural gas feed by Eversource required)

Fiscal Year 2020 Goals:

- Replace antiquated battery bank for emergency lighting at Bristol Police/Court Complex.
- Replace water damaged 277V panel at Bristol Police/Court Complex (including masonry repairs)
- Install new security system at Transfer Station office, scale House and Quonset hut.
- Replace the flat EPDM roof system at 51 High Street
- Repair and replace rotted wood trim and complete exterior painting at 51 High Street
- Complete a Facility Condition Assessment at the Police Complex for future capital planning
- Complete a comprehensive mechanical upgrade of Fire Headquarters including: electrical system upgrades, HVAC systems and boiler replacement, lighting upgrades, overhead door replacement, store front and window replacements and kitchen upgrade
- Complete a mechanical systems study of the Police Complex for future capital planning purposes

Facility	Project	Approved
Transfer Station	Recycling Building Gutters	\$18,000
Senior Center	Floor Tile Replacement	\$37,000
Senior Center	Sidewalk Replacement	\$35,000
Police Complex	HVAC Control Compressor Replacement	\$45,000
Police Complex	Electrical Switchgear Replacement	\$87,000
51 High Street	Boiler Replacement	\$28,000

MEMORANDUM

DATE: July 9, 2020

TO: Mayor Ellen Zoppo-Sassu
Board of Public Works

FROM: Raymond A. Rogozinski, P.E., Director of Public Works

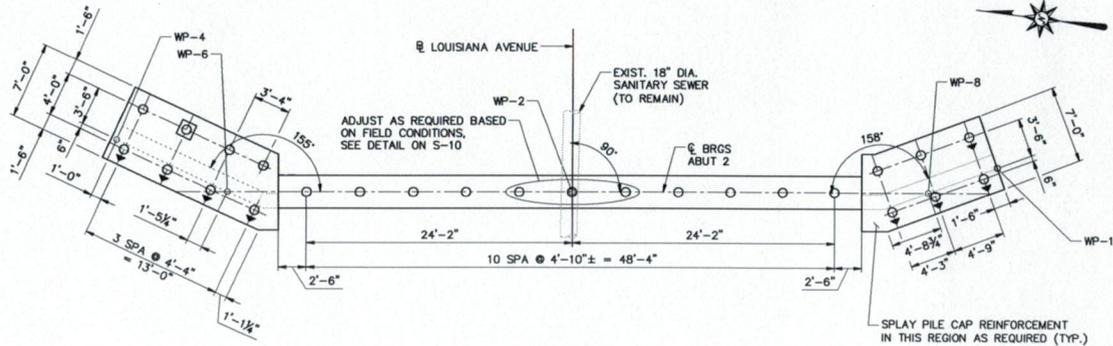

Re: DPW Louisiana Ave Bridge Update

The project to replace the Louisiana Ave Bridge is currently progressing with the start of installing micro-piles to support foundation footings. The installation of micro-piles is a critical phase for both the impact to adjacent property owners and project schedule. Micro-piles consist of drilling 10 inch diameter holes into bedrock, injecting grout and rods to support the bridge. The micro-piles extend approximately 50 feet below grade and the bridge construction requires 50 piles.

One of the concerns during micro-pile installation is vibration of the adjacent properties, in particular if rock boulders are encountered. During installation of the test pile performed today, minimal vibration occurred. In order to monitor vibrations contract specifications require the installation of a seismograph and a precondition survey was performed on both the interior and exterior of each of the adjacent homes.

A copy of the micro-pile detail is attached along with a project schedule. It is estimated that installation of the piles will take approximately 25 days and should be completed in mid-August in order to meet the project schedule of opening up the roadway prior to winter.

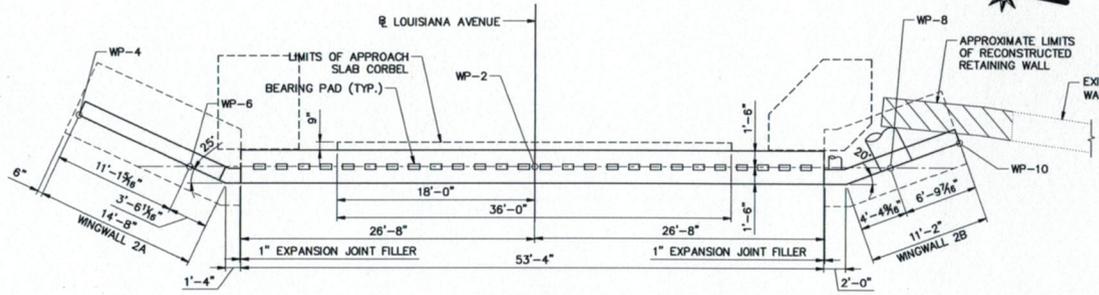

Please feel free to contact me with any questions / concerns or **to contact me to arrange a site visit of project construction** site at 860-584-6113.

