

Engine 4 Monthly Report February 2021

Summary

Engine 4 responded to 39 calls during the month of February.

Personnel

There has been a few personnel changes recently at Station 4. We welcome LT. Dufour and FF. Rossi to Engine 4 on the B shift. Wish LT. Minella and FF. Wollman the best of luck on their new assignments.

Apparatus/Equipment

Engine 4 put the new E-Draulic extraction tools in service this month. This cutter and spreader pair greatly increase the abilities of Engine 4. Thanks again to all involved in this unplanned expenditure.

Fire Stations/Facilities

Public works did a temporary patch to the front walk of the fire house. There was a lip where two concrete pad meet causing a trip hazard. The plan is to have a company come in the spring and float the sinking pad to level it up.

Air temp made repairs to the mini split system in our electrical room.

Miscellaneous

Nothing to report

Respectfully submitted,

Todd Correll

Todd Correll, Captain
