

## PRESS INFORMATION

At 1500hrs the Bristol Fire Dept. was notified of a possible chemical leak at the Clean Harbors Facility, 761 Middle St. The building had been evacuated prior to fire dept. arrival. The DEEP was notified and responded. A Level "A" Hazardous Material entry was made by Clean Harbors personnel to assess the situation inside the building. The Bristol Fire Dept. and Bristol EMS stood by on location. No chemicals were found to be leaking. The Bristol health Dept. cleared the building for reentry. The incident is under investigation by the DEEP.