PILE NOTES

- PILE SPACING SHOWN ARE ALONG THE CENTERLINE OF THE PILES.
- LAP SPlicing OF THE CENTRAL REINFORCEMENT IS NOT PERMITTED.
- CASING JOINTS ARE NOT PERMITTED IN THE UPPER (10) FEET OF THE MICROPILE.
- PERMANENT CASING SHALL HAVE A MINIMUM STRENGTH OF 30 KSI.
- MICROPILE GROUT SPECIFICATIONS:
WATER/CEMENT RATIO = 0.40-0.50 (BY WEIGHT)
GROUT IS TO BE PRODUCED WITH POTABLE WATER
TYPE I/II CEMENT CONFORMING TO ASTM C150/AASHTO M85
NON-SHRINK GROUT IS TO BE USED
SEE SHEET NO. S-1 FOR GROUT COMPRESSIVE STRENGTH
- MICROPILE DESIGN LOADS:
STRENGTH I:
AXIAL (COMPRESSION) = 160 KIPS
SHEAR (LATERAL) = 21 KIPS
SERVICE I:
AXIAL (COMPRESSION) = 131 KIPS
SHEAR (LATERAL) = 9 KIPS
ALL LOADS APPLY AT THE PILE HEAD
- PILE TO FOOTING CONNECTION AND MICROPILE TOP ATTACHMENT SHALL BE DESIGNED BY CONTRACTOR PER SPECIFICATIONS FOR ALL APPLICABLE MICROPILE DESIGN LOADS DEFINED ABOVE.
- ESTIMATED PILE LENGTH:
ABUTMENTS = 70 FT
WINGWALLS = 70 FT
- ESTIMATED CASING LENGTH:
ABUTMENTS = 50 FT
WINGWALLS = 50 FT
- ESTIMATED BOND LENGTH:
ABUTMENTS = 20 FT
WINGWALLS = 20 FT

Department of Public Works | 860.584.6125

Board of Public Works – Admin Report – June 2020

Public Works Monthly Metrics:	
Number of Residential Transfer Station Visitors	5366
Number of Bulk Collections	381

Division Recaps:

Administration current month:

- PAYT reporting and debt collection is continuing, Communications and press releases, social media, website maintenance and enhancements, managing Street Light repair requests and Shopping Cart ordinance compliance.
- Outreach to Reduce & Reuse trash and use of Recycle Coach app. Currently there are 3760 users of the app.
- Pursued 25 abandoned shopping carts, resulted in zero fines.
- Welcome packets have been going out Monthly including recycle magnets or any events we have scheduled.
- Assisting with Solid Waste Illegal Bulk letters and fines. We have received 59 complaints in June that resulted in 5 fines.
- The Outdoor classroom project was being filmed by CPTV on June 22nd. The entire process went great all of our staff was very helpful and it was complete by 1:30pm. The tapping will air in October. We did the filming at Edgewood and Ivy Drive.
- Working with The Parks Department on fun Earth activities to do during summer & teen camp.
- Yard Waste is continuing we have over 4000 completed applications. And we have picked up 81 barrels from non-renewing residents.
- Worked with United Way, The Mayors office, and Fleet Division to run our first Farm to Families event. Our staff was amazing and all 1500 boxes were handed out.
- Launched Solar for All

Administration next month activities:

- Enforcement of Illegal Bulk, Street light repair requests, welcome letters, PAYT debt collections, monitor illegal dumping areas. Continue outreach to increase to Reduce and Reuse and the use of Recycle Coach app due to being closed to the public.
- Continue working on web site & Facebook, Instagram and Twitter page to enhance presence. Everything is on our website and social media for residents to fill out or have their questions answered.
- All Heart Walk audit was submitted to Sustainable CT and will launch in July with an August start date. This is our 3rd Tool kit to accomplish silver with Sustainable CT.

Administration staff or concerns: OT \$542.34

Engineering Division current month activities:

- Community Connectivity Grant – (sidewalks, Mem Blvd bike path & ADA ramp) Grant received bid documents to be finalized.
- Installation of storm drainage in preparation of spring/fall 2020 major roadway maintenance.
- Parking lot design for Parks (Pine Lake Adventure Park)
- Summer paving list finalized.
- Riverside Ave Road Diet construction started.
- Additional drainage/ sidewalk work orders.
- Maple Ct survey received.
- LotCIP applications for Wolcott St and Downs St.
- Coordination meetings DOT/Eversource/Verizon/Water/City Departments Rte 72 & downtown area. Construction underway. (additional work scheduled)
- Permanent patch contract awarded to Laydon.
- Issue notice to proceed for Louisiana Avenue bridge.
- UST Class A/B Operator Training.
- Riverside Ave road diet construction & coordination (Laviero).
- Battle St underdrain installation. Woodhaven drainage complete.
- Signal timing study underway by VHB.
- Hope St parking lot oversight/survey
- Louisiana Bridge NTP issued and construction underway June 9. Road closing June 11.
- Complete 10 HR OSHA training.

Engineering Division next month activities:

- Review Jerome Ave Local Bridge RFQ's. Schedule Consultant interviews.
- Pine Lake final design of sed chamber
- Review Wolcott St RFQ's. Schedule Consultant interviews.
- Eversource gas main installation coordination for new mains and replacements – winter work.
- Sediment removal plans Frederick St bridge/Pequabuck culvert/floodway.
- Storm drainage school project – Northeast School.
- Work on paving list for fall.
- Drainage work for summer and fall paving lists.
- School Street retaining wall – complete associated restoration.
- Replace (cmp) storm drainage in Brightwood Rd.
- Work orders for ADA ramps at roads on paving list.
- Brook Street retaining wall replacement- review contract/bid (summer construction.)
- Coppermine Brook re-alignment construction Final restoration in spring.
- Huntington Woods final detention pond storm drain replacement design.
- Milling & paving scheduled for July 13.
- Road reclamation (waiting on water line installation in Atkins.)
- Schedule Collins Rd drainage improvements for fall.

