

Engine 4

Monthly Report

December 2020

Summary

Engine 4 responded to 53 calls during the month of December.

Personnel

The crews continue to work well under ever changing condition due to Covid.

All Engine 4 personnel were fit tested and issued N95 this month.

On Dec 25th Engine 4 responded to a car vs pedestrian on Middle St. On arrival one police officer was performing CPR to a male victim. FF Chapin and FF Spatkowski went right to work securing the scene to make it safe from oncoming cars and FF Chapin and I took over BLS efforts until the victim was loaded into the ambulance. Both firefighters showed a clear calm attitude and operated with professionalism in the carrying out of their duties in an obvious high stress environment.

Apparatus/Equipment

Nothing to report

Fire Stations/Facilities

The floor in the main hall had several floor tiles bubbling up. It was found that this was a problem with the glue and not water intrusion. Public works made the necessary repairs in a timely manner using supplies we had from our "attic stock".

Miscellaneous

Nothing to report

Respectfully submitted,

Todd Correll