Engineering Division staff or concerns: Vacancy –Excavation inspector (interview July) Overtime for Major Roadway Improvements Milling & Paving (Streets & Engineering Staff) \$6499.32

Land Use current month activities:

Zoning Commission

1. Special Permit and Site Plan for parking for a public school at 120 Memorial Boulevard – APPROVED WITH STIPULATIONS.

2. Special Permit for a home-based business at 140 Fern Hill Road – APPROVED.

Zoning Board of Appeals

The Board of Appeals did not meet in June.

Historic District Commission

The Commission did not meet in June

Planning Commission

3. Proposed amendments to the Zoning Regulations: to add drive-up facilities in the BD (Downtown Business) zone – RECOMMENDED APPROVAL.

Inland Wetlands & Watercourses Commission

4. Wetlands Application to install an in-ground swimming pool; 99 Redwood Drive – APPROVED WITH STIPULATIONS.

Land Use staff or concerns: Monthly overtime costs (Board/Commission Secretaries at meetings)_June: \$489.43

Building Maintenance current month activities:

- Provided access and direction to Accurate Insulation for supplemental cleaning/disinfection activities at City Buildings in regard to COVID-19
- Public Works staff continued coordination with CT GreenBank and PosiGen on a community energy campaign, Solar For All, an initiative offered through the SustainableCT program, campaign will be completed on September 30th
- Hosted two informational webinars with CT GreenBank and PosiGen staff on 6/16 at 5:30PM and 6/18 at 10AM regarding the Solar For All campaign, which will run through September 30th
- Building Maintenance Staff replaced water heater at City Yard that serves the Mechanic’s Garage, provided support to ECD and Mayor’s Office in regard to Farmer’s Market, replaced two door closers at Police Complex and door repairs at Youth Services, installed social distance floor decals at City Hall and prepared facility to reopen to Public on July 6th, addressed various HVAC leaks from aged pipe systems in City Hall
- Conducted pre-construction meeting at Fire Headquarters for site wide mechanical renovations on 6/5 with Millennium Builders, Fire Department Staff, Silver Petrucelli engineers and associated sub-contractors
- Millennium Builders initiated mechanical renovations for Fire Department Headquarters on June 15th
- Alarm New England completed upgrades and takeover activities associated with transition of fire and security monitoring systems for new contract on 7/1/20
- Premier Building Associates of Branford, CT selected as contractor for replacement of flat roof at 51 High Street with a winning bid of \$42,900.00
- Coordination with City Hall Departments in regard to July 6th reopening
- Facilities Manager met with Van Zelm Engineers for Police Complex mechanical improvements study on obtaining site documents/prints, site access and conduct a site walk visits on 6/11 and 6/23
- Tenants at 11 Bellevue (51 High Street) vacated on 6/2/20
- Conducted Class C UST Operator training with Building Maintenance staff and conduct annual UST compliance check with Atlas Environmental

Board of Public Works – Public Works Department Activity Report

- Oakland LLC installed water lines and vent for washer and dryer at Fire House #2, J&B Electric installed 240V outlet for dryer

Building Maintenance next month (August 2020) activities:

- Continue to provide evening disinfection/cleaning of City buildings in relation to COVID-19 and support other departments in regard to preparations for re-opening to the general public
- Collaborating with AVT Construction on Fire House #2 roof replacement schedule and coordination with Fire Department Staff
- Continue to improve and strengthen 2020 SustainableCT application with assigned Fellows and based on feedback from the reviewers of the early Spring application submission, final application filing date is August 28th
- Coordinate roof replacement project at 51 High Street with selected, winning contractor (Premier Building Associated of Branford, CT)
- Coordinate removal of asbestos vinyl floor tiles at Beals Center BBHD and Senior Center hallway wings and installation of new flooring prior to reopening in September
- Coordinate with Parks & Rec and Bristol Hospital to facilitate move in of new tenants at 51 High, 9 & 11 Bellevue Avenue (painting, floor cleaning and minor door/wall repairs required)
- Coordinate replacement of gas service line at Manross Library with Eversource and Library staff for July 15th

Building Maintenance Staff or concerns:

- Anticipate moderate to elevated levels of Vacation/Miscellaneous/Sick time off during July 2020 for summer vacations/time off
- 2nd Shift Custodian vacancy (Monday-Friday schedule), due to the promotion of Carlos Lorenzo to Computer Lab Supervisor at the Main Library
- Building Maintenance has had at least one vacancy since January 1, 2020 on 2nd Shift

Building Maintenance OT Costs: \$ 4,031.53: Staffing coverage for after-hour maintenance issues, sick time fill-ins (due to extended medical leave on 1st shift at Police Complex), and installation of repurposed front counter with glass partitions in Public Works offices (from former Court House)

Streets current month activities:

- Continued to provide all employees with cleaning supplies as well as masks due to COVID-19
- Continued with roadside maintenance of City properties, including litter and yard sign removal. This work will be on going throughout the seasons
- Serviced trees, including pruning, removals, and testing
 - Take downs including (Peck Lane, Merriam St, Frederick St, West Cemetery and Jerome Ave.)
 - Trimmed city trees on North Main St
 - Mowed all city detention ponds
 - Stump grinding
- Continuing small road repair
- Curb repair
- Driveway Aprons
- Loam
- Patched Potholes

Board of Public Works – Public Works Department Activity Report

- Street Sweeping
- Finished constructing PPE (sneeze guards) for city hall
- S6 made several trips for Health Department (PPE)
- Storm Drainage
 - Completed Basin Repairs (Marsh Rd, Cove Rd, Page Ave, Wynwood (2), Gayle Dr. and Fairfield)
 - Installing new poles and signage
 - Created 80 COVID-19 signs for Park Department
- Winter Operations
 - Mailbox Repairs
- Depot Square Parking Lot
 - Completed Grading Parking Lot at Depot Square and starting light bases
 - Finished installing walkway drainage as well as grading walkway

Streets next month activities:

- Continue with roadside maintenance
 - Street Sweeping
 - Potholes
 - Curb repair
 - Loam
 - Driveway aprons
 - Catch basin repair
- Winter Operations
 - Service Requests
 - Curbing
 - Mailboxes
- Continue addressing street road name signage replacement
 - Installing new poles and or signage
 - Look into printing other road signage of other Departments
 - Fixing and installing signs for Police Department
- Maintenance of city properties
 - Litter clean up
 - Lawn Maintenance
 - Bridge clean ups
- Continue tree take downs, trimming and stump grinding
- Continue work on Depot Square parking lot
- Continue to address seasonal maintenance activities, including preparation of seasonal operation equipment
- Assist other public work programs and departments as required

Streets staff or concerns: Street Division is currently addressing service requests from the general public with our maintenance programs. We have been managing these requests throughout designated areas. Monthly overtime cost \$1924.55 for call ins, and emergency responses and Winter Operations.

Solid Waste current month activities:

- Continued illegal bulk inspection and enforcement activities. We sent out 59 letters and picked up 5 illegal bulk stops.
- The bulk crew picked up 381 scheduled bulk stops, working Monday-Thursday.

Board of Public Works – Public Works Department Activity Report

- Continued on-site yard waste management activities at the Transfer Station and delivery of yard waste barrels to new customers. We had 192 new and renewed customers for the month of March.
- There are currently 4,052 active yard waste residents.
- Added Mondays to the bulk pick up schedule.
- Continued collection of reusable items for the Trash to Treasure program at the Transfer Station.
- Held Trash to Treasure event at the Farmers Market.
- Continued curbside Yard Waste collection, collection 332 tons of yard waste for the month.
- Fairbanks Scale replaced a load cell on the inbound scale at the Transfer Station.
- Mowed the landfill with R-29.
- Had laborers cut all high vegetation at the landfill, around vents, fence lines and washouts.
- Hired a new Solid Waste laborer.

Solid Waste next month activities

- Continue illegal bulk inspection and enforcement activities.
- Monitor manufacture and transportation process for additional rubbish, recycling and yard waste containers.
- Continue on-site yard waste management activities at Transfer Station and delivery of yard waste barrels to new customers.
- Continue the collection of reusable items for our Trash to Treasure program.
- Continue curbside Yard Waste collection.
- Continue to cut all high vegetation at the landfill.
- Work full Solid Waste operation on July 3rd, to make up for the July 4th holiday.

Solid Waste staff or concerns:

- Manage Solid Waste Division staffing levels.
- Manage Division vehicle equipment needs.
- Continue to cross train Division employees.
- Currently have 2 Solid Waste laborer positions open.

Fleet Maintenance current month activities:

- Solid Waste Div. (R17) Automated rubbish truck was diagnosed with a faulty turbo as well as a leaking hydraulic pump and a faulty actuator. Parts were ordered for a cost of \$6,992.00. Truck is scheduled to be online by mid-June.
- Solid Waste Div. (GR40) Automated rubbish truck was in for power steering line repairs. Truck is currently back online.
- Solid Waste Div. (GR39) Automated rubbish truck had some extensive welding done to the body to prevent rubbish from dropping onto the roadway. All done on site.
- Solid Waste Div. (R18) Automated rubbish truck came in for a check engine light. Truck was diagnosed with faulty emission code sensor. Truck was sent to Peterbilt under warranty.
- Solid Waste Div. (GR41) Automated rubbish truck had a water pump replaced on site for a cost of \$587.00
- Solid Waste Div. (R7) Automated rubbish truck came in with a Crank Sensor diagnosis. New sensor was installed but did not rectify the problem. Truck will be sent out to Peterbilt to examine the crankshaft with OEM equipment.
- Streets Div. (S23 & S26) 10 wheeled dump trucks were sent to Allison transmission for campaign/recall work.
- Streets Div. (C41) 2008 vector was sent to have a rear motor wiring harness and ignition switch replaced. Truck is back in service.
- Streets Div. (GC15) 2007 vector was put down due to a failing debris tank. (Rotting out).
- Streets Div. (C39) Excavator was diagnosed with failed relays for the buckets quick connect system. Fixed on site and is back in service.
- Streets Div. (S4) Ford pickup truck received new transmission cooler lines. Done on site and is back in service.
- Police Dept. MATV was diagnosed with a faulty power steering pump. Truck is currently on hold for repairs.
- Fuel pumps were examined and serviced since last inspection.

Fleet Maintenance next month’s activities:

- Continue scheduled services to our Fleet vehicles.
- Continue scheduled service to our Police Dept. vehicles.
- Continue to keep a safe working environment.
- Continue our social distance and Covid protocols.
-

Fleet Maintenance staff or concerns: We currently still have a Mechanic’s position open. Brenton Eckstrom filled Mechanic’s Helper position. The 6 employees including myself all passed our A/B/C UST underground storage tank class. Overtime expenditures and totals \$2,081.21 (Holiday, Dispatch and Mechanics).

Department of Public Works | 860.584.6125

MEMORANDUM

DATE: July 9, 2020

TO: Mayor Ellen Zoppo-Sassu
Board of Public Works

FROM: Carol Noble, P.E., Environmental Engineer

Re: DPW Engineering Division MS4 Presentation

Bristol's current MS4 (Municipal Separate Storm Sewer Systems) program is the product of a mandate by the U.S. Environmental Protection Agency (EPA) as part of its 1999 Stormwater Phase II rules and the response of CT Department of Energy and Environmental Protection (CT DEEP) to promulgate the state's *General Permit for the Discharge of Stormwater from Small Municipal Separate Storm Sewer Systems* (MS4 General Permit). The general permit requires each municipality to take steps to keep the stormwater entering its storm sewer systems clean before that stormwater enters water bodies.

Bristol is required to prepare and implement a Stormwater Management Plan (SMP), used as a guidance document to reduce the discharge of pollutants for City's storm drainage to the maximum extent possible; to protect water quality, and to satisfy the appropriate water quality requirements of the federal Clean Water Act. The SMP provides for six minimum control measures; including Public Education and Outreach, Public Involvement and Participation, Illicit Discharge Detection and Elimination, Construction Site Stormwater Runoff Control, Post-construction Stormwater Management in New Development or Redevelopment, and Pollution Prevention/Good Housekeeping. The MS4 General Permit requirements include focused efforts and documentation for current City programs; such as street sweeping, catch basin cleaning, snow management, public education, public input and staff training. The permit requirements also include extended provisions for runoff reduction, low impact development, illicit discharge detection, and outfall monitoring. Identification/prioritization of stormwater projects are required to be phased in and reported in a one to five year time period.

The diffuse or "nonpoint source" pollution is the next big challenge in cleaning our water bodies. This program regulates how municipalities (and institutions) manage their stormwater to help reduce the number of pollutants being carried into our water bodies.

**CITY OF BRISTOL
BOARD OF FINANCE AGENDA REQUEST FORM**

To: Board of Finance Commissioners

From: Public Works
(Requesting Department)

Date: July 8, 2020
(Submission Date)

For the July 28, 2020 Board of Finance Meeting Agenda
(Date of Meeting)

This request is for:
(Please check the type of request and list in whole dollar amounts)

- Additional Appropriation \$ 9,664
- Transfer from Contingency \$ _____
- Transfer(s) \$ _____
- Grant \$ _____
- Carry-over(s) \$ _____
- Other

Approval:

This request was approved by the _____
(governing Board of your department)

at its meeting held on July 16, 2020.
(date)

(Department Head's signature)

All requests to appear on the Board of Finance meeting agenda for consideration must be submitted to Jodi McGrane in the Comptroller's Office by 10:00 a.m. Monday of the preceding week of the meeting. Board of Finance Meetings are held on the fourth Tuesday of each month at 5:30 p.m. in the Council Chambers.

Board of Finance Agenda Request Form

Reason for request:

Additional appropriation from the Storm Water Trust for payment of overtime for maintenance of the Storm Water Detention Ponds performed by Public Works and repairs to a fence at the Old Orchard Road gate.

Additional Appropriation(s) and/or Appropriation(s) complete the following:

Account	Account Name	Amount
0013028 490700	Storm Water Trust Tran In Trust	\$9,664
0013028 515100	Storm Water Trust Overtime	\$9,254
0013028 543000	Storm Water Trust Repairs & Maintenance	\$410

Transfer(s) complete the following:

From: _____	To: _____	Amount: _____

Public Works | 860-584-6125

Memorandum

Date: July 14, 2020

To: Mayor Ellen Zoppo-Sassu
From: Raymond A Rogozinski, P.E., Director of Public Works

Re: **Request to Remove Concrete Sidewalk and Install Bituminous Driveway
28 Session Street**

The Department of Public Works has received a request from the property owner of 29 Session Street to remove the existing sidewalk and construct a bituminous asphalt drive. The purpose of the request is to transition the driveway apron to Session Street. Due to the grade difference of the roadway gutter and existing back of walk vehicles currently scrape when utilizing the driveway.

Based on a review of the area, similar request have been approved along Session Street (17 Session St & 368 Main St), therefore the Department of Public Works recommends the following Board of Public Works action:

Approve the request of the property owner at 29 Session Street to remove the concrete sidewalk and install a bituminous asphalt driveway to accommodate grade change.

Copy of request attached.

Please feel free to contact me with any questions/concerns at 860-584-6113.

July 9, 2020

City of Bristol
Board of Public Works
Attn: Mayor Ellen Zoppo-Sassu
111 North Main St
Bristol, CT 06010

RE: 29 Session Street – Waiver Request for Sidewalk/Driveway Apron

Dear Mayor,

My company WCTD Investments, LLC, has several multi-family properties in the City (14 Dwight Street, 48 Kelly Street, and this 29 Session Street), and I'm a majority owner of Firefly Hollow Brewing Company on Center Street. We are invested in the community. I'm writing to you to request a waiver of the requirement to have the sidewalk run through our driveway at 29 Session Street until the City can replace the sidewalk on our (North) side of the street. Here's why:

Overall, there is an 18" vertical grade change from the sidewalk closest to the roadway to the edge of pavement 4 feet away, and the sidewalk cross pitch is incorrect, as it pitches away from the road. It is not a functional situation. Typical standard of change from roadway edge of pavement to the sidewalk is curb height of 6" and they are supposed to pitch $\frac{1}{4}$ " towards the road. With the 18" vertical grade change over 4 feet, no vehicle can safely get up it without bottoming out or getting stuck on the curb as one of our workers has already done. They literally had to have someone hold down the passenger side of the car to get the wheels back on the ground to get out. It is unsafe as is.

(Photo shows 18" grade change from edge of roadway to edge of sidewalk)

Our property was built in 1870, long before any paved roadways or sidewalks were constructed. Also, long before the automobile was even thought of. When the sidewalks were installed, sometime

between 1870 and now, they didn't really take into account the vehicles of today for our property. The sidewalk may have worked for a horse, but not an automobile.

We purchased this dilapidated 4 family property 2 years ago and have been diligently rehabilitating this blighted property to today's standards and aesthetics that the City strives for. We are hopefully a few weeks away from putting these rental units back online and need make the driveway functional as there is limited parking on the street, and we want to utilize our property for the 4 units we are putting online.

We have been trying to get contractors in to fix the situation since October when we first met with the City to discuss the issue, and no one wants to touch it. No contractor wants to touch this, because they know there is no easy solution, as it would require regrading through the neighboring property and reconstruction of their driveway too. Also, the sidewalk is so shoddy along this side of the street that they don't want to be near it, for fear of it getting worse.

The current sidewalk on our side (North) is in deplorable condition and failing throughout the majority of the length of the road. On neighboring properties the sidewalk is missing in some areas, cracked beyond repair, and spalling to where you can only see aggregate in other sections. Of the 4 driveways on our side of the street, 2 have already eliminated their sidewalk through the driveways, as we are requesting, and our driveway to roadway elevational change is twice as bad. We need a safe driveway for our 4 rental units to safely enter and exit the property, similar to our neighbors multi-family driveways shown below.

Neighboring Property that we access our site from at times, where they paved through the sidewalk, as we hope to do. Note the condition of the sidewalk.

Photo from next door neighbors, showing the condition of the sidewalk along the rest of the roadway on our side, and the adjacent property that also paved through the sidewalk. Note the missing section of sidewalk not even in a driveway, and the 2nd driveway paved through the sidewalk.

South side of Session Street sidewalk, directly across from our property. Note, that it is new, and the grade change is 6" vertical change.

The curb currently runs partially into our driveway opening, and our driveway directly abuts a neighboring property. There is no way to depress the sidewalk within our property limits to meet sidewalk requirements as the taper would take us through the neighbor's driveway too.

Our current driveway and sidewalk interface. Note the 20" vertical change on right and the curb extends into the driveway, the close proximity to the property line, and the deplorable condition.

We understand that the City isn't like to reconstruct the sidewalk on the north side of Session Street this summer because the City already has a nice new sidewalk on the business side (South) of the road, and they currently have no plans out for bid on this project. We respectfully request a waiver to match the neighboring driveways to the west of us, whereby we pave through the dilapidated sidewalk to match the other 2 multi-family driveways on our street.

We appreciate your help with this matter. As an owner of several businesses in Bristol, we strive to make this a City a better place. We hope you can help us with this waiver request. Please feel free to contact me by phone: 860 538 0080 or email Tom@LLSLight.com. I am a registered Professional Engineer, and would be happy to discuss this with your engineering staff to come to a resolution.

Sincerely,

Thomas DeSantos

Public Works | 860-584-6125

Memorandum

Date: July 14, 2020

To: Mayor Ellen Zoppo-Sassu

From: Raymond A Rogozinski, P.E., Director of Public Works

Re: **Eversource request to relocate a portion of the existing access road located south of Mountain Road on the City's road right of way.**

The Department of Public Works has received a request from Eversource to relocate a portion of an existing access road onto the City's Mountain Road right of way. The access road in question intersects Mountain road approximately 180 feet east of Down Street and is used by Eversource to access the power lines south of Mountain road. A portion of the access road is currently located on private property owned by Hillside Community Church and Eversource is proposing to reconstruct approximately 100 feet of access road to relocate it approximately 12 feet to the north off the private property and onto the City's right of way.

Based on a review of field condition work will be limited to the area immediately adjacent to the existing access road, therefore the Department of Public Works recommends the following Board of Public Works action:

Approve the Eversource request to relocate a portion of the existing access road (located south of Mountain Road, 180 feet east of Down Street) north onto the City's Mountain Road right of way (approximately 12 feet). Said approval shall be subject to install a roadside barrier along the northern edge of a portion of the access road and providing a gate to limit access.

Copy of mapping provided by Eversource is attached.

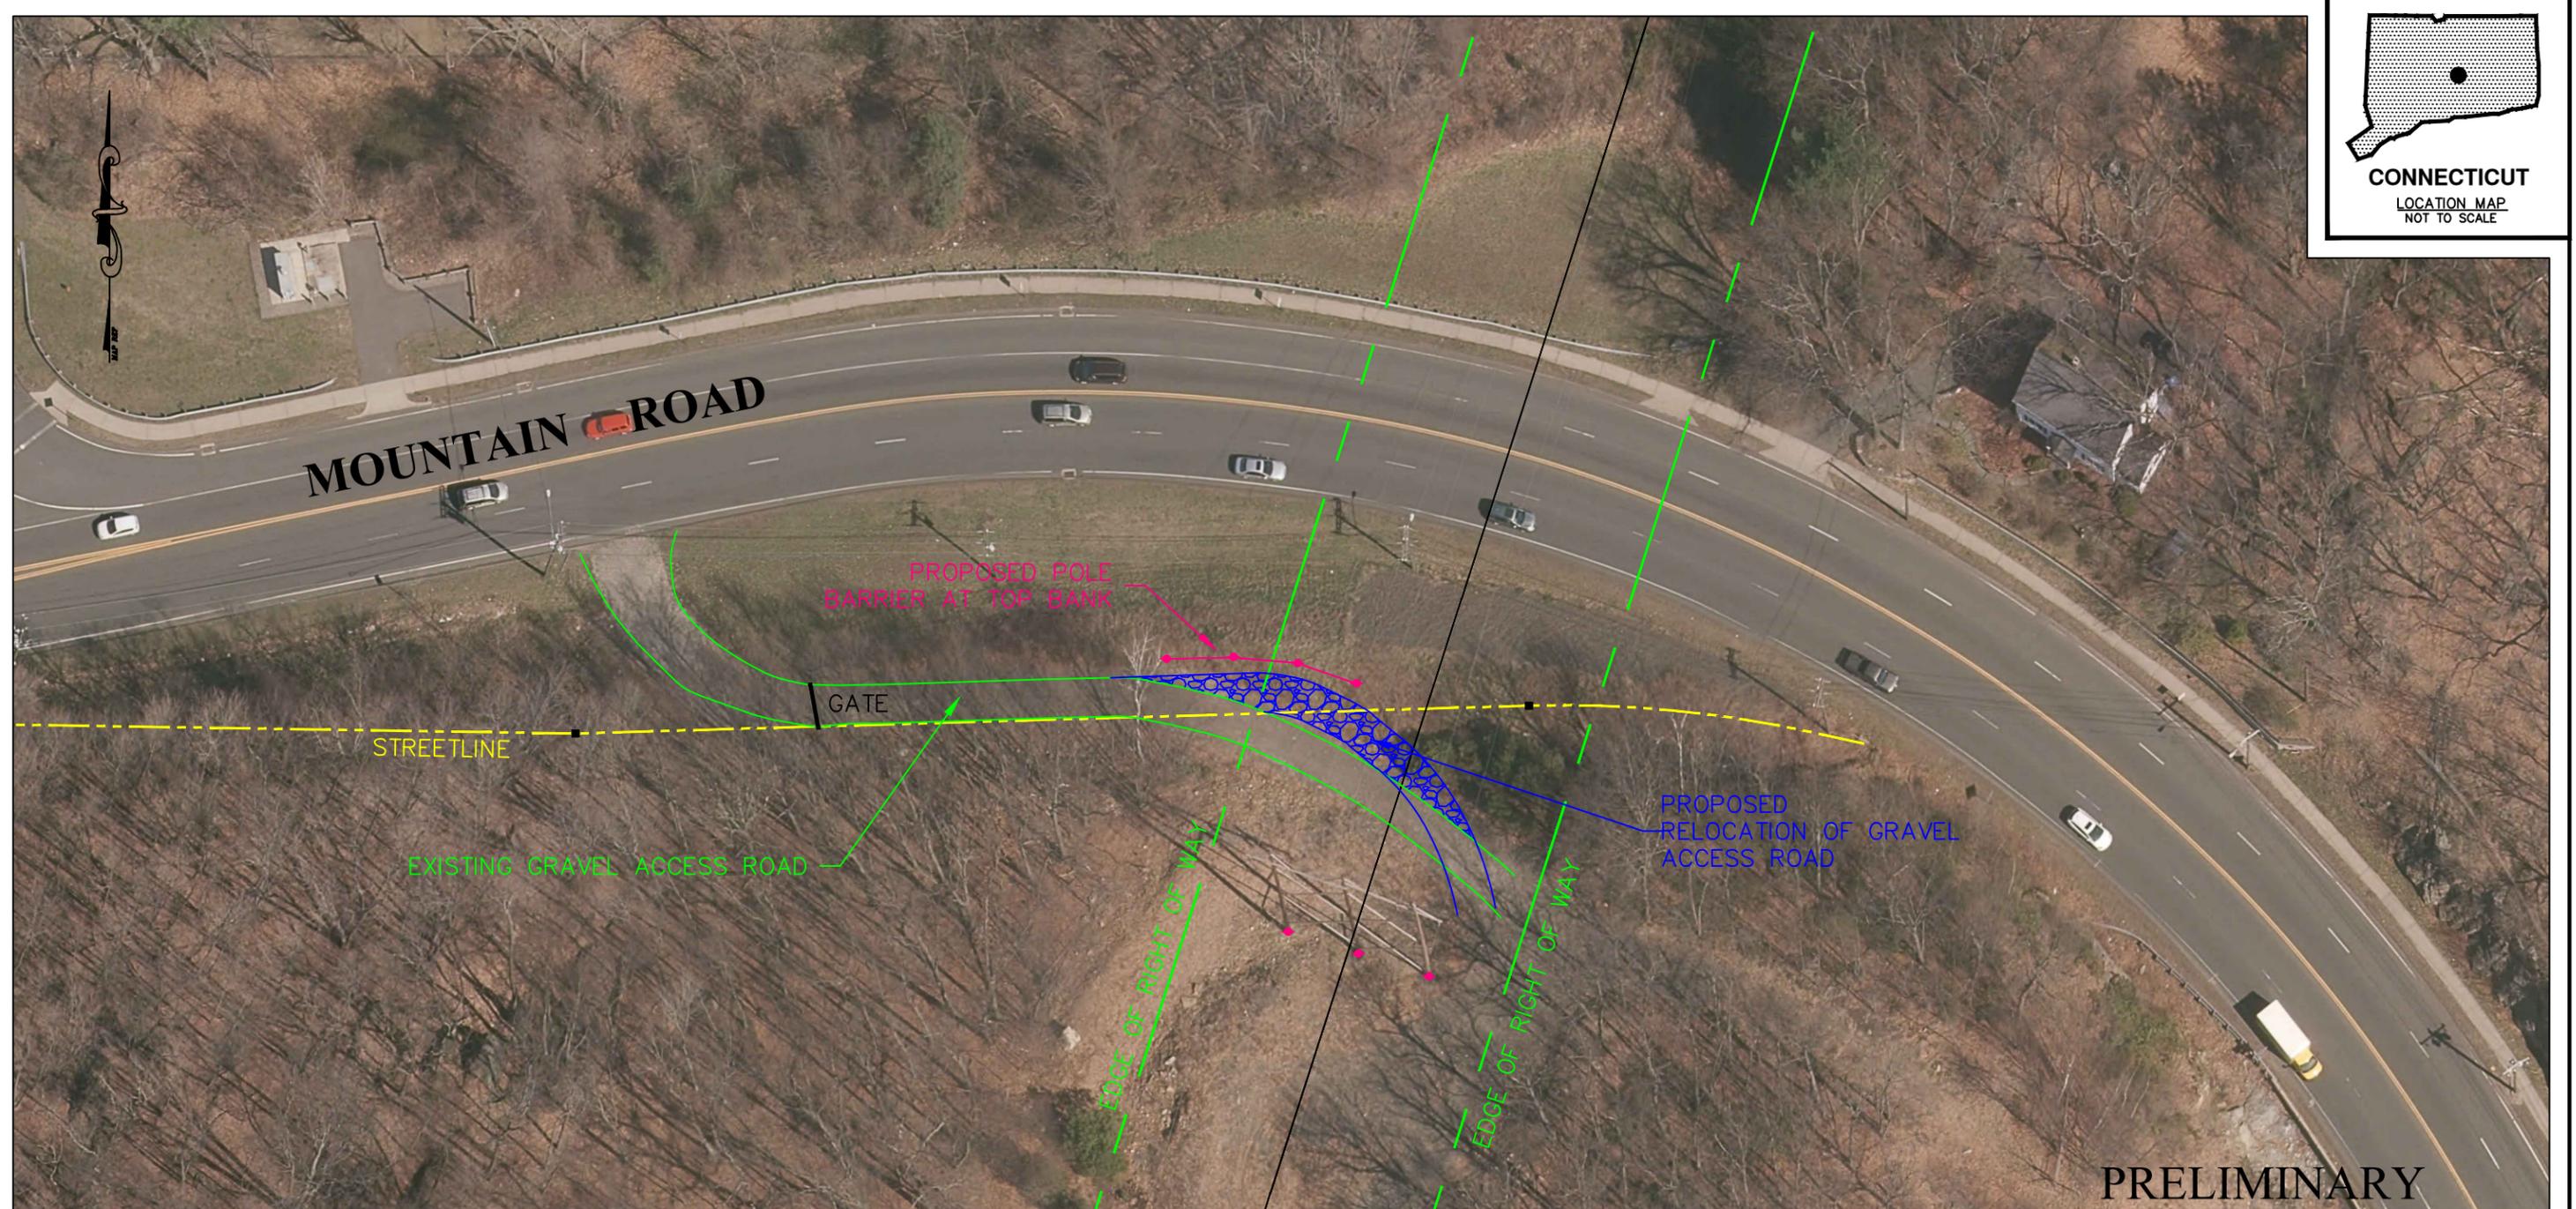

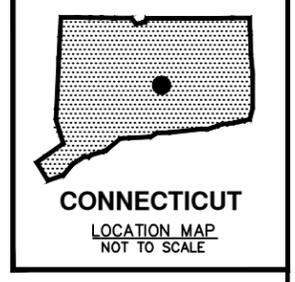

Please feel free to contact me with any questions/concerns at 860-584-6113.
